## OPERATING INSTRUCTIONS

---

### DPI Adjustment

The ELITE-M40 mouse features a 4000 DPI optical sensor with 6 adjustable levels. Use the dedicated DPI buttons (usually located below the scroll wheel) to cycle through the sensitivity settings. Each level corresponds to a different DPI value, allowing you to adjust cursor speed on the fly.

### Programmable Buttons

The mouse is equipped with 7 programmable buttons. These buttons can be customized using the Spirit Of Gamer software to perform various functions, macros, or commands. Refer to the software section for detailed instructions.

### RGB Lighting Control

The ELITE-M40 features customizable RGB backlighting with 10 effects. Lighting modes and colors can be adjusted through the dedicated software. This allows for personalization of the mouse's aesthetic to match your setup or preference.

### Software Overview

The downloadable software provides comprehensive control over the mouse's features:

- **Button Assignment:** Assign functions, macros, or keyboard commands to any of the 7 programmable buttons.
- **DPI Settings:** Fine-tune DPI levels and assign them to the 6 available stages.
- **RGB Lighting:** Select from various lighting effects, colors, and adjust brightness or speed.
- **Profiles:** Create and save up to 5 different profiles for various games or applications, allowing quick switching between configurations.
- **Polling Rate:** Adjust the mouse's polling rate (e.g., 1000Hz) for optimal responsiveness.

## MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the mouse surface. Avoid using harsh chemicals or abrasive materials.
- **Sensor Care:** Keep the optical sensor on the underside of the mouse clean and free from dust or debris to ensure accurate tracking.
- **Cable Management:** Avoid sharp bends or excessive pulling on the USB cable to prevent damage.
