1. INTRODUCTION

Thank you for choosing SCITOO Manual Folding Side View Mirrors. This manual provides essential information for the proper installation, operation, and maintenance of your new mirrors. Please read these instructions carefully before installation and retain them for future reference. These mirrors are designed as direct replacements to ensure clear rear vision and enhance driving safety.

2. VEHICLE COMPATIBILITY

These SCITOO side view mirrors are compatible with the following vehicle models:

- 1992-1994 Chevrolet Blazer
- 1988-1999 Chevrolet C1500, C2500, C3500
- 1988-1999 Chevrolet K1500, K2500, K3500
- 1992-1999 Chevrolet C1500 Suburban, C2500 Suburban, K1500 Suburban, K2500 Suburban
- 1995-2000 Chevrolet Tahoe

Note: Ensure your vehicle's make, model, and year match the compatibility list to guarantee proper fitment and function. These mirrors feature manual folding adjustment.

3. PRODUCT FEATURES

- **Manual Folding:** Designed to fold manually, protecting the mirrors in tight spaces or during parking.
- **Direct Replacement:** Engineered to match original equipment specifications for a seamless fit and function.
- **Durable Construction:** Made from high-quality materials to ensure strength, durability, and longevity.
- **Clear Visibility:** Provides clear rear vision for enhanced driving safety.
- **Easy Installation:** Identical mounting points and compatible with existing electrical wiring for straightforward installation.

4. INSTALLATION GUIDE

Professional installation is highly recommended for optimal results. If you choose to install the mirrors yourself, please follow these general steps:

1. **Gather Tools:** You will need basic hand tools such as a screwdriver set, socket wrench set, and potentially a trim removal tool.
2. **Safety First:** Ensure the vehicle is parked on a level surface with the engine off and parking brake engaged.
3. **Remove Old Mirror:**
 - Carefully remove the interior door panel to access the mirror mounting bolts and electrical connector.
 - Disconnect any electrical connectors attached to the old mirror.
 - Unbolt the old mirror from the door frame.
 - Remove the old mirror assembly.
4. **Install New Mirror:**
 - Position the new SCITOO mirror assembly onto the door frame, aligning the mounting points.
 - Secure the new mirror with the provided bolts, ensuring they are tightened appropriately.
 - Connect the electrical wiring harness from the new mirror to the vehicle's existing connector.
5. **Test Functionality:** Before reassembling the door panel, test the mirror's manual folding function.
6. **Reassemble:** Reinstall the interior door panel, ensuring all clips and screws are securely fastened.

PRODUCT DETAILS

01

• OEM Standard Paint

The painting on the mirror will keep in great status after long-time usage as we use the original car standard paints accumsan lacus vel facilisis.

02

• Joint Details

The product interface is strong and durable, and it is very easy to use and operate. Because we have verified it many times to ensure its stability.

03

• Stable Triangle Base

The use of high-quality raw materials allows you to have a safer and more stable feeling while driving your car.

5. OPERATION

These mirrors are designed for manual adjustment and folding.

- **Mirror Adjustment:** To adjust the mirror glass, gently push on the edges of the mirror glass until you achieve the desired viewing angle. Ensure the mirror provides a clear view of the area behind and to the side of your vehicle.
- **Manual Folding:** To fold the mirror, grasp the mirror housing and gently push it towards the vehicle body until it folds inward. This protects the mirror from damage in narrow spaces or when parked. To return it to the driving position, gently pull the mirror housing outward until it locks into place.

6. MAINTENANCE

Regular maintenance will help prolong the life and functionality of your SCITOO side view mirrors.

- **Cleaning:** Clean the mirror glass with standard automotive glass cleaner and a soft cloth. Avoid abrasive cleaners or materials that could scratch the glass or housing.
- **Inspection:** Periodically inspect the mirror housing and mounting points for any signs of damage, looseness, or wear. Ensure all screws are tight.
- **Lubrication:** If the manual folding mechanism becomes stiff, a small amount of silicone-based lubricant can be applied to the pivot points.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Mirror shakes or vibrates during driving.	Loose mounting bolts or internal components.	Check and tighten all mounting bolts. If the issue persists, inspect internal mirror components for damage.
Mirror is difficult to fold manually.	Dirt or debris in the folding mechanism, or lack of lubrication.	Clean the folding mechanism and apply a silicone-based lubricant to the pivot points.
Poor visibility or distorted reflection.	Dirty mirror glass or damaged mirror glass.	Clean the mirror glass thoroughly. If the glass is damaged, it may need replacement.

If you encounter issues not listed here or if the suggested solutions do not resolve the problem, please contact SCITOO customer support for assistance.
