

Super Sparrow S-750

Super Sparrow 750ml Stainless Steel Insulated Water Bottle User Manual

Model: S-750

INTRODUCTION

Thank you for choosing the Super Sparrow 750ml Stainless Steel Insulated Water Bottle. This manual provides comprehensive instructions for the proper use, care, and maintenance of your new bottle. Please read this manual thoroughly before first use and retain it for future reference.

PRODUCT FEATURES

- **Vacuum Insulated:** Double-wall 18/8 stainless steel construction keeps liquids hot for hours and cold for up to 12 hours, preventing condensation.
- **BPA-Free Material:** Manufactured from premium, food-grade 18/8 stainless steel, ensuring no harmful chemicals leach into your drink and preserving taste.
- **Two Interchangeable Caps:** Includes a Sports Cap for high flow rate and a Loop Cap (with bamboo accent) for easy carrying and secure attachment.
- **Durable Design:** Lightweight yet hard-wearing, designed to withstand rigorous use.
- **Ergonomic Shape:** Designed for comfortable one-handed use.

BPA-Free & Pure Taste

Pure taste, no flavor transfer

COMPONENTS

Your Super Sparrow water bottle package includes the following components:

- Stainless Steel Insulated Bottle Body
- Sports Cap (with straw mechanism)
- Loop Cap (with bamboo top)
- Two reusable straws

- Straw cleaning brush
- Insulated carrying sleeve with shoulder strap

Image: The Super Sparrow water bottle in jade color, accompanied by its black insulated carrying sleeve with a shoulder strap, a bamboo loop cap, a sports cap, two clear reusable straws, and a blue straw cleaning brush.

SETUP

1. **Initial Cleaning:** Before first use, wash all components (bottle body, caps, straws, and brush) with warm, soapy water. Rinse thoroughly.
2. **Cap Selection:** Choose the desired cap for your activity.
 - For sipping with a straw, attach one of the reusable straws to the Sports Cap.
 - For direct drinking or carrying by hand, use the Loop Cap.
3. **Filling the Bottle:** Fill the bottle with your preferred beverage. Ensure the liquid level is below the neck of the bottle to prevent overflow when attaching the cap.
4. **Securing the Cap:** Screw the chosen cap tightly onto the bottle to ensure a leak-proof seal.
5. **Using the Carrying Sleeve:** If desired, place the bottle into the insulated carrying sleeve and attach the shoulder strap for convenient transport.

Using the Sports Cap:

- Flip up the mouthpiece to open the straw for drinking.
- Flip down the mouthpiece to seal the cap and prevent leaks.
- Use the integrated loop for easy carrying or attaching to a bag.

Image: A person is shown drinking from the Super Sparrow water bottle using the sports cap with an integrated straw, demonstrating its ease of use for hydration.

Using the Loop Cap:

- Unscrew the cap to drink directly from the bottle opening.
- Use the metal loop on the bamboo cap for convenient carrying with a finger or attaching to a carabiner.

Image: A hand holds the Super Sparrow water bottle, fitted with the bamboo loop cap, against a blurred outdoor background, illustrating its portability and design.

Temperature Retention:

- For best results with hot beverages, pre-heat the bottle with hot water for 5-10 minutes before filling.
- For best results with cold beverages, pre-chill the bottle with cold water or ice for 5-10 minutes before filling.

MAINTENANCE AND CARE

- **Cleaning:** The bottle body and caps are dishwasher safe. For thorough cleaning, especially for the straws and sports cap mechanism, use the provided straw cleaning brush with warm, soapy water.
- **Drying:** Allow all components to air dry completely before reassembling or storing to prevent odor and bacterial growth.
- **Storage:** Store the bottle with the cap off to allow air circulation.
- **Avoid Harsh Cleaners:** Do not use bleach or cleaners containing chlorine, as these can damage the stainless steel

and seals.

- **Handle with Care:** While durable, avoid dropping the bottle from significant heights to prevent dents or damage to the vacuum seal.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Bottle leaks	Cap not tightened properly; Seal (gasket) is missing or damaged.	Ensure cap is securely tightened. Check if the silicone gasket is correctly seated inside the cap. Replace if damaged.
Beverage does not stay hot/cold	Cap not sealed; Vacuum insulation compromised.	Ensure cap is tightly closed. If the bottle sweats or feels hot/cold on the exterior, the vacuum seal may be compromised. Contact customer support.
Metallic taste in drink	Improper initial cleaning; Residue from previous drinks.	Thoroughly wash the bottle and caps with warm, soapy water and rinse well. Ensure no residue remains.
Straw difficult to sip from	Straw clogged or not fully inserted; Air vent blocked.	Clean the straw with the brush. Ensure the straw is fully inserted into the cap. Check for any blockages in the cap's air vent.
