Key Features

- Supports USB 3.1 Gen 2 speeds for efficient workflow (up to 1250MB/s interface speed).
- Enables smooth transfer of RAW 4K video files.
- Backwards-compatible with select XQD cameras that support CFexpress via firmware update.
- Includes RescuePRO Deluxe Recovery Software (download required).
- Features a limited lifetime warranty.

Setup Guide

Package Contents

Verify that your package contains the following items:

- SanDisk Extreme PRO CFexpress Card Reader (Model: SDDR-F451-GNGNN)
- USB-C to USB-C Cable

Connecting the Card Reader

1. Connect one end of the provided USB-C cable to the USB-C port on the SanDisk Extreme PRO CFexpress Card Reader.
2. Connect the other end of the USB-C cable to an available USB-C port on your computer.
3. The card reader is plug-and-play and should be automatically recognized by your operating system.

Operating Instructions

Inserting a CFexpress Card

1. Locate the CFexpress card slot on the front of the card reader.
2. Align your CFexpress Type B card with the slot, ensuring the contacts on the card face downwards (or as indicated by the reader's design).
3. Gently push the card into the slot until it clicks into place. Do not force the card.

The CFexpress Type B card slot on the reader.

Accessing Data

Once the CFexpress card is inserted and the reader is connected to your computer, the card will appear as a removable drive. You can then access, copy, move, or delete files as you would with any other external storage device.

Ejecting the Card

To prevent data corruption, always safely eject the card before removing it from the reader:

- **Windows:** Right-click on the drive icon in 'This PC' or 'My Computer' and select 'Eject'.
- **macOS:** Drag the drive icon to the Trash, or click the 'Eject' icon next to the drive name in Finder.

After safely ejecting, the card can be physically removed from the reader.

Care and Maintenance

- Keep the card reader clean by wiping it with a soft, dry cloth. Avoid using liquid cleaners or solvents.
- Store the reader in a cool, dry place away from direct sunlight and extreme temperatures.
- Avoid dropping the reader or subjecting it to strong impacts.
- Ensure the card slot and USB port are free of dust and debris to maintain optimal connection.

Troubleshooting

Problem	Possible Solution
Reader not recognized by computer.	• Ensure the USB-C cable is securely connected to both the reader and the computer. • Try a different USB-C port on your computer. • Try a different USB-C cable. • Restart your computer. • Check your computer's Disk Management (Windows) or Disk Utility (macOS) to see if the drive is detected but not assigned a drive letter.
CFexpress card not detected.	• Ensure the CFexpress card is fully and correctly inserted into the reader. • Try inserting a different CFexpress card (if available) to rule out a card issue. • Ensure the card is not damaged.
Slow data transfer speeds.	• Ensure your computer's USB-C port supports USB 3.1 Gen 2 speeds. • Verify that the CFexpress card itself supports high read/write speeds. • Close other applications that might be using system resources. • Ensure your computer's drivers are up to date.

If you continue to experience issues, please refer to the customer support section.

Technical Specifications

Feature	Specification
Model Name	Extreme Pro
Model Number	SDDR-F451-GNGNN
