# Jayron Desktop Digital Countdown Timer (Model JR-HM206) Instruction Manual

Model: JR-HM206

## 1. INTRODUCTION

Thank you for choosing the Jayron Desktop Digital Countdown Timer. This versatile timer is designed to assist you with various timing needs, from cooking and exercise to study and work. It features multiple programmable timers, a clock function, and an adjustable alarm to ensure you never miss an important moment.

Please read this manual carefully to understand the full functionality and ensure proper use of your device.

## 2. PRODUCT FEATURES

- **Countdown & Count-Up:** Features 4 programmable timers (T1 / T2 / T3 / T4) with a timing range of 99 hours, 59 minutes, and 59 seconds. Monitor different timing events simultaneously. Settings can be reset. The timer retains data for direct accumulation even when the display is off.
- **Clock Function:** Displays time in 12/24-hour format, switchable to adapt to your preference. A dedicated button allows for easy clock setting. The clock continues to run even when the display is turned off.
- **Easy-to-Read Display:** Equipped with a large LCD screen and big digits for clear readability.
- **Versatile Placement:** Includes magnet adsorption for attachment to metal surfaces (e.g., refrigerator, oven) and a hanging hole for wall hooks or brackets.
- **Audible Alarm:** Adjustable volume settings (Low/High/OFF). Each of the four timers has a distinct sound reminder. The buzzer lasts for 1 minute when time is up; press any button to stop.
- **Power:** Requires 2 AAA batteries (not included).

- **Display Control:** Screen can be turned on/off to conserve battery.

### 3. SETUP

#### 3.1 Battery Installation

1. Locate the battery compartment on the back of the timer.
2. Open the battery compartment cover.
3. Insert two AAA batteries (not included), ensuring correct polarity (+/-).
4. Close the battery compartment cover securely.

#### 3.2 Placement Options

The timer offers flexible placement options:

- **Magnetic Adsorption:** The back of the timer features strong magnets, allowing it to be securely attached to metal surfaces such as refrigerators, ovens, or whiteboards.
- **Hanging Hole:** A built-in hanging hole allows you to hang the timer on a wall hook or bracket.

## 4. OPERATION

### 4.1 Setting the Clock

1. Press the 'CLEAR 12/24' button to switch between 12-hour and 24-hour display modes.
2. To set the time, press and hold the 'HR' button to adjust hours, 'MIN' for minutes, and 'SEC' for seconds.
3. The clock will continue to run even if the display is turned off.

Even when the display is turned off, the clock continues to run.

#### 4.2 Using Countdown Timers (T1, T2, T3, T4)

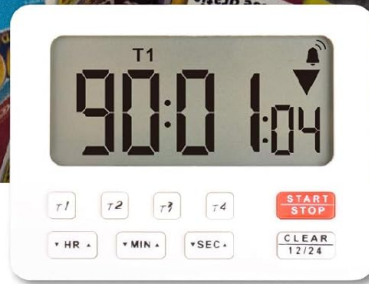

The timer features four independent countdown timers. Each can be set and operated separately.

1. Select the desired timer (T1, T2, T3, or T4) by pressing its respective button. The selected timer will be indicated on the display.
2. Press and hold the 'HR' button to set hours, 'MIN' for minutes, and 'SEC' for seconds for the selected timer.
3. Press the 'START/STOP' button to begin the countdown.
4. To pause the countdown, press 'START/STOP' again. Press it once more to resume.
5. To clear a timer's setting, select the timer and press the 'CLEAR 12/24' button.
6. When a countdown reaches zero, the alarm will sound for 1 minute. Press any button to stop the alarm.

#### 4.3 Using Count-Up Function

The timer can also be used as a stopwatch (count-up function).

1. Ensure the selected timer (T1, T2, T3, or T4) is cleared (displaying 00:00:00).
2. Press the 'START/STOP' button to begin counting up from zero.
3. Press 'START/STOP' again to pause the count-up. Press it once more to resume.
4. To clear the count-up time, press the 'CLEAR 12/24' button while the timer is paused.

**CLOCK:** 12/24H mode.

**TIMER:** 4 Resettable Timers.

**COUNT-UP:** The Range is 99 hours 59 minutes 59 seconds.

#### 4.4 Adjusting Alarm Volume

The alarm volume can be adjusted using the switch on the side of the timer.

- Slide the switch to 'High' for a loud alarm.
- Slide the switch to 'Low' for a softer alarm.
- Slide the switch to 'OFF' to mute the alarm.

### 5. MAINTENANCE

- **Cleaning:** Wipe the timer with a soft, dry cloth. Do not use abrasive cleaners or immerse the device in water.
- **Battery Replacement:** When the display dims or the timer functions erratically, replace the AAA batteries. Always replace both batteries at the same time.
- **Storage:** If storing the timer for an extended period, remove the batteries to prevent leakage.

### 6. TROUBLESHOOTING

- **Timer not turning on:** Check if batteries are inserted correctly with the right polarity. Ensure batteries are new or fully charged.
- **Display is dim or blank:** Replace the AAA batteries.
- **Alarm not sounding:** Check the alarm volume switch on the side of the timer and ensure it is set to 'Low' or 'High', not 'OFF'.
- **Timer not counting:** Ensure you have pressed the 'START/STOP' button after setting the time.
- **Incorrect time displayed:** Re-set the clock using the 'HR', 'MIN', 'SEC' buttons and verify the 12/24-hour mode.
