SETUP AND INSTALLATION

This hardware kit is intended for use as replacement parts during the assembly or reassembly of the IKEA KALLAX 3 x 4 Shelf Unit (model 104.099.32). Follow the original IKEA assembly instructions for your KALLAX unit, utilizing these

replacement screws and dowels where specified.

- 1. Identify Components:** Ensure you have all 8 screws and 64 wooden dowels as listed in the "Included Components" section.
- 2. Refer to IKEA Manual:** Consult the original IKEA assembly manual for your KALLAX 3x4 shelf unit. This kit provides the hardware; the assembly steps are detailed in the IKEA manual.
- 3. Insert Dowels:** Place the wooden dowels into the pre-drilled holes in the KALLAX shelf panels as indicated by the IKEA instructions. Ensure they are fully seated.
- 4. Secure with Screws:** Use the provided screws to connect the KALLAX panels, tightening them securely but without over-tightening to prevent damage to the furniture.
- 5. Verify Assembly:** After assembly, ensure all connections are secure and the unit is stable before use.

IMPORTANT NOTES AND COMPATIBILITY

It is crucial to verify the compatibility of this hardware kit with your specific IKEA shelf unit before purchase and use.

- **Not compatible with EXPEDIT shelves.**
- If your unit was purchased before June 2014, it may be an EXPEDIT model, which uses longer screws and thicker dowels. This kit is specifically for the KALLAX series.
- Always verify your IKEA shelf model number (104.099.32) to ensure correct fitment.

CARE AND MAINTENANCE

The hardware components themselves require minimal maintenance. If they become dirty, wipe them with a dry cloth. Avoid using harsh chemicals or abrasive cleaners, as these may damage the finish of the screws or the wood of the dowels.

For the KALLAX shelf unit itself, refer to IKEA's care instructions.

TROUBLESHOOTING

This kit provides replacement hardware. Issues typically arise from incorrect assembly of the KALLAX unit rather than defects in the hardware itself. If you encounter difficulties during assembly:

- **Verify Compatibility:** Double-check that your IKEA shelf is indeed the KALLAX 3x4 unit (model 104.099.32) and not an EXPEDIT unit.
- **Consult IKEA Manual:** Refer to the original IKEA assembly manual for detailed step-by-step instructions and diagrams.
- **Check Orientation:** Ensure all panels and hardware are oriented correctly before tightening.
- **Do Not Force:** If parts do not fit easily, re-check the instructions and component orientation. Forcing parts can cause damage.
