## 2. KEY FEATURES

---

- **Comprehensive Protection:** Engineered from premium hard EVA material, this case provides all-around protection against impacts, drops, and scratches. It is semi-waterproof, offering defense against splashes and light moisture.
- **Durable Construction:** The robust exterior ensures long-lasting performance and resilience in various travel conditions.
- **Soft Interior Lining:** Features a built-in super quality villus lining that cradles your speaker, preventing surface abrasions and ensuring a secure fit.
- **Compact and Portable:** With dimensions of approximately 8.4 x 2.9 x 3.6 inches, the case is designed for easy portability, fitting comfortably in bags or luggage.
- **Stylish Design:** The sleek black finish and quality materials reflect a premium aesthetic.

## 3. SETUP AND INITIAL USE

Setting up your LENRUE Hard Travel Carrying Case for use is straightforward:

1. **Unpack the Case:** Remove the carrying case from its packaging.

2. **Open the Zipper:** Fully open the durable zipper to reveal the interior compartment.
3. **Insert Speaker:** Carefully place your compatible Bluetooth speaker (e.g., LENRUE A10/A11/A12, Kunodi A15, Xsound Go) into the molded interior. Ensure it fits snugly within the soft lining.
4. **Close the Zipper:** Securely close the zipper to fully enclose and protect your speaker.

## 4. CARE AND MAINTENANCE

To ensure the longevity and continued protective qualities of your carrying case, follow these maintenance guidelines:

- **Cleaning:** For general cleaning, wipe the exterior with a soft, damp cloth. For stubborn dirt, a mild soap solution can be used, followed by wiping with a clean, damp cloth. Avoid harsh chemicals or abrasive cleaners.
- **Drying:** Allow the case to air dry completely before closing or storing, especially if it has been exposed to moisture. Do not use direct heat sources for drying.
- **Storage:** Store the case in a cool, dry place away from direct sunlight and extreme temperatures when not in use.
- **Zipper Care:** Periodically check the zipper for any debris and clean if necessary. Avoid forcing the zipper if it catches.

## 5. TROUBLESHOOTING

This section addresses common concerns you might encounter with your carrying case.

### Common Issues and Solutions

Issue	Possible Cause	Solution
Speaker does not fit.	Incompatible speaker model.	Ensure your speaker is one of the compatible models (LENRUE A10/A11/A12, Kunodi A15, Xsound Go). This case is specifically designed for these dimensions.
Zipper is stuck or difficult to move.	Debris caught in zipper teeth; zipper misalignment.	Inspect the zipper for any fabric, threads, or dirt. Gently remove any obstructions. If misaligned, try to gently realign the zipper pull. Avoid forcing it.
Case appears damaged after impact.	Severe impact beyond design limits.	While highly protective, extreme impacts can cause damage. Assess the extent of the damage. If the structural integrity is compromised, consider replacing the case for optimal protection.

## 6. PRODUCT SPECIFICATIONS

### Technical Specifications

Attribute	Detail
Product Type	Hard Travel Carrying Case
