

VEHHE WDHSTZ-SLR

VEHHE Shower Head with Hose Instruction Manual

Model: WDHSTZ-SLR

1. INTRODUCTION

This manual provides detailed instructions for the installation, operation, and maintenance of your VEHHE Shower Head with 1.5 Meter Shower Hose. Please read this manual thoroughly before installation and use to ensure proper function and longevity of the product.

2. PRODUCT FEATURES

- **5 Spray Modes:** Offers a variety of water flow patterns including strong mist, heavy rain, rain massage, pulsation massage, and a pause mode for diverse showering experiences.
- **Water Saving Design:** Engineered to reduce water consumption by approximately 30% compared to conventional shower heads, promoting efficient water use.
- **Pressure Boosting:** Designed to enhance water pressure, providing a more powerful shower experience even in low-pressure environments.
- **1.5 Meter Chrome Shower Hose:** Includes a high-quality stainless steel hose with durable brass fittings, resistant to cracking and suitable for hard water conditions.
- **360-Degree Swivel Joint:** The hose connection allows for arbitrary rotation without tangling, extending the product's lifespan and ease of use.
- **Removable Nozzle Plate:** The shower head's nozzle plate can be removed for easy cleaning and removal of mineral deposits or impurities.
- **Universal Compatibility:** Features a standard G1/2 interface, compatible with most shower systems.

This image illustrates the water-saving capability and pressure-boosting design of the shower head, showing a comparison of water flow and a 30% water saving icon.

3. PACKAGE CONTENTS

- 1 x VEHHE Shower Head
- 1 x 1.5 Meter Stainless Steel Shower Hose

4. SETUP AND INSTALLATION

Follow these steps to install your new VEHHE Shower Head and Hose:

1. **Prepare:** Ensure your water supply is turned off before beginning installation.
2. **Remove Old Shower Head (if applicable):** Unscrew your existing shower head and hose from the shower arm. Clean any residue from the shower arm threads.
3. **Connect Hose to Shower Arm:** Take one end of the 1.5-meter shower hose and screw it onto your existing shower arm. Hand-tighten first, then use a wrench if necessary, but do not overtighten. Ensure a washer is properly seated inside the hose connection to prevent leaks.
4. **Connect Shower Head to Hose:** Screw the VEHHE Shower Head onto the other end of the 1.5-meter shower hose. Hand-tighten securely. Ensure a washer is properly seated.
5. **Check for Leaks:** Turn on the water supply and check all connections for leaks. If leaks occur, tighten connections slightly or re-seat the washers.

UNIVERSAL G1/2 interface

Fits most standard shower joints or hose

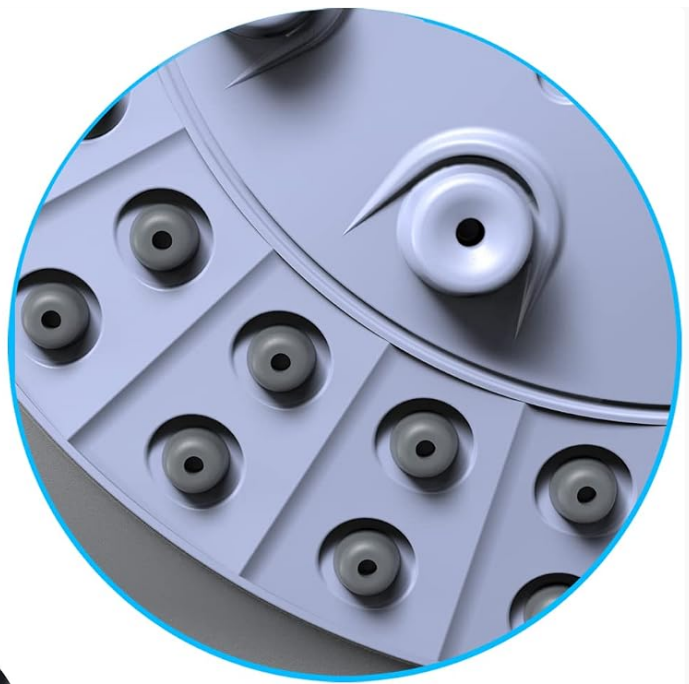

This image demonstrates the universal G1/2 interface and the process of connecting the shower head and hose to a standard shower arm.

5. OPERATING INSTRUCTIONS

Your VEHHE Shower Head offers 5 distinct spray modes. To switch between modes, simply rotate the dial on the shower head face. Each click will engage a different spray pattern:

- **Strong Mist:** A fine, invigorating spray.
- **Heavy Rain:** A full, drenching shower.
- **Rain Massage:** A combination of rain and pulsating streams.
- **Pulsation Massage:** Concentrated, rhythmic streams for muscle relaxation.
- **Pause Mode:** Temporarily reduces water flow to a trickle, useful for lathering or shaving without changing temperature settings.

Silicon nozzles
are easy to clean

This image displays the five distinct spray patterns available by rotating the shower head's dial.

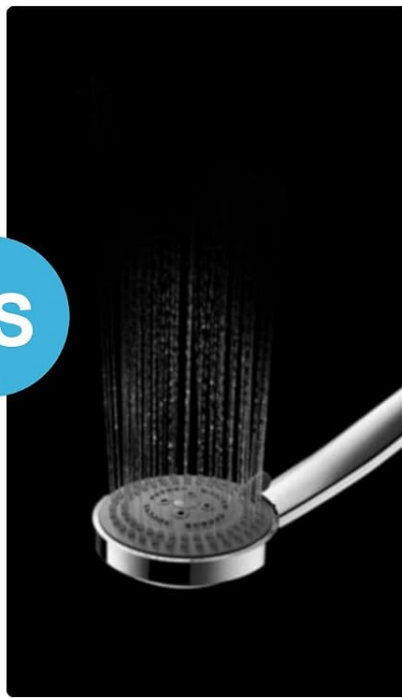

6. MAINTENANCE

Regular maintenance ensures optimal performance and extends the life of your shower head:

- **Cleaning Nozzles:** The silicon nozzles are designed for easy cleaning. Simply rub your finger across the nozzles to dislodge any mineral buildup or debris.
- **Deep Cleaning:** For more stubborn deposits, the nozzle plate can be carefully removed. Soak the plate in a solution of white vinegar and water for 30 minutes, then scrub with a soft brush and rinse thoroughly before reattaching.
- **Hose Care:** Periodically check the shower hose for any signs of wear or damage. The stainless steel construction is durable, but proper care prevents premature wear.

7. TROUBLESHOOTING

If you encounter issues with your VEHHE Shower Head, refer to the following common solutions:

- **Low Water Pressure:**

- Ensure the main water supply valve is fully open.
- Check for clogs in the shower head nozzles (refer to Maintenance section for cleaning).
- Verify that the hose is not kinked or obstructed.

- **Leaking from Connections:**

- Ensure all connections are tightened securely, but do not overtighten.
- Check that rubber washers are properly seated and not damaged at each connection point (shower arm to hose, hose to shower head). Replace if necessary.

- **Difficulty Switching Modes:**

- Mineral buildup can sometimes hinder the rotation mechanism. Clean the shower head thoroughly, especially around the mode selector dial.

8. SPECIFICATIONS

Feature	Detail
Brand	VEHHE
Model Number	WDHSTZ-SLR
Part Number	KHS005
Colour	silver-grey
Style	Modern
Finish	Polished
Material	Acrylonitrile Butadiene Styrene
Shape	Round
Installation Method	Wall Mounted
Item Package Quantity	1
Hose Length	1.5 Metres
Special Features	5 Mode Massage Flow
Product Dimensions	12 x 6.5 x 12.7 cm; 450 g
Number of Settings	5

9. WARRANTY AND SUPPORT

For warranty information or technical support, please refer to the retailer's return policy or contact the manufacturer directly. Keep your purchase receipt as proof of purchase.
