Oumij DT08

Oumij DT08 10X25 Digital Camera Binoculars User Manual

Model: DT08

1. Introduction

The Oumij DT08 10X25 Digital Camera Binoculars combine the functionality of a telescope, digital camera, and video recorder into a compact and lightweight device. This manual provides essential information for the proper setup, operation, and maintenance of your device.

Key Features:

- Integrated telescope, digital camera, and video recorder.
- 10-25x zooming capability for clear imaging.
- Lightweight and compact design for portability.
- Supports photography and video recording.
- Functions as a computer camera and TF card reader.

3. Setup

3.1 Battery Installation

1. Locate the battery compartment on the device.
2. Open the battery compartment cover.
3. Insert 2 AA batteries, ensuring correct polarity (+/-).
4. Close the battery compartment cover securely.

3.2 TF Card Insertion

The device supports a TF (MicroSD) card for storing photos and videos. Insert the TF card into the designated slot until it clicks into place.

4. Operating Instructions

4.1 Power On/Off

Press and hold the power button to turn the device on or off.

4.2 Using as Binoculars

1. Hold the binoculars to your eyes.
2. Adjust the central focus wheel until the image is clear.
3. Adjust the diopter on the right eyepiece for individual eye focus, if necessary.

Figure 4: The binoculars are suitable for observing various outdoor activities and wildlife.

4.3 Taking Photos

While observing through the binoculars, press the dedicated photo button to capture an image. Ensure a TF card is inserted for storage.

4.4 Recording Videos

Press the video record button to start recording. Press it again to stop. Videos will be saved to the inserted TF card.

5. Maintenance

5.1 Cleaning

Use the provided cleaning cloth to gently wipe the lenses and body of the binoculars. Avoid using abrasive materials or harsh chemicals, which can damage the optics or finish.

5.2 Storage

Store the binoculars in a dry, cool place away from direct sunlight and extreme temperatures. Remove batteries if the device will not be used for an extended period to prevent leakage.

6. Troubleshooting

- **Device does not power on:**
  Check if the AA batteries are inserted correctly and are not depleted. Replace with fresh batteries if necessary.
- **Images are blurry:**
  Adjust the central focus wheel and the diopter on the right eyepiece until the image is sharp. Ensure lenses are clean.
- **Cannot take photos/record videos:**
  Verify that a TF card is properly inserted and has sufficient free space. The device may not function without a memory card.
- **Computer does not recognize the device:**
  Ensure the USB cable is securely connected to both the binoculars and the computer. Try a different USB port or cable.

7. Specifications

Feature	Detail
Model	DT08
