› BEBONCOOL Bluetooth Wireless Mobile Game Controller for PUBG Mobile and Knives Out (Model Q75)

## BEBONCOOL Q75

# BEBONCOOL Bluetooth Wireless Mobile Game Controller (Model Q75)

Instruction Manual

## 1. INTRODUCTION

The BEBONCOOL Bluetooth Wireless Mobile Game Controller (Model Q75) is designed to enhance your mobile gaming experience, offering precise control and reducing hand fatigue during extended play sessions. This controller is compatible with various smartphone games, including popular titles like PUBG Mobile and Knives Out.

This manual provides essential information for the proper setup, operation, and maintenance of your controller. Please read it thoroughly before use.

# モバイルコントローラー

移動、射撃と照準を同時に操作できて、PUBG、荒野行動などの様々なスマホゲームをチャレンジできます。

## 2. SETUP

### 2.1. App Download

To utilize the full functionality of the controller, download the "ShootingPlus V3" application from the Google Play Store (for Android devices).

## 一緒にゲームをしましょう

一人か家族か友達と一緒にゲームをプレイできます。  
ほとんどゲーム対応できますが、フォートナイト対応不可。

Image 2.1: Instructions for downloading the ShootingPlus V3 app from Google Play for Android devices.

## 2.2. Bluetooth Connection

Ensure your mobile phone's Bluetooth is enabled. Follow the specific connection method for your device:

- **Standard Mode (Android):** Press and hold the "Android + X" buttons simultaneously on the controller until the indicator light flashes, then search for and connect to "BEBONCOOL Q75" in your phone's Bluetooth settings.
- **HID Mode (Android Only):** Press and hold the "Android + X" buttons simultaneously. This mode requires a HID-compatible Android phone. iOS phones are not supported in HID mode.

**Important:** If you encounter connection issues, delete any previous Bluetooth connection modes and attempt to reconnect using the appropriate method.

## Bluetooth 4.0 ペアリング

Android 7.0 以上 10.0 以下が対応でき、  
接続簡単で、Bluetooth 接続安定です。

IOS 13.4 対応ません

### 3. OPERATING INSTRUCTIONS

#### 3.1. Custom Button Mapping

The controller features screen mapping technology, allowing you to customize button functions for various games. This enables more precise control by converting physical button presses into touch panel operations.

1. Download the "ShootingPlus V3" app.
2. Ensure the controller is correctly connected via Bluetooth.
3. Open the app and download the preset configuration for your desired game.
4. Enter the game or navigate to the in-game operation settings customization screen.
5. Press the "VIEW" button on the controller to check if the analog buttons align with the game's on-screen buttons.

6. If misalignment occurs, press the "EDIT" button or the V3 floating window. Drag the misaligned button with your finger to the correct position over the game's on-screen button.
7. After completing your custom button setup, click the "Save" button.

This customization allows for six-finger operation, high button sensitivity, and simultaneous movement, shooting, and aiming, enhancing your overall game experience.

## 4. MAINTENANCE

### 4.1. Battery Information

The controller features a built-in 350mAh battery, allowing for extended gameplay. Charging time is approximately 2-3 hours, providing up to 12 hours of usage. You can play while charging, eliminating concerns about the battery running out during a game.

If the LED4 indicator on the controller flashes, it signifies a low battery warning. Please charge the controller promptly.

**12** 時間

使用時間

## 長時間使用プレイでき

内蔵350mAhバッテリー、スマホを充電しながらプレイ可能です。バッテリーの寿命が長く、ゲーム中に充電切れる心配ではありません。

Image 4.1: A user playing with the controller, highlighting the 350mAh battery, 2-3 hours charging time, and 12 hours usage time.

### 4.2. General Care

- Keep the controller clean and dry.
- Avoid exposing the controller to extreme temperatures or direct sunlight.
- Do not attempt to disassemble the controller.

## 5. TROUBLESHOOTING (FAQ)

### 5.1. How to Reset the Controller?

There is a reset hole located on the side of the controller. Insert a thin needle into this small hole at the bottom to perform a reset.

### 5.2. How to Use HID Mode?

To activate HID mode, press and hold the "Android + X" buttons. Please note that a HID-compatible Android phone is required. HID mode is not supported on iOS devices.

### 5.3. Can I Play Minecraft?

If your phone is Android, you can play Minecraft in HID mode by pressing the "Android + X" buttons. Minecraft cannot be played in standard Android mode. A HID-compatible Android phone is required.

### 5.4. Problem with Not Being Able to Aim at Enemies?

This controller function does not set the sensitivity of the joystick. Please adjust the stick sensitivity within your game's operation settings.

### 5.5. Can I Use it Without Removing My Phone Case?

The controller supports smartphones with lengths between 78-165mm (3.5-6.5 inches) and thicknesses within 9mm. If your phone with its case exceeds these dimensions, you may need to remove the case for proper fit.
