Setup

Package Contents

Ensure all items are present in the package:

- Hyper Tough 800 Lumens Rechargeable LED Flashlight
- USB Charging Cable
- Integrated Lithium-Ion Battery (pre-installed)

Initial Charging

Before first use, fully charge the flashlight. The device is equipped with a built-in lithium-ion battery.

1. Locate the charging port cover at the end of the flashlight.
2. Carefully lift the yellow rubber cover to expose the Micro-USB charging port.

Figure 2: Close-up view of the flashlight's charging port, protected by a yellow rubber cover.

3. Insert the smaller end of the provided USB charging cable into the flashlight's Micro-USB port.

Figure 3: The included USB charging cable for the flashlight.

4. Connect the larger end of the USB charging cable to a standard USB power source (e.g., computer USB port, USB wall adapter).
5. The charging indicator light will illuminate red during charging.

Figure 4: Flashlight connected to power, showing the red indicator light during charging.

6. Once fully charged, the indicator light will turn green.

Figure 5: Flashlight fully charged, indicated by the green light.

7. Disconnect the charging cable and securely close the rubber cover to protect the port from dust and moisture.

Operating Instructions

Power On/Off and Mode Selection

The flashlight features multiple light modes: High, Medium, and Low.

- To turn the flashlight **ON**, press the power button located on the body of the flashlight.
- Each subsequent press of the power button will cycle through the light modes: High → Medium → Low.
- To turn the flashlight **OFF**, press the power button after cycling through all modes, or hold the button down for a few seconds in any mode.

Using the Pocket Clip

The integrated steel pocket clip allows for convenient carrying and hands-free operation.

- Attach the flashlight to your belt, pocket, or tool bag for quick access.
- The anti-roll shape of the flashlight, combined with the clip, helps prevent it from rolling on flat surfaces, enabling hands-free working.

Maintenance

Recharging the Battery

To maintain optimal performance, recharge the flashlight when the light output becomes dim or when the battery is low. Refer to the "Initial Charging" section for detailed steps.

- A full charge provides approximately 3 hours of run time.
- Always ensure the rubber charging port cover is securely closed when not charging to protect against dust and moisture.

Cleaning and Storage

- Wipe the flashlight body with a soft, damp cloth. Do not use abrasive cleaners or solvents.
- Store the flashlight in a cool, dry place away from direct sunlight and extreme temperatures.
- For long-term storage, it is recommended to charge the battery every 3-6 months to preserve battery life.

Troubleshooting

Problem	Possible Cause	Solution
Flashlight does not turn on.	Battery is depleted.	Recharge the flashlight fully.
Light is dim or flickers.	Low battery charge.	Recharge the flashlight.
Flashlight not charging.	USB cable not properly connected or faulty power source.	Ensure cable is securely connected to both flashlight and power source. Try a different USB port or wall adapter.
Charging indicator light not working.	Flashlight already fully charged, or connection issue.	Check if the light turns green (fully charged). Re-seat the USB cable.

Specifications

Feature	Detail
Brand	Hyper Tough
Model	B07X3W492K
Light Source Type	LED
Luminous Flux (Brightness)	800 Lumens
Beam Distance	96 Meters
