

## Geeni GN-BW912-999

# Geeni LUX Smart Floodlight User Manual

Model: GN-BW912-999 | Brand: Geeni

## 1. INTRODUCTION

The Geeni LUX Smart Floodlight is an advanced outdoor LED bulb designed for intelligent lighting control. This PAR38-shaped bulb with an E26 base offers tunable white light from 2700K (warm white) to 6500K (cool white) and provides 1000 lumens of brightness while consuming only 11 watts. It connects directly to your 2.4 GHz Wi-Fi network, enabling control through the Geeni app, Amazon Alexa, and Google Assistant without the need for a separate hub.

*Image 1.1: The Geeni LUX Smart Floodlight bulb, showcasing its PAR38 shape and E26 screw base.*

## 2. PRODUCT FEATURES

- **Wi-Fi Connectivity:** Control your floodlight from anywhere using the Geeni app (iOS/Android) or voice commands.
- **No Hub Required:** Connects directly to your existing 2.4 GHz Wi-Fi network for simple setup.
- **Tunable White Light:** Adjust color temperature from 2700K (warm white) to 6500K (cool white) to suit your preference or environment.
- **Dimmable:** Adjust brightness from 1% to 100% via the app or voice control.
- **Voice Control:** Compatible with Amazon Alexa and Google Assistant for hands-free operation.
- **Scheduling & Timers:** Set daily schedules and countdown timers for automated lighting.
- **Group Control & Share Access:** Group multiple Geeni devices and share control with family members.

- **Energy Efficient:** 11-watt LED bulb provides 1000 lumens, equivalent to a 75-watt incandescent bulb.
- **Durable Design:** Suitable for both indoor and outdoor use, with weatherproof construction.

### 3. WHAT'S INCLUDED

- 1 x Geeni LUX Smart Wi-Fi LED Floodlight Bulb (Model: GN-BW912-999)

### 4. SETUP INSTRUCTIONS

Follow these steps to set up your Geeni LUX Smart Floodlight:

1. **Download the Geeni App:** Search for "Geeni" in the Apple App Store or Google Play Store and install the application on your smartphone or tablet.
2. **Install the Bulb:** Screw the Geeni LUX Smart Floodlight bulb into a standard E26 socket. Ensure the fixture is

powered off before installation.

3. **Power On:** Turn on the power to the light fixture. The bulb should begin to blink rapidly, indicating it is in pairing mode. If it does not blink, turn the bulb off and on three times to reset it.
4. **Connect via App:** Open the Geeni app, register or log in, and follow the on-screen instructions to add a new device. Select the floodlight bulb from the device list. Ensure your mobile device is connected to a 2.4 GHz Wi-Fi network, as the bulb is not compatible with 5 GHz networks.
5. **Complete Pairing:** The app will guide you through connecting the bulb to your Wi-Fi network. Once connected, you can name your bulb and begin controlling it.

*Image 4.1: A visual representation of the simple setup process: 1. Download App, 2. Power On, 3. Connect.*

## 5. OPERATING INSTRUCTIONS

### 5.1. App Control

The Geeni app provides comprehensive control over your smart floodlight:

- **On/Off:** Toggle the bulb's power.
- **Brightness Adjustment:** Slide to adjust the light intensity from 1% to 100%.
- **Color Temperature:** Select desired white light from warm (2700K) to cool (6500K).
- **Scheduling:** Create custom schedules for the bulb to turn on/off at specific times or days.
- **Timers:** Set countdown timers for automatic shut-off.
- **Grouping:** Combine multiple Geeni bulbs to control them simultaneously.
- **Share Access:** Grant control access to other family members through the app.

# App Control

Control your floodlights in-app  
from anywhere, at any time.

*Image 5.1: A smartphone displaying the Geeni app interface, showing controls for brightness and temperature adjustment for the smart floodlight.*

## 5.2. Voice Control

Integrate your Geeni LUX Smart Floodlight with Amazon Alexa or Google Assistant for voice commands:

- **Enable Skill/Action:** In the Alexa or Google Home app, enable the Geeni skill or action and link your Geeni account.
- **Discover Devices:** Ask your voice assistant to discover new devices.
- **Voice Commands:** Use commands such as:
  - "Alexa, turn on the floodlight."
  - "Hey Google, set floodlight brightness to 50 percent."
  - "Alexa, change floodlight to warm white."

# Voice Control

"Alexa, turn on the floodlight"

Image 5.2: An Amazon Echo Dot device on a table, illustrating voice control functionality with the command bubble "Alexa, turn on the floodlight."

## 6. MAINTENANCE

To ensure optimal performance and longevity of your Geeni LUX Smart Floodlight:

- **Cleaning:** Disconnect power before cleaning. Wipe the bulb with a soft, dry cloth. Avoid using abrasive cleaners or solvents.
- **Environmental Conditions:** While designed for outdoor use, ensure the bulb is installed in a fixture appropriate for its environment to protect it from direct exposure to extreme weather conditions if not rated for such.
- **Firmware Updates:** Periodically check the Geeni app for firmware updates to ensure your bulb has the latest features and security enhancements.

# Weatherproof

Durable design works through any storm.

*Image 6.1: Two floodlight bulbs in an outdoor fixture, with water droplets visible, demonstrating the weatherproof design.*

## 7. TROUBLESHOOTING

If you encounter issues with your Geeni LUX Smart Floodlight, refer to the following common solutions:

- **Bulb Not Connecting/Blinking:**

- Ensure your Wi-Fi network is 2.4 GHz. The bulb does not support 5 GHz Wi-Fi.
- Perform a factory reset by turning the bulb off and on three times. It should then blink rapidly.
- Check your Wi-Fi signal strength at the bulb's location. Move the router closer or use a Wi-Fi extender if necessary.
- Confirm your phone is connected to the same 2.4 GHz Wi-Fi network during setup.

- **Voice Control Not Working:**

- Verify that the Geeni skill/action is enabled in your Amazon Alexa or Google Home app.

- Ensure your Geeni account is linked correctly to your voice assistant.
  - Check the device name in the Geeni app and use that exact name in your voice commands.
- **Bulb Offline in App:**
    - Check your Wi-Fi router and internet connection.
    - Power cycle the bulb (turn off and on at the switch).
    - If the issue persists, try re-pairing the bulb after a factory reset.

## 8. SPECIFICATIONS

Feature	Specification
Brand	Geeni
Model Number	GN-BW912-999
Light Type	LED
Wattage	11 Watts (75W Incandescent Equivalent)
Bulb Shape Size	PAR38
Bulb Base	E26
Brightness	1000 Lumens
Color Temperature	2700K - 6500K (Tunable White)
Voltage	120 Volts (Accepted: 100-240V, 50-60Hz)
Product Dimensions	4.8"W x 4.9"H
Material	Aluminum
Indoor/Outdoor Usage	Indoor, Outdoor
Control Method	Voice, App
Power Source	AC
Color Rendering Index (CRI)	80
Beam Angle	120 Degrees
Item Weight	12.8 ounces

## 9. WARRANTY AND SUPPORT

### 9.1. Warranty Information

The Geeni LUX Smart Floodlight comes with a **1-year limited warranty** from the date of purchase. This warranty covers manufacturing defects under normal use. Please retain your proof of purchase for warranty claims.

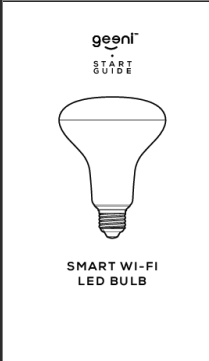

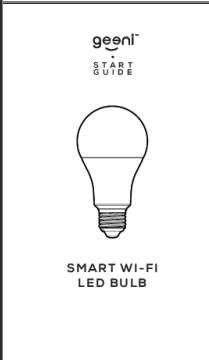

### 9.2. Customer Support

For technical assistance, troubleshooting, or warranty inquiries, please contact Geeni customer support:

- **Via Geeni App:** Access support options directly within the Geeni application.
- **Email:** Support is available via email. Refer to the Geeni website for the current support email address.
- **Live Chat:** Live chat support is available 7 days a week on the official Geeni website.
