

ZEBRONICS Zeb-Calyx

Zebronics Zeb-Calyx Wired In-Ear Earphones with Mic

User Manual

INTRODUCTION

The Zebronics Zeb-Calyx wired in-ear earphones are designed to provide a clear audio experience with the convenience of an in-line microphone. Featuring a stylish design and lightweight construction, these earphones are compatible with most mobile phones and tablets equipped with a 3.5mm audio jack. Enjoy deep bass and comfortable listening for extended periods.

WHAT'S IN THE BOX

- 1 unit Earphone
- 1 pair Earbuds (additional)

SETUP

Setting up your Zebronics Zeb-Calyx earphones is straightforward. Follow these steps for initial use:

1. **Identify the 3.5mm Audio Jack:** Locate the 3.5mm audio jack on your mobile phone, tablet, or other compatible audio device. This is a standard circular port.
2. **Connect the Earphones:** Insert the 3.5mm connector of the Zeb-Calyx earphones firmly into the audio jack of your device. Ensure it is fully seated to prevent audio issues.
3. **Adjust Earbuds:** Select the appropriate size earbuds for a comfortable and secure fit. An extra pair of earbuds is provided for customization. Gently insert the earphones into your ears.

The 3.5mm jack connects to your audio device, and the in-line control features a multi-function button.

The earphones come with a 1.2-meter cable and an additional pair of earbuds for a comfortable fit.

OPERATING INSTRUCTIONS

The Zebronics Zeb-Calyx earphones feature an in-line remote with a multi-function button for easy control of audio playback and calls.

Music Playback

- **Play/Pause:** Press the multi-function button once to play or pause music.
- **Next Track:** Press the multi-function button twice quickly to skip to the next track.
- **Previous Track:** Press the multi-function button three times quickly to go back to the previous track.

Call Function

- **Answer/End Call:** Press the multi-function button once to answer an incoming call or end an ongoing call.
- **Reject Call:** Press and hold the multi-function button for approximately 2 seconds to reject an incoming call.

Volume Control

Volume control is typically managed directly from your connected mobile phone or tablet. The in-line remote on the Zeb-Calyx earphones does not include dedicated volume buttons.

The earphones are designed for deep bass audio and include an in-line microphone for calls.

MAINTENANCE

Proper care and maintenance will extend the lifespan of your Zebronics Zeb-Calyx earphones.

- **Cleaning:** Use a soft, dry cloth to wipe the earphones and cable. Do not use harsh chemicals or abrasive materials.
- **Earbud Hygiene:** Regularly remove and clean the silicone earbuds with a mild soap solution and water. Ensure they are completely dry before reattaching.
- **Storage:** When not in use, store the earphones in a clean, dry place, away from direct sunlight and extreme temperatures. Avoid tangling the cable by coiling it neatly.
- **Avoid Water Exposure:** These earphones are not water-resistant. Avoid exposure to water, sweat, or high humidity.
- **Handle with Care:** Do not pull the cable forcefully or subject the earphones to excessive bending or twisting, especially near the connectors.

TROUBLESHOOTING

If you encounter issues with your Zebronics Zeb-Calyx earphones, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
No sound or low volume	• Earphones not fully plugged in. • Device volume is too low or muted. • Incorrect audio output selected on device. • Damaged cable or connector.	• Ensure the 3.5mm jack is fully inserted into the device. • Increase the volume on your device. • Check your device's audio settings to ensure output is directed to the earphones. • Test with another device. If the issue persists, the earphones may be damaged.
Microphone not working	• Microphone port blocked. • Device settings for microphone input. • Damaged microphone.	• Ensure the microphone on the in-line remote is not covered. • Check your device's audio input settings. • Test with another device. If the issue persists, the microphone may be damaged.
Sound distortion or crackling	• Loose connection. • Damaged cable. • Audio source quality.	• Ensure the 3.5mm jack is securely connected. • Test with another audio source or device. • Inspect the cable for visible damage.
