

Omega MM900HDS

Omega MM900HDS Masticating Juicer Instruction Manual

Model: MM900HDS | Brand: Omega

1. INTRODUCTION

This manual provides essential instructions for the safe and efficient operation, maintenance, and care of your Omega MM900HDS Masticating Juicer. Please read all instructions thoroughly before first use and retain this manual for future reference.

The Omega MM900HDS is a cold press slow juicer designed to extract maximum nutrients and flavor from fruits, vegetables, leafy greens, and wheatgrass, with a specialized end cap for celery juicing.

2. IMPORTANT SAFETY INSTRUCTIONS

- Read all instructions before operating the appliance.
- Ensure the appliance is unplugged before assembling, disassembling, or cleaning.
- Do not operate the juicer with a damaged cord or plug.
- Keep hands and utensils out of the feed chute during operation to prevent injury. Use the food pusher provided.
- Do not immerse the motor base in water or other liquids.
- This appliance is for household use only.
- Supervise children when the appliance is in use.
- Ensure all parts are correctly assembled before turning on the juicer.

3. PARTS AND ASSEMBLY

Familiarize yourself with the components of your Omega MM900HDS juicer before assembly.

Figure 3.1: All components of the Omega MM900HDS Masticating Juicer, including the motor base, auger, juicing screen, drum, feed chute, two end caps (celery and standard), juice and pulp containers, and cleaning brush.

Assembly Steps:

1. Place the motor base on a stable, flat surface.
2. Insert the juicing screen into the drum.
3. Insert the auger into the juicing screen and drum assembly.
4. Attach the drum assembly to the motor base, ensuring it locks securely into place.
5. Place the desired end cap (celery or standard) onto the front of the drum assembly and twist to lock. Refer to Figure 3.2 for end cap identification.
6. Position the juice collection container under the juice spout and the pulp collection container under the pulp ejection port.

CELERY JUICING SUCCESS

- 1 Juice with whole stalks of fresh, crisp celery.**
- 2 Use Celery Juice End Cap (with green insert).**
- 3 Clean assembly and end cap after every 16oz of juice. Clean the end cap after each use with warm water and dishwasher liquid.**

YOUR JUICER INCLUDES 2 ADJUSTABLE END CAPS

**CELERY JUICE
END CAP**

Use this cap
ONLY for celery

**STANDARD
END CAP**

Use this cap for
all other fruits
& vegetables

Figure 3.2: The two adjustable end caps. The Celery Juice End Cap (with green insert) is specifically for celery. The Standard End Cap is for all other fruits and vegetables.

4. OPERATION

General Juicing Instructions:

1. Ensure the juicer is properly assembled with the correct end cap for your produce.
2. Wash all fruits and vegetables thoroughly. Cut produce into pieces that fit easily into the feed chute. Remove large seeds or pits.
3. Place the juice and pulp containers in position.
4. Plug in the juicer and turn it on.
5. Feed produce slowly into the feed chute. Use the food pusher only when necessary to guide produce. Do not force produce into the chute.
6. For continuous juicing, ensure pulp and juice containers do not overflow.
7. When finished, turn off the juicer and unplug it from the power outlet.

Celery Juicing Specifics:

The Omega MM900HDS is optimized for celery juicing. For best results:

- Use the **Celery Juice End Cap** (with the green insert). This end cap is specifically designed for celery and should **not** be used for other fruits or vegetables.
- Juice with whole stalks of fresh, crisp celery.
- Clean the assembly and end cap after every 16 ounces of juice to maintain optimal performance and prevent clogging.

Figure 4.1: A celery stalk being fed into the Omega MM900HDS juicer, demonstrating the juicing process.

Figure 4.2: The Omega MM900HDS juicer with a container of freshly extracted celery juice and a container of dry pulp, illustrating the efficiency of the cold press process.

5. MAINTENANCE AND CLEANING

Regular cleaning ensures the longevity and optimal performance of your juicer.

Cleaning Steps:

1. Always unplug the juicer before cleaning.
2. Disassemble all removable parts (end cap, drum, auger, juicing screen, juice and pulp containers).
3. Rinse all removable parts under warm running water immediately after use to prevent pulp from drying and sticking.
4. Use the provided cleaning brush to remove any stubborn pulp from the juicing screen and other components.
5. All removable parts are dishwasher safe. For manual cleaning, wash with warm, soapy water.
6. Wipe the motor base with a damp cloth. Never immerse the motor base in water.
7. Allow all parts to dry completely before reassembling or storing.

6. TROUBLESHOOTING

Problem	Possible Cause	Solution
Juicer does not turn on.	Not plugged in; power switch off; improper assembly.	Ensure the power cord is securely plugged in. Turn the power switch to 'ON'. Verify all parts are correctly assembled and locked.
Pulp is wet.	Incorrect end cap used; produce fed too quickly; juicing screen clogged.	Ensure the correct end cap is used (Celery End Cap for celery, Standard for others). Feed produce slower. Disassemble and clean the juicing screen.
Motor stalls or slows down.	Overfeeding produce; hard produce causing strain.	Reduce the amount of produce fed at one time. Cut hard produce into smaller pieces. Use the reverse function briefly if available, then resume.
Excessive foam in juice.	Common with certain produce (e.g., apples); juicing screen clogged.	Some foam is normal with cold press juicers. Ensure the juicing screen is clean.

7. SPECIFICATIONS

- **Model:** MM900HDS
- **Brand:** Omega
- **Type:** Masticating Juicer (Cold Press)
- **Color:** Silver
- **Power:** 200 Watts
- **Voltage:** 120 Volts
- **Frequency:** 50/60 Hz
- **RPM:** 80 RPM (slow speed)
- **Product Dimensions:** 6.5"D x 14.5"W x 15.5"H
- **Item Weight:** 14 pounds
- **Capacity:** 0.8 Liters
- **Blade Material:** Stainless Steel
- **Special Feature:** Manual (referring to operation, not hand-crank)
- **Product Care:** Dishwasher Safe (removable parts)

IGNITE YOUR HEALTH WITH NATURAL JUICE
