SETUP

1. **Unwrap the Doll:** Carefully remove the outer packaging to reveal the doll nestled inside its blanket or swaddle.
2. **Remove the Blanket:** Gently unwrap the doll from its blanket. The blanket may be shaped like a flower, cat, or unicorn, depending on the doll.
3. **Prepare for Eye Reveal:** The doll's eyes will initially be closed. To reveal the eye color, proceed to the Operating Instructions section.

OPERATING INSTRUCTIONS

1. **Eye Color Reveal:** To discover your doll's eye color, gently wipe the doll's eyelids with a damp cloth or sponge. The eyes will then open, revealing their color.
2. **Feeding the Doll:** Fill the included baby bottle with water. Place the bottle into the doll's mouth. The doll is designed to drink the water.
3. **Diaper Color Change:** After feeding, the doll will wet its diaper. Observe the diaper as it changes color to reveal a unique pattern. This feature is activated by moisture.

CARE AND MAINTENANCE

- **Cleaning the Doll:** Wipe the doll's body with a damp cloth as needed. Do not submerge the entire doll in water unless specified for cleaning.
- **Diaper Care:** After the diaper changes color, allow it to dry completely before reuse or disposal. Additional diapers may be purchased separately.
- **Storage:** Store the doll and its accessories in a clean, dry place away from direct sunlight and extreme temperatures to prevent damage.
- **Fabric Accessories:** The blanket/swaddle can be hand-washed with mild soap and air-dried.

TROUBLESHOOTING

- **Eyes Not Opening:** Ensure the cloth used is sufficiently damp and gently wipe the eyelids. Repeat if necessary.
- **Diaper Not Changing Color:** Confirm that the doll has been fed water and the diaper is wet. The color change is activated by moisture. If the diaper is already wet, allow it to dry completely before attempting the feature again.

- **Water Leakage:** Ensure the bottle is properly inserted into the doll's mouth during feeding. If leakage persists, check for any visible damage to the doll or bottle.
