OneOdio Pro50

OneOdio Pro50 High Resolution Headphones User Manual

Model: Pro50

Introduction

Thank you for choosing the OneOdio Pro50 High Resolution Headphones. These professional monitor headphones are designed for exceptional sound quality, ideal for DJing, studio work, musical instrument practice, mixing, and general audio enjoyment. Featuring a 50mm dynamic driver, the Pro50 delivers balanced, high-fidelity audio with clear highs and tight lows.
This manual provides essential information for setting up, operating, and maintaining your headphones to ensure optimal performance and longevity.

Package Contents

Please check that all items are present in your package:

- OneOdio Pro50 Headphones
- 3.5mm Audio Cable
- 3.5mm to 6.35mm Curl Cord
- Carrying Pouch
- Instruction Manual

Setup

Connecting Your Headphones

The OneOdio Pro50 headphones feature dual input ports (3.5mm and 6.35mm) for versatile connectivity.

1. **Identify the correct cable:** Use the 3.5mm audio cable for devices with a standard headphone jack (e.g., smartphones, laptops). Use the 3.5mm to 6.35mm curl cord for professional audio equipment (e.g., mixers, amplifiers, audio interfaces).
2. **Connect to headphones:** Insert the smaller end of the chosen cable into either the 3.5mm or 6.35mm port on the headphone earcup.
3. **Connect to audio source:** Insert the other end of the cable into the corresponding audio output port on your

device.

Operating Instructions

Wearing the Headphones

Adjust the headband to ensure a comfortable and secure fit. The earcups are designed to fully enclose your ears for optimal sound isolation and comfort during extended use. The soft, double-layered memory foam earpads contribute to stress-free wearing.

Figure 4: Headband size adjustment for a personalized fit.

Single-Ear Monitoring

The earcups feature a 90-degree swivel mechanism, allowing for convenient single-ear monitoring, which is particularly useful for DJs and studio professionals.

Figure 5: Headphones folded for portability and swiveled for single-ear monitoring.

Music Sharing Function

Utilize the dual input ports to share audio with another pair of headphones. Connect your Pro50 headphones to an audio source, then connect a second pair of headphones to the unused input port on your Pro50.

In-line Controls (if applicable)

Some versions of the 3.5mm audio cable may include an in-line microphone and media controls.

- **Play/Pause:** Press the button once.
- **Next Track:** Press the button twice.
- **Previous Track:** Press the button three times.
- **Answer/End Call:** Press the button once during an incoming call or active call.
- **Reject Call:** Press and hold the button during an incoming call.

Maintenance

Cleaning

To clean your headphones, gently wipe the earcups and headband with a soft, dry cloth. For the faux leather parts, a slightly damp cloth can be used, followed by immediate drying. Avoid using harsh chemicals or abrasive cleaners.

Cable and Earpad Replacement

The audio cables and earpads are detachable, allowing for easy replacement if they become worn or damaged. This feature extends the lifespan of your headphones.

Storage

When not in use, fold the headphones compactly and store them in the included carrying pouch to protect them from dust and damage.

Troubleshooting

- **No Sound:**
  - Ensure the audio cable is securely connected to both the headphones and the audio source.
  - Check the volume level on your audio source.
  - Try a different audio cable or audio source to rule out cable or device issues.
- **Sound Distortion:**
  - Lower the volume on your audio source.

- Ensure the audio cable is fully inserted and not damaged.

- **Microphone Not Working (if applicable):**
  - Ensure the cable with the in-line microphone is being used.
  - Check your device's audio settings to ensure the correct microphone input is selected.

Specifications

Feature	Detail
Brand	OneOdio
Model Name	Pro50
Driver Size	50mm Dynamic Driver
