KAWADA NBH_197

KAWADA Nanoblock Himeji Castle NBH_197 Instruction Manual

Introduction

Thank you for choosing the KAWADA Nanoblock Himeji Castle NBH_197 building set. Nanoblock offers a unique micro-sized building experience, allowing for intricate detail in compact models. This manual provides essential information and guidance for assembling, maintaining, and enjoying your Himeji Castle model.

The Himeji Castle model is part of the Nanoblock Sights to See series, designed to recreate famous landmarks with precision. This set contains 490 pieces, offering a rewarding building challenge.

Safety Information

Please read the following safety guidelines carefully before beginning assembly.

- **Choking Hazard:** This product contains small parts and is not suitable for children under 3 years of age. Keep all pieces away from infants and young children to prevent accidental ingestion.
- **Adult Supervision:** Adult supervision is recommended during assembly, especially for younger builders.
- **Handling:** Handle small pieces with care to avoid loss or damage.

Package Contents

Before starting assembly, please verify that all components are present in your package.

- Nanoblock pieces (490 pieces, various shapes and colors)
- Instruction sheet with detailed diagrams

If any parts are missing or damaged, please refer to the 'Troubleshooting' section for assistance.

Assembly Instructions

Follow these steps carefully to assemble your Nanoblock Himeji Castle model. Refer to the included instruction sheet for specific piece placement and layer-by-layer diagrams.

1. **Prepare Your Workspace:** Choose a clean, flat, and well-lit surface to work on. This will help prevent losing small pieces.
2. **Sort Pieces:** It is highly recommended to sort the Nanoblock pieces by color and shape before you begin. This will

significantly speed up the assembly process.

3. **Follow the Diagrams:** The included instruction sheet provides detailed, step-by-step diagrams. Each step shows which pieces to add to the previous layer. Pay close attention to the orientation and placement of each block.
4. **Build Layer by Layer:** Nanoblock models are typically built from the base upwards, layer by layer. Ensure each layer is securely connected before proceeding to the next.
5. **Use Gentle Pressure:** Nanoblocks fit snugly. Apply gentle, even pressure to connect pieces. Avoid excessive force, which could damage the blocks.
6. **Review Each Step:** Before moving to the next step, double-check your work against the diagram to ensure accuracy.

Display and Care

Once assembled, your Nanoblock Himeji Castle is a display piece. Follow these guidelines for its care.

Display

- Place your model on a stable, flat surface away from direct sunlight to prevent potential discoloration over time.
- Keep it out of reach of small children and pets to avoid accidental damage or disassembly.

Cleaning

- To remove dust, use a soft brush or a can of compressed air.
- For more thorough cleaning, gently wipe the blocks with a slightly damp cloth. Avoid harsh chemicals or abrasive materials.

Troubleshooting

If you encounter any issues during assembly or with your product, please refer to the following common solutions.

- **Missing Pieces:** Carefully re-check your workspace and packaging. If pieces are genuinely missing, contact KAWADA customer support with your product model number (NBH_197) and a description of the missing parts.
- **Difficulty Connecting Pieces:** Ensure the blocks are correctly aligned. Nanoblocks require a firm but gentle push to connect. If a piece seems too tight, double-check its orientation.
- **Unclear Instructions:** Review the diagrams carefully. Sometimes rotating the instruction sheet or viewing the model from a different angle can help clarify a step. Online communities or official Nanoblock resources may also offer visual aids.

Specifications

Brand	KAWADA
Model Number	NBH_197
Product Name	Nanoblock Himeji Castle
Number of Pieces	490
Approximate Assembled Dimensions	Refer to packaging for exact dimensions (typically compact, e.g., 3.15 x 3.15 x 3.15 inches, actual dimensions not provided in input for assembled model, using a placeholder for typical nanoblock size). *Note: Product Dimensions 43.31 x 1.81 x 5.59 inches from input likely refer to package dimensions.*
Item Weight	3.88 ounces (approx. 110 grams)
ASIN	B07XB6LH5H
