## Bluedio HTW

# Bluedio H Turbine Wireless Headphones User Manual

Model: HTW

## INTRODUCTION

The Bluedio H Turbine Wireless Bluetooth 5.0 Stereo Headphones are designed for music enthusiasts, offering powerful bass, voice control, and comfortable wear. This manual provides comprehensive instructions for setup, operation, and maintenance to ensure optimal performance and longevity of your headphones.

## WHAT'S IN THE Box

- Bluedio H wireless headphones
- Storage bag for headphone
- Micro USB charging cable
- 3.5mm Audio cable
- User manual

## PRODUCT OVERVIEW

Familiarize yourself with the various components and controls of your Bluedio H Turbine headphones.

# Headset Overview

**Figure 1: Headset Overview.** This diagram highlights key features such as the Volume Up/Down buttons, LED indicator, Power/MF button, Wheel switch, Previous/Next track buttons, Microphone, USB Charging socket, and Audio jack (3.5mm).

**Volume Up Button:** Increases audio volume.

**Volume Down Button:** Decreases audio volume.

**LED Indicator:** Displays status (e.g., pairing mode, charging).

**Power/MF Button:** Power on/off, multi-function control.

**Wheel Switch:** For navigation or specific functions.

**Previous Track Button:** Skips to the previous song.

**Next Track Button:** Skips to the next song.

**Microphone:** For calls and voice commands.

**USB Charging Socket:** For charging the headphones.

**Audio Jack (3.5mm):** For wired audio connection.

## SETUP

### Pairing with Your Mobile Device (Bluetooth)

1. Keep the distance between the headset and your mobile phone within 1 meter. The closer, the better.

2. Ensure the headphones are off. If not, turn them off first.
3. Press and hold the Power Button until you see the blue light stays on (instead of blinking). This indicates the headphones have entered pairing mode.
4. Switch on the Bluetooth function of your mobile phone, then start a search for Bluetooth devices.
5. From the found Bluetooth devices, select "H" to establish a Bluetooth connection to the headset. If necessary, enter the default PIN code "0000".

## Comfortable

Artificial protein leather,  
soft and comfy

## Instructions

**Pair the headset with your mobile phone:**

- 1 Keep the distance between the headset and your mobile phone within 1 meter. The closer, the better.
2. Keep the MF button pressed until the LED remains blue, and the headset is in pairing mode.
3. Switch on the Bluetooth function of your mobile phone, on which start a search for Bluetooth devices.
4. From the found Bluetooth devices, select "H" to establish a Bluetooth connection to the headset. When connecting, the LED flashes blue. If necessary, enter the default PIN code "0000"

## OPERATING INSTRUCTIONS

### Audio Playback and Calls

- **Wireless Operation:** Connect via Bluetooth 5.0 for high-quality stereo audio.
- **Wired Operation:** Use the included 3.5mm audio cable to connect to devices when Bluetooth is not available or the battery is low.

- **Voice Control:** Utilize voice commands for music playback and queries.
- **Volume Adjustment:** Use the dedicated Volume Up and Volume Down buttons.
- **Track Navigation:** Use the Previous Track and Next Track buttons to change songs.
- **Hands-Free Calling:** The integrated microphone with acoustic echo cancellation and noise reduction ensures clear communication during calls.

## Advanced Features

- **Audio Sharing:** Connect another Bluedio H headphone via the 3.5mm audio cable to share music instantly. (Recommended for headphones with impedance of  $32\Omega$  or higher).
- **Cloud Functionality:** After upgrading, the headphones support Amazon Cloud and Baidu Cloud. Download the associated app to query weather, news, schedules, and access a large library of cloud-based songs.

## Audio Input/ Output(3.5mm jack)

**Line-in:** With an audio cable, the headset still operates when the battery is flat .

**Line-out:** In Bluetooth mode, connect other audio device ( headphone / speaker ) with the headset, experience wireless freedom.

Figure 3: Audio Input/Output. Demonstrates how to use the 3.5mm jack for both wired listening and audio sharing with another headset.

# Noise Reduction

Echo cancellation effectively reduce noise around you, restoring crystal-clear calls.

## Electroacoustic Curve

20-20khz covers the hearing range of human ear, turbine cavity technology, restore the quality of sound! Bass shock, three clear frequency.

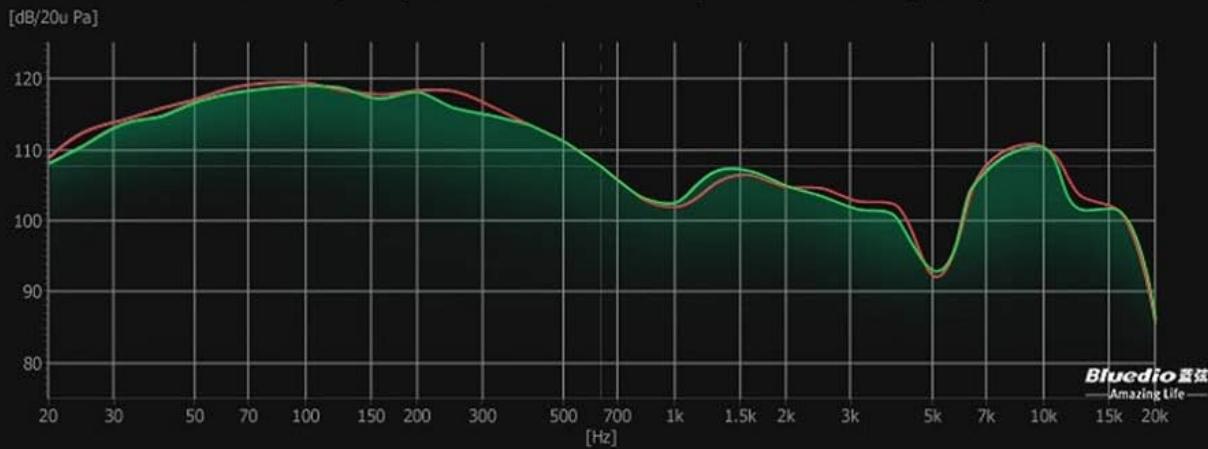

Figure 4: Noise Reduction and Electroacoustic Curve. Illustrates the noise cancellation feature for clear calls and the frequency response range of the headphones.

Control Type	Voice Control, Volume Control
Noise Control	Active Noise Cancellation

## MAINTENANCE

---

- Cleaning:** Gently wipe the headphones, especially the earmuffs, with a soft, dry cloth. For stubborn dirt, use a slightly damp cloth and dry immediately. Avoid using harsh chemicals or abrasive materials.
- Storage:** When not in use, store the headphones in the provided storage bag to protect them from dust and scratches. Avoid storing in extreme temperatures or high humidity.
- Charging:** Use the provided Micro USB charging cable. Do not overcharge the battery. Disconnect once fully charged.
- Handling:** Avoid dropping the headphones or subjecting them to strong impacts, as this can damage internal components.

## TROUBLESHOOTING

---

Problem	Possible Solution
Cannot pair with device	<ul style="list-style-type: none"> <li>Ensure headphones are in pairing mode (blue light steady).</li> <li>Make sure Bluetooth is enabled on your device.</li> <li>Move headphones closer to your device.</li> <li>Clear previous Bluetooth connections on your device and try again.</li> <li>Reboot both headphones and your device.</li> </ul>

Problem	Possible Solution
No sound or low volume	<ul style="list-style-type: none"> <li>Increase volume on both headphones and your connected device.</li> <li>Ensure headphones are properly connected via Bluetooth or 3.5mm cable.</li> <li>Check if the audio source is playing.</li> <li>Try a different audio source or device.</li> </ul>
Charging issues	<ul style="list-style-type: none"> <li>Ensure the Micro USB cable is securely connected to both the headphones and the power source.</li> <li>Try a different USB cable or power adapter.</li> <li>Check if the charging indicator light is on.</li> </ul>
Intermittent connection	<ul style="list-style-type: none"> <li>Reduce the distance between the headphones and your device.</li> <li>Avoid obstacles (walls, large objects) that may interfere with the Bluetooth signal.</li> <li>Minimize interference from other wireless devices.</li> </ul>
