sodastream E-DUO Sparkling Water Maker

SodaStream E-Duo Sparkling Water Maker

MODEL: E-DUO SPARKLING WATER MAKER (BLACK)

Introduction

The SodaStream E-Duo Sparkling Water Maker transforms ordinary tap water into sparkling water. This device offers a convenient method for preparing carbonated beverages at home, reducing the need for single-use plastic bottles. It is designed for ease of use and provides adjustable carbonation levels.

Package Contents

- 1 x SodaStream E-Duo Sparkling Water Maker (Black)
- 1 x 60L CO2 Cylinder
- 1 x 1L BPA-Free Dishwasher Safe Reusable Carbonating Bottle
- 1 x 1L Glass Bottle

Safety Information

- Use only SodaStream carbonating bottles with your Sparkling Water Maker.
- Do not carbonate anything other than plain water. Carbonating flavored liquids can cause excessive foaming and may damage the machine.
- Do not use bottles that are damaged, deformed, or expired.
- Keep the appliance out of reach of children.
- Ensure the CO2 cylinder is securely installed before use.

Setup

1. **Unpack the Device:** Carefully remove all components from the packaging.
2. **Install CO2 Cylinder:**

The stylish, scratch-resistant, easy-to-clean design complements any kitchen décor.

To install the CO2 cylinder, remove the back cover of the Sparkling Water Maker. Insert the CO2 cylinder into the designated slot, ensuring it clicks securely into place using the Quick Connect system. Replace the back cover.

3. **Position the Device:** Place the SodaStream E-Duo on a flat, stable surface.

Operating Instructions

1. **Fill the Bottle:** Fill a SodaStream carbonating bottle with cold tap water up to the fill line indicated on the bottle.

Image: The SodaStream E-Duo machine with a carbonating bottle ready for use.

2. **Insert the Bottle:** Angle the bottle into the machine and push it upwards and backwards until it locks into place. There should be a small gap underneath the bottle when correctly inserted.
3. **Carbonate the Water:** Press one of the carbonation buttons on top of the machine. The E-Duo features a three-level automatic carbonation system. Press the button corresponding to your desired fizz level (light, medium, or strong). The machine will automatically release the CO2.

Image: Visual representation of different carbonation levels.

4. **Release and Remove:** Once carbonation is complete, gently pull the bottle forward to release it from the machine.
5. **Add Flavors (Optional):** After carbonating, you can add SodaStream flavorings or fresh fruit slices to your sparkling water. Do not carbonate water with flavors already added.

Maintenance and Cleaning

- **Cleaning the Machine:** Wipe the exterior of the Sparkling Water Maker with a damp cloth. Do not immerse the device in water.
- **Cleaning Bottles:** The 1L BPA-Free carbonating bottle is dishwasher safe. The 1L glass bottle should be hand-washed with warm water and mild detergent. Do not use abrasive cleaners.

Troubleshooting

- **No Fizz/Weak Fizz:** Ensure the CO2 cylinder is not empty and is correctly installed. Make sure the carbonating bottle is filled with cold water and securely locked in place.
- **Leaking Water:** Check that the carbonating bottle is filled only to the fill line and is properly attached to the machine.
- **Machine Not Operating:** Verify that the CO2 cylinder is installed correctly and has gas.

Specifications
