SOUND OFF STV-N14-12P

SOUND OFF STV-N14-12P Nissan Navigation System Control Kit User Manual

Model: STV-N14-12P

1. Introduction

This manual provides comprehensive instructions for the installation and operation of the SOUND OFF STV-N14-12P Navigation System Control Kit. This kit is designed to enhance your in-car entertainment experience by enabling the viewing of TV and DVD content, as well as allowing navigation system operation, while the vehicle is in motion. Please read this manual thoroughly before installation and use to ensure correct setup and safe operation.

Important Note: DVD playback functionality is dependent on the navigation system's inherent ability to play DVDs.

2. Product Overview

The STV-N14-12P kit is a connector-based solution that integrates seamlessly with your vehicle's existing wiring. It utilizes genuine connectors, eliminating the need for complex wiring modifications. Once installed, the kit allows for uninterrupted viewing of TV and DVD sources on your navigation screen and enables full control of the navigation system, even when the vehicle is moving. The kit ensures that the vehicle's position on the navigation map remains accurate and does not shift during operation.

3. Compatibility

This control kit is compatible with the following Nissan navigation system models:

- MJ119D-A
- MJ119D-W
- MM319D-L

- MM319D-W
- MM519D-L

Incompatible Models: This kit cannot be installed on NV100 Clipper or NV100 Clipper Rio models.

4. Package Contents

The package includes:

- 1 x STV-N14-12P Navigation System Control Kit (connector cable assembly)
- 1 x Instruction Manual

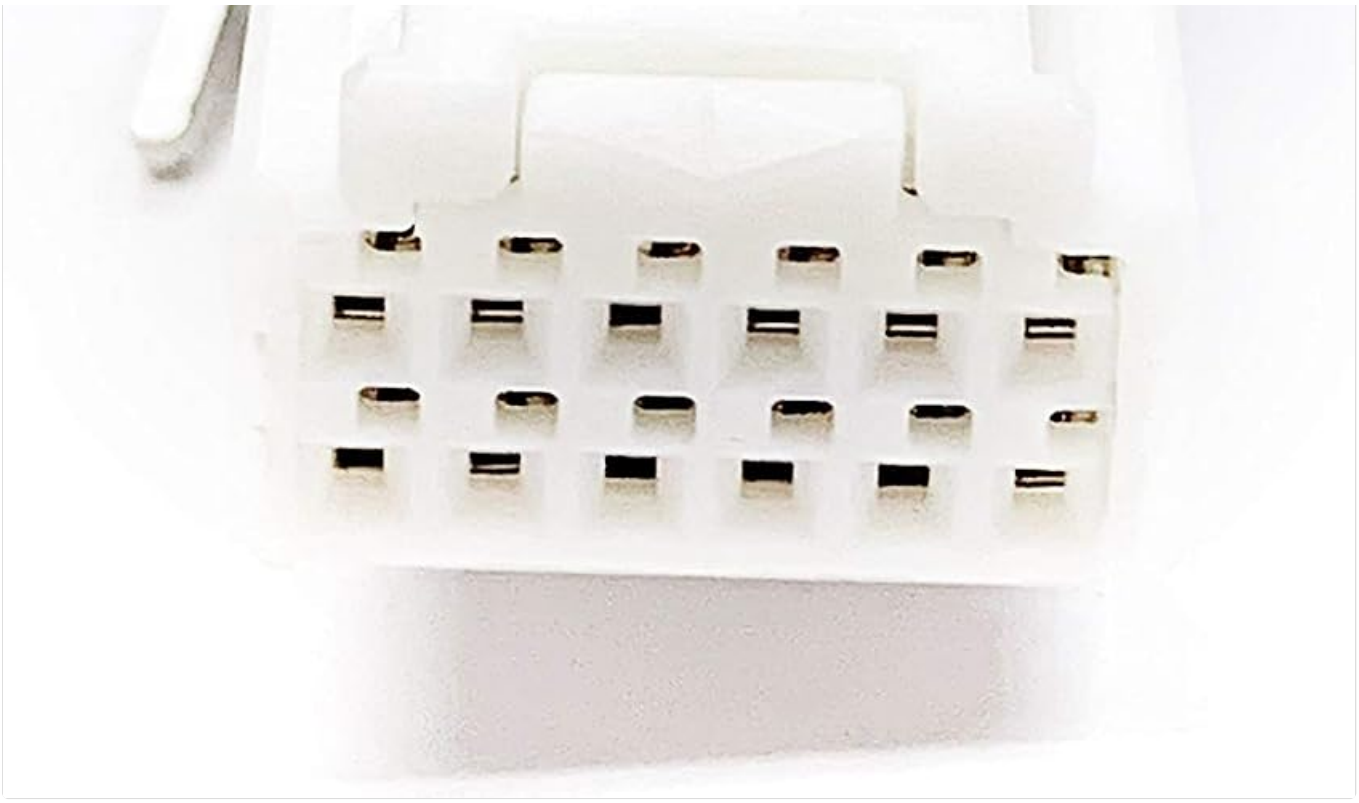

Figure 2: Detail of one end of the connector cable, showing the multi-pin plug.

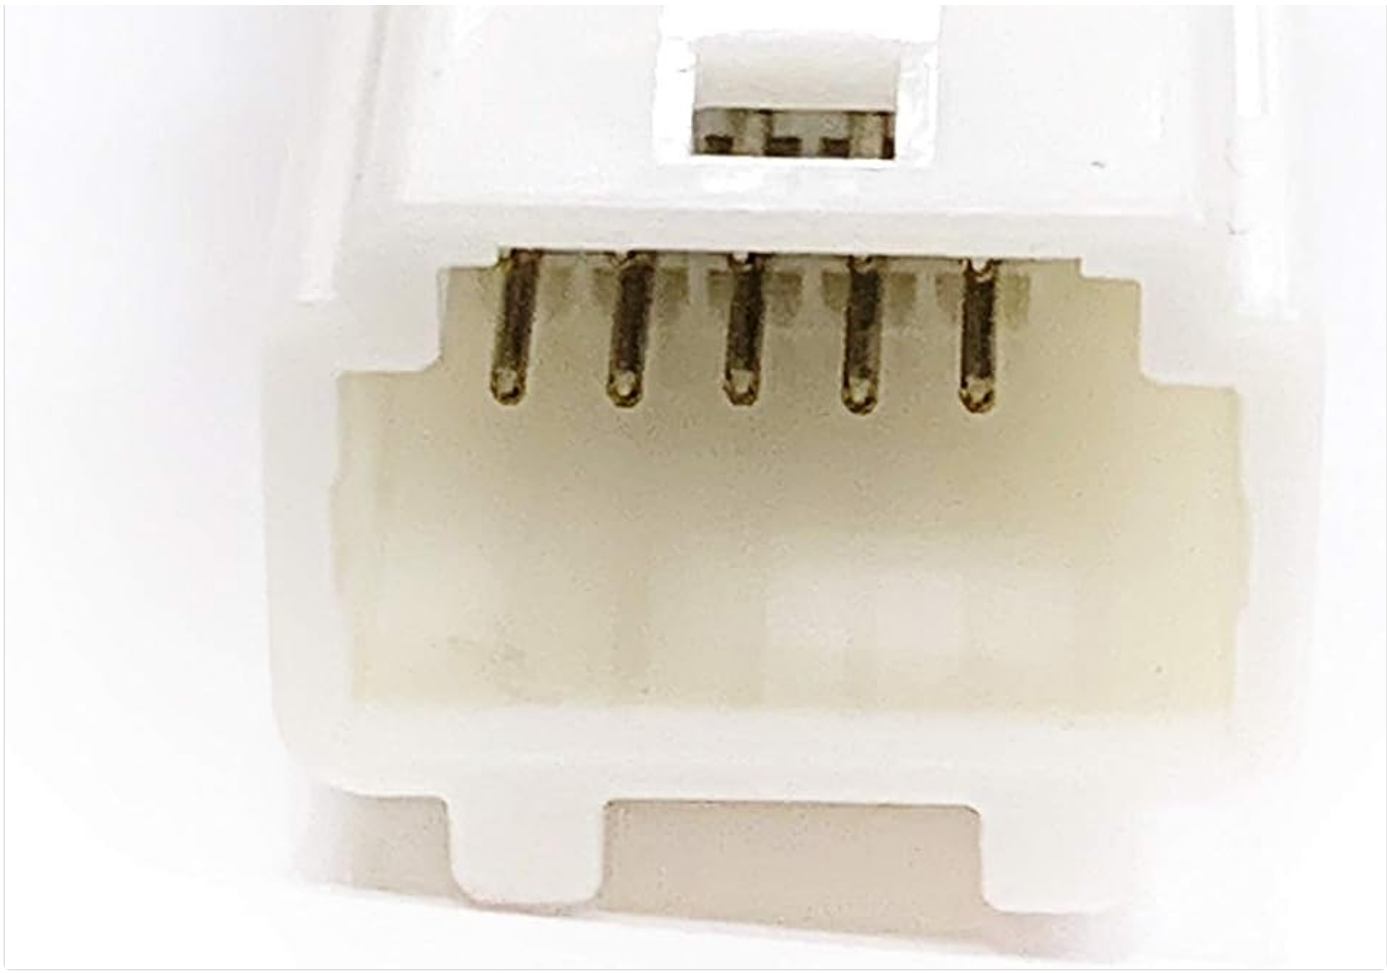

Figure 3: Detail of the other end of the connector cable, showing a different type of plug with fewer pins.

5. Setup and Installation

Follow these steps to install the STV-N14-12P kit:

1. **Preparation:** Ensure the vehicle's ignition is off and the battery is disconnected before beginning installation to prevent electrical damage.
2. **Access Navigation Unit:** Carefully remove the trim panels and components necessary to access the rear of your Nissan navigation unit. Refer to your vehicle's service manual for specific instructions on how to safely remove these parts.
3. **Locate Connectors:** Identify the corresponding connectors on the back of your navigation unit that match the plugs on the STV-N14-12P kit. The kit uses genuine connectors for a direct fit.
4. **Connect the Kit:**
    - Disconnect the genuine vehicle-side connector from the navigation unit.
    - Connect the STV-N14-12P kit inline. One end of the kit connects to the navigation unit, and the other end connects to the genuine vehicle-side connector that was just removed. This is a "one-touch" connection.
    - Secure the ground wire (earth wire) from the kit to a suitable screw or metal point on the side of the navigation unit or vehicle chassis. Ensure a good electrical connection.
5. **Verify Connections:** Double-check all connections to ensure they are secure and properly seated.
6. **Reassemble:** Carefully reassemble the vehicle's trim panels and components.
7. **Reconnect Battery:** Reconnect the vehicle's battery.

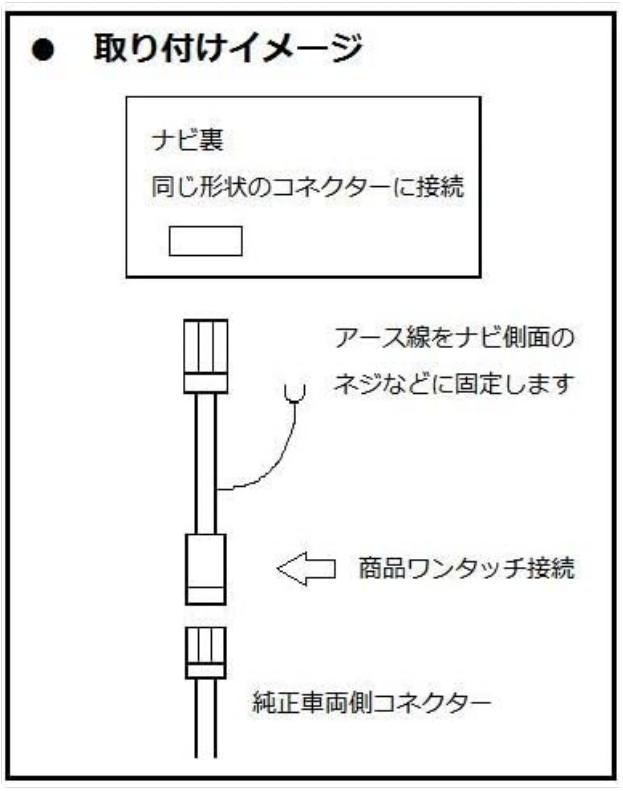

Figure 4: Installation diagram illustrating the connection points. The kit connects behind the navigation unit to a matching connector, and the ground wire is secured to a screw on the navigation unit's side.

6. Operating Instructions

Once the STV-N14-12P kit is correctly installed, the following functionalities will be enabled:

- **TV/DVD Viewing:** You can now view TV and DVD content on your navigation screen while the vehicle is in motion.
- **Navigation Operation:** The navigation system's controls will remain fully functional, allowing you to input destinations, adjust settings, and use other navigation features while driving.

The kit ensures that the vehicle's current location displayed on the navigation map will not be affected or shifted by its operation.

7. Troubleshooting

Parking Alarm (Alert) Function

If your navigation system's parking alarm (alert) function activates after installing the kit, it may interfere with the intended operation. To resolve this:

- Access your navigation system's settings menu.
- Locate the parking alarm or alert setting.
- Disable this function.

Refer to your specific navigation system's instruction manual for detailed steps on how to adjust these settings.

8. Specifications

Attribute	Detail

Brand	SOUND OFF
Model Number	STV-N14-12P
