Tomshine LT092G

LED Vanity Lights Instruction Manual

Model: LT092G | Brand: Tomshine

1. INTRODUCTION

Thank you for purchasing the Tomshine LED Vanity Lights. This product is designed to provide optimal lighting for makeup application, dressing, and general illumination in bathrooms and dressing rooms. Featuring adjustable brightness and multiple color modes, these lights enhance your visual clarity and comfort.

2. PACKAGE CONTENTS

Please verify that all items listed below are included in your package:

- 1 x LED Vanity Mirror Light (5 bulbs)
- 1 Set x Mounting Accessories (suction cups, adhesive pads)
- 1 x User Manual

3. PRODUCT FEATURES

- **5pcs PC Bulb:** Frosted PC cover for comfortable, glare-free illumination.
- **3 Color Modes:** Choose between daylight white (6500K), natural light (4500K), and warm white (3000K) to suit different needs.
- **Brightness Adjustable:** Dimmable with 10 brightness levels to provide ample light in various conditions.
- **USB Charging Cable:** 2.3m / 7.55ft long USB cable, powered by adapter, laptop, or power bank for portability.
- **Quick & Convenient Installation:** No assembly or additional wires required; easily attaches to a wall, mirror, or mirror frame.

4. SETUP AND INSTALLATION

Follow these steps for quick and convenient installation:

1. **Prepare the Surface:** Ensure the mirror or wall surface is clean and dry for optimal adhesion.

2. **Attach Suction Cups/Adhesive Pads:** The lights come with suction cups for temporary placement or adhesive pads for a more permanent fixture. Attach the chosen mounting accessory to the back of each bulb unit.

6. MAINTENANCE

- **Cleaning:** Wipe the bulbs and strip with a soft, dry cloth. Do not use abrasive cleaners or immerse the unit in water.
- **Storage:** If storing for an extended period, ensure the lights are clean and dry, and store them in a cool, dry place away from direct sunlight.
- **Cable Care:** Avoid bending or kinking the USB cable excessively to prevent damage.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Lights do not turn on.	No power supply or loose connection.	Ensure the USB cable is securely plugged into a working 5V 2A power source. Try a different USB port or adapter.

Problem	Possible Cause	Solution
Lights are dim or flickering.	Insufficient power or incorrect brightness setting.	Verify the power source provides 5V 2A. Increase brightness using the '+' button on the controller.
Lights fall off the mirror/wall.	Surface is not clean, or suction cups/adhesive are worn.	Clean the surface thoroughly before re-attaching. If using suction cups, moisten them slightly. If using adhesive pads, replace them if they lose stickiness.

8. SPECIFICATIONS

- **Brand:** Tomshine
- **Model:** LT092G
- **Light Source:** LED
- **Number of Bulbs:** 5
- **Power:** 4 Watts
- **Voltage:** 5 Volts (DC)
