SAFETY INFORMATION

To ensure safe operation and prevent damage, please observe the following safety guidelines:

- Do not expose the charger or cable to liquids, moisture, or extreme temperatures.
- Do not disassemble, modify, or attempt to repair the charger.
- Avoid dropping or subjecting the charger to strong impacts.
- Ensure the charger is plugged into a properly grounded wall outlet.
- Unplug the charger from the wall outlet when not in use or during electrical storms.
- Keep out of reach of children.

SETUP

Setting up your ANGREAT 15W Type-C Wall Charger is straightforward:

1. Insert one end of the provided USB-C to USB-C cable into the USB-C port on the wall charger.
2. Plug the wall charger into a standard electrical outlet (100-240V).
3. Connect the other end of the USB-C cable to the charging port of your compatible device.

MAINTENANCE

Proper maintenance ensures the longevity and optimal performance of your charger:

- **Cleaning:** Disconnect the charger from the power outlet and your device before cleaning. Use a soft, dry cloth to wipe the surface. Do not use liquid cleaners or aerosols.
- **Storage:** Store the charger and cable in a cool, dry place away from direct sunlight and extreme temperatures.

- **Cable Care:** Avoid bending or twisting the cable excessively, especially near the connectors, to prevent internal damage.

TROUBLESHOOTING

If you encounter issues with your charger, refer to the following common problems and solutions:

- **Device not charging:**
 - Ensure the charger is securely plugged into a working wall outlet.
 - Verify that the USB-C cable is firmly connected to both the charger and your device.
 - Test the charger and cable with another compatible device to rule out device-specific issues.
 - Try a different wall outlet.
- **Slow charging:**
 - Ensure your device supports 15W fast charging.
 - Close any power-intensive applications running in the background on your device.
 - Check if the cable is damaged; a faulty cable can reduce charging speed.
- **Charger feels warm:**
 - It is normal for chargers to become slightly warm during operation. If the charger becomes excessively hot, disconnect it immediately and contact support.
