### 3. SETUP AND WEARING INSTRUCTIONS

Your Ray-Ban Wayfarer sunglasses are designed for immediate use. Simply unfold the temples and place them on your face, ensuring the nose pads rest comfortably on your nose bridge and the temples extend over your ears.

#### Sizing Guidance

Ray-Ban sizes are typically printed inside the arm or bridge as three numbers (e.g., 52-18-140), representing Lens Width (mm) - Bridge Width (mm) - Temple Length (mm). The lens width is a key indicator of fit.

- **Narrow:** A small lens designed to fit those with a smaller face or who prefer lower face coverage.
- **Average:** A medium lens designed for those with an average sized face or who prefer greater frame coverage.
- **Wide:** A large lens designed for those with a wider sized face or who prefer greater frame coverage.

This specific model (RB2140 47 mm) is considered XX-Small with a hinge-to-hinge measurement of 116 mm, making it ideal for narrow faces.

## 4. CARE AND MAINTENANCE

Proper care will extend the life and maintain the performance of your Ray-Ban sunglasses.

- **Cleaning Lenses:** Clean lenses with a soft, dry cloth. For stubborn smudges, use a specialized lens cleaning solution and a microfiber cloth. Avoid using abrasive materials or household cleaners.
- **Storage:** Store your sunglasses in the provided protective case when not in use to prevent scratches and damage.
- **Avoid Extreme Conditions:** Do not expose your sunglasses to high heat (e.g., leaving them on a car dashboard in direct sunlight) or high humidity, as this can damage the frame and lens coatings.
- **Handling:** Always use two hands to put on or take off your sunglasses to avoid bending the frame or loosening the hinges.

Each pair of Ray-Ban sunglasses comes with a cleaning cloth and case to help you maintain them.

## 6. TROUBLESHOOTING

---

Most issues with sunglasses can be resolved with simple adjustments or cleaning.

- **Loose Screws:** If hinges feel loose, gently tighten the small screws on the hinges using a precision screwdriver. Avoid over-tightening.
- **Smudged Lenses:** Refer to the 'Care and Maintenance' section for proper cleaning techniques. Ensure your cleaning cloth is clean and free of debris.
- **Uncomfortable Fit:** If the sunglasses feel too tight or too loose, a professional optician can often make minor adjustments to the frame and temples for a better fit.
- **Scratched Lenses:** Unfortunately, scratches on lenses are generally permanent. To prevent scratches, always store your sunglasses in their case and clean them properly.
