

**Sling Media AirTV 2**

# AirTV 2 Instruction Manual

Brand: Sling Media

Model: AirTV 2

## 1. SETUP GUIDE

---

The AirTV 2 connects a single HD antenna with your home Wi-Fi network to seamlessly stream local channels like ABC, CBS, Fox, NBC, and more in HD throughout your house via compatible devices. It also offers DVR functionality when an external hard drive is connected.

### 1.1 Required Items

- An HD antenna (sold separately)
- A media streaming player such as an AirTV player, Roku, Fire TV, AirTV Mini, or an Android TV device
- Broadband internet with at least 25Mbps (recommended)
- An external Hard Drive for local Channel DVR (optional, sold separately)

### 1.2 Physical Setup

Place your AirTV 2 in a central location near your HD antenna and power outlet. Ensure it has adequate ventilation.

Figure 1: Front view of the AirTV 2 device.

1. Connect your HD antenna to the 'ANTENNA' port on the back of the AirTV 2.
2. Connect the power adapter to the '12V 1.46A' port and plug it into a power outlet.
3. If using DVR functionality, connect a compatible external hard drive to the 'USB' port.
4. For wired internet connection, connect an Ethernet cable from your router to the 'ETHERNET' port. The device also supports Wi-Fi.

Figure 2: Rear view showing connection ports.

### 1.3 Initial App Setup

Download the Sling TV app on your preferred streaming device (Roku, Fire TV, etc.) or mobile device (iOS/Android). Follow the in-app instructions to connect your AirTV 2 to your home network and scan for local channels. A Sling account is required, but a paid subscription is not necessary for local channels.

## 2. OPERATING INSTRUCTIONS

---

### 2.1 Live TV Viewing

Once set up, the Sling TV app will seamlessly integrate your local channels alongside any Sling channels you subscribe to. Navigate the guide within the app to browse available local and streaming content.

### 2.2 DVR Functionality

With an external hard drive connected, the AirTV 2 allows you to record up to two shows at a time. You can set single-episode or series recordings. While watching live TV, you can pause, rewind, and fast-forward.

## 2.3 Watch on the Go

Use the Sling TV app on your iOS or Android device to watch live or recorded content from your AirTV 2 even when you are outside of your home.

## 3. MAINTENANCE

---

Keep the AirTV 2 device clean by wiping it with a soft, dry cloth. Ensure proper ventilation around the device to prevent overheating. Avoid placing it in enclosed spaces or near heat sources.

## 4. TROUBLESHOOTING

---

### 4.1 Connectivity Issues

If you experience buffering or loss of connection, ensure your AirTV 2 is within range of your Wi-Fi router or that the Ethernet cable is securely connected. Check your internet speed (25Mbps recommended).

### 4.2 Recording Problems

Verify that your external hard drive is properly connected and has sufficient storage space. The AirTV 2 will automatically delete the oldest, watched, unlocked recordings to make space for new ones.

### 4.3 Geographic Restrictions

The AirTV 2 and its associated Sling TV app functionality for local channels are primarily designed for use within the United States. Users in other regions, such as Canada, may encounter limitations or require advanced network configurations (e.g., VPN) to access services, which may not be officially supported.

## 5. SPECIFICATIONS

---

Feature	Detail
Brand	Sling Media
Series	AirTV 2
Item Model Number	AirTV 2
Item Weight	1.43 pounds
Product Dimensions (LxWxH)	6.57 x 2.24 x 5.12 inches
Manufacturer	Sling
ASIN	B07XLTYBQ6
Date First Available	September 13, 2019
