PRODUCT OVERVIEW

The Home Life Premiere Classics Platform Bed is a full-size bed frame featuring high-quality linen construction and a 51-inch tall headboard. Designed for convenience, it includes sturdy slats, eliminating the need for a bulky box spring. This complete bed solution provides a comfortable and stylish foundation for your mattress.

A full-size platform bed featuring a light beige linen upholstered headboard with tufting and nailhead trim, and a matching upholstered bed frame. The bed is shown without a mattress.

SAFETY INFORMATION

Always follow assembly instructions carefully. Ensure the mattress used is appropriate for the bed frame's dimensions and weight capacity. This platform bed is designed to be used without a box spring; do not attempt to use one as it may compromise stability. Keep the bed frame away from direct heat sources and open flames. Regularly inspect all connections to ensure they remain secure.

SETUP & ASSEMBLY

This section provides detailed instructions for assembling your new platform bed. It is recommended to have a second person assist with assembly for ease and safety.

Package Contents

Your bed frame will arrive in two separate boxes. Please ensure all components are present before beginning assembly.

- Headboard components
- Side rails
- Footboard
- Support legs
- Wooden slats
- Hardware pack (screws, bolts, washers, Allen wrench)

Tools Required (Not Included)

- Phillips head screwdriver
- *Optional:* Power drill for securing slats (some pre-drilled holes may not be present on slats)

Assembly Steps

1. **Unpack and Identify Parts:** Carefully remove all components from the packaging. Lay them out on a clean, soft surface to prevent scratches. Refer to the included parts list to identify each piece.
2. **Attach Headboard Legs:** Secure the support legs to the headboard using the provided bolts and washers. Ensure they are tightened securely.
3. **Connect Side Rails to Headboard:** Align the side rails with the headboard brackets. Insert bolts and tighten them firmly. Do not overtighten.
4. **Attach Footboard:** Connect the other end of the side rails to the footboard. Ensure all connections are stable and secure.
5. **Install Center Support Legs (if applicable):** If your model includes center support legs for the slats, attach them now.
6. **Place Slats:** Lay the wooden slats across the bed frame, ensuring they are evenly spaced. The slats provide direct support for your mattress, eliminating the need for a box spring.
7. **Secure Slats:** Using a Phillips head screwdriver or a power drill, secure each slat to the side rails. While some pre-drilled holes may be present, additional drilling might be necessary to fully secure all slats for optimal stability.
Ensure screws do not penetrate through the fabric.
8. **Final Check:** Verify that all bolts and screws are tightened and the frame is stable.

The light beige linen platform bed is shown assembled in a bedroom with a mattress, pillows, and bedding. The headboard features tufting and nailhead trim, complementing the room's decor.

USAGE

Your HomeLife Premiere Classics Platform Bed is designed to provide sturdy support for your mattress without the need for a traditional box spring. Simply place your mattress directly onto the installed wooden slats.

- **Mattress Compatibility:** This bed frame is designed for use with a standard full-size mattress.
- **Weight Distribution:** Distribute weight evenly across the bed surface. Avoid concentrating heavy loads on small areas.
- **Movement:** When moving the bed, lift it rather than dragging to prevent damage to the frame or flooring.

MAINTENANCE

Proper care will extend the life and appearance of your linen platform bed.

- **Fabric Care:** The linen upholstery should be **dry cleaned only**. Do not use liquid cleaners or abrasive materials, as this may damage the fabric.
- **Dusting:** Regularly dust the headboard and frame with a soft, dry cloth or a vacuum cleaner with a brush attachment to remove surface dust and debris.
- **Spills:** In case of spills, blot immediately with a clean, dry cloth. Do not rub. For stubborn stains, consult a professional upholstery cleaner.
- **Hardware Check:** Periodically check all bolts and screws to ensure they remain tight. Re-tighten if necessary to maintain stability.

A detailed close-up view of the light beige linen fabric used for the bed's upholstery, showing its texture and weave pattern.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Bed frame feels wobbly or unstable.	Loose bolts or screws.	Check and tighten all assembly hardware, especially where side rails connect to the headboard and footboard.
Slats are not securely attached or shift.	Slats not fully screwed into place; insufficient pre-drilled holes.	Ensure each slat is screwed into the side rails. If pre-drilled holes are missing or misaligned, carefully drill pilot holes (do not drill through the fabric) and secure the slats.
Fabric color appears different than expected.	Variations in lighting or screen display settings; natural fabric variations.	Fabric colors can appear differently under various lighting conditions (e.g., natural daylight vs. artificial light). Please note that slight variations in fabric shade are normal.
Unusual odors from the bed frame.	New product off-gassing.	Allow the bed frame to air out in a well-ventilated room for a few days. This is common with new furniture and should dissipate over time.

PRODUCT SPECIFICATIONS

Feature	Detail
Size	Full 2019
Product Dimensions	85"L x 64"W x 51"H
