Anker PowerCore+ 26800mAh PD 45W Portable Charger with 60W PD Charger - Instruction Manual

Your comprehensive guide to setting up, operating, and maintaining your Anker PowerCore+ portable charger.

PRODUCT OVERVIEW

The Anker PowerCore+ 26800 PD 45W is a high-capacity portable power bank designed to provide high-speed charging for a wide range of USB-C and USB-A devices. With its robust 26800mAh cell capacity and 45W Power Delivery output, it can efficiently charge laptops, tablets, and smartphones. The bundle includes a 60W wall charger for rapid recharging of the power bank itself.

Key features include a 45W USB-C port for fast laptop charging and two 15W USB-A ports for optimized charging of phones and tablets. Its large capacity ensures your mobile devices remain charged for extended periods.

WHAT'S IN THE BOX

Your Anker PowerCore+ 26800mAh PD 45W package includes the following items:

- Anker PowerCore+ 26800mAh Portable Charger
- Anker 60W Wall Charger
- USB-C to C Cable
- Travel Pouch
- User Manual

SETUP

Charging the Power Bank

To ensure optimal performance, fully charge your PowerCore+ before first use. The included 60W wall charger significantly reduces recharge time.

1. Connect the included 60W wall charger to a power outlet.
2. Use the provided USB-C to C cable to connect the wall charger to the USB-C (IN/OUT) port on the PowerCore+.

3. The LED indicator on the PowerCore+ will show charging progress. A full recharge takes approximately 3.5 hours.

OPERATING INSTRUCTIONS

Charging Your Devices

The PowerCore+ offers versatile charging options for various devices:

- **USB-C Port (45W PD Output):** Use this port with a USB-C to C cable to charge compatible laptops (e.g., 13-inch MacBook Pro, Dell XPS 13), tablets (e.g., iPad Pro), and smartphones at

high speed.

- **USB-A Ports (15W Output):** Use these two ports with appropriate USB-A cables to charge smartphones (e.g., iPhone 14/13/12 Series, Galaxy S9) and other USB-charged devices.
- **Simultaneous Charging:** You can charge multiple devices concurrently. For example, charge a laptop via the USB-C port and a phone via a USB-A port simultaneously.

A black Anker PowerCore+ 26800 portable charger is shown connected to a laptop via a USB-C cable. The charger has the 'ANKER' logo and a circular LED indicator. In the background, a laptop keyboard is visible. A blue banner in the bottom left corner reads 'ANKER The World's NO.1 Mobile Charging Brand'. A clipboard with a pen is partially visible in the bottom right corner.

Laptop Charging

13-inch MacBook Pro

Charger Type	Charging Time
PowerCore+ 26800	2 hrs
Standard 18W Chargers	4.1 hrs

Trickle-Charging Mode

For low-power devices such as earphones, Bluetooth speakers, or other accessories, activate trickle-charging mode to provide optimized charging.

1. Press the power button twice or press and hold for 2 seconds until the LED indicator turns green.
2. Connect your low-power device to the PowerCore+ using the appropriate cable.
3. The green LED indicates trickle-charging mode is active.

DEVICE COMPATIBILITY

The Anker PowerCore+ 26800mAh PD 45W is compatible with a broad range of devices, including:

- **Laptops:** Dell XPS laptops, USB-C MacBooks, HP Spectre, Lenovo, Huawei MateBook.
- **Tablets:** iPad Pro (10.5-inch, 11-inch, 12.9-inch).
- **Phones:** iPhone 8 / X / XS / XR / 11 / 12 / 13 / 14 Series (Lightning cable required), Android smartphones and tablets (including Nexus 7), Samsung, Google Pixel, LG.
- And other USB-charged devices.

Wide Compatibility

Use USB-C to Lightning cable
for Lightning connector devices.

IMPORTANT SAFETY INFORMATION

Please observe the following important notes and warnings to ensure safe and effective use of your Anker PowerCore+:

- Incompatible with HP EliteBook 1050 G1 (150W).
- Incompatible with ThinkPad X390.
- When the temperature is below 5°C, not compatible with Dell XPS 13 9360 (45W), Lenovo IdeaPad 720S 13 (45W), HP EliteBook 830 G5, HP PavGaming, Mi Notebook Air (45W), ThinkPad E490 (45/65W), HP EliteBook 1050 G1.
- When charging 45W devices, ensure the portable charger has at least 3 LEDs illuminated; otherwise, the charging speed may be insufficient.
- Disconnect your USB-C to Lightning cable when not in use to avoid draining the battery.
- Anker PowerPort Strip PD 3 USB-C power strip's USB-C Power Delivery port cannot recharge this device.
- 26,800mAh is the total of the nominal rated capacity of internal battery cells.

TECHNICAL SPECIFICATIONS

Feature	Specification
Product Dimensions	7.68 x 3.54 x 2.36 inches
Item Weight	1.61 pounds
Item Model Number	B1376
Battery Type	1 Lithium Ion batteries (included)
Battery Capacity	26800 Milliamp Hours
Connector Type	Micro USB, USB USB C
Color	Black
Manufacturer	Anker

TROUBLESHOOTING

If you encounter issues with your PowerCore+, consider the following:

- **Slow Charging:** Ensure you are using the provided 60W wall charger and USB-C to C cable for optimal recharge speed. For 45W device charging, verify at least 3 LEDs are illuminated on the PowerCore+.
- **Device Not Charging:** Check that the PowerCore+ is sufficiently charged. Ensure cables are securely connected to both the PowerCore+ and your device. For low-power devices, activate trickle-charging mode.
- **Incompatibility:** Refer to the Important Safety Information section for a list of known

incompatible devices and specific temperature-related limitations for certain laptops.

- **Battery Drain:** Disconnect charging cables from the PowerCore+ when not in use to prevent passive battery discharge.

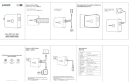

WARRANTY AND CUSTOMER SUPPORT

Anker products typically come with a limited warranty. For specific warranty details, product registration, or technical support, please visit the official Anker website or contact their customer service directly. Keep your purchase receipt for warranty claims.
