Operating Instructions

The Skylar Futon features a versatile split-back design, allowing you to adjust each side independently to three different positions:

- **Sitting Position:** Both backrests are upright, functioning as a traditional sofa.
- **Lounging Position:** One or both backrests are partially reclined for relaxed seating.
- **Sleeping Position:** Both backrests are fully lowered to create a flat sleeping surface.

Converting Positions:

1. To recline a backrest, gently push it forward until you hear a click, then slowly lower it to the desired position.
2. To return a backrest to an upright position, push it forward until it clicks past the fully reclined position, then guide it back up.
3. Ensure the futon is placed on a stable, level surface before converting to prevent tipping.

- **Vacuuming:** Regularly vacuum the velvet upholstery using a soft brush attachment to remove dust and debris.
- **Sunlight Exposure:** Avoid prolonged direct sunlight exposure to prevent fading of the velvet fabric.
- **Moving:** When moving the futon, lift it rather than dragging to prevent damage to the legs and frame.
