Magicfly MF7005-Magicfly

Magicfly Fabric Paint Set Instruction Manual

Model: MF7005-Magicfly

1. INTRODUCTION

Thank you for choosing the Magicfly Fabric Paint Set. This set provides 14 vibrant colors of permanent fabric paint, designed for creative projects on various textiles and surfaces. The paints are formulated to be anti-faded and do not require heat setting, offering convenience and lasting results. This manual provides essential information for safe and effective use of your fabric paint set.

2. SAFETY INFORMATION

The Magicfly Fabric Paints conform to ASTM D-4236 standards, indicating they are non-toxic and safe for use. However, please observe the following safety guidelines:

- Keep out of reach of small children to prevent accidental ingestion.
- Avoid direct contact with eyes. In case of contact, rinse immediately with plenty of water and seek medical advice if irritation persists.
- Use in a well-ventilated area.
- Do not ingest. If swallowed, seek medical attention immediately.

3. PACKAGE CONTENTS

Your Magicfly Fabric Paint Set includes the following items:

- 14 bottles of fabric paint (60ml / 2.03 Fl Oz each)
- 3 paint brushes of varying sizes

Image 3.1: Display of paint bottle size (60ml / 2.03 fl oz) and brush lengths (6.3, 6.4, 6.7 inches).

4. SETUP

Before beginning your project, ensure proper preparation:

1. **Prepare Your Workspace:** Choose a clean, flat surface. Cover it with newspaper or a protective sheet to prevent paint spills.
2. **Prepare Your Fabric:** Wash and dry the fabric item (e.g., T-shirt, jeans, canvas bag) to remove any sizing or finishes that might prevent paint adhesion. Iron if necessary to create a smooth surface.
3. **Insert a Barrier:** For clothing items, place a piece of cardboard or wax paper inside the garment between the layers to prevent paint from bleeding through to the other side.

4. **Shake Paint Bottles:** Gently shake each paint bottle before opening to ensure the pigment is well-mixed.
5. **Dispense Paint:** Squeeze a small amount of desired colors onto a palette or disposable plate.

5. OPERATING INSTRUCTIONS

5.1 Application

- Apply paint directly to the fabric using the provided brushes or other tools.
- For finer details or lighter application, you may dilute the paint with a small amount of water.

- The paints are semi-transparent. For more opaque coverage, apply multiple thin layers, allowing each layer to dry partially before applying the next.
- These paints are suitable for synthetic and natural fabrics, canvas, paper, wood, and glass.

SMOOTH & TEXTURED

Our smooth and textured fabric paint can satisfy multi-layer coloring.

Image 5.1: A brush applying Magicfly fabric paint, demonstrating its smooth and textured application for multi-layer coloring.

5.2 Drying and Curing

- Magicfly Fabric Paints are designed to dry quickly.
- No heat setting is required. The paint will become permanent and anti-faded without ironing or other heat treatments.
- Allow the painted item to air dry completely for at least 24 hours for full cure before washing or extensive use.

NO HEATING NEEDED

No heating needed, Don't worry about your idea being destroyed

Image 5.2: An illustration showing an iron with a red 'X' over it, emphasizing that no heat setting is required for Magicfly fabric paints.

5.3 Color Variety and Mixing

The set includes Classic, Neon, and Metallic colors. You can mix different colors to create custom shades and effects.

VARIOUS COLOR CHOICES

We provide wide range of colors to satisfy different needs.

5.4 Versatile Applications

Beyond fabric, these paints can be used on various other surfaces for diverse DIY projects.

MULTIPLE USE EFFECTS

DIY doodle bags, shoes, t-shirts, etc. to create your own creative personality

6. MAINTENANCE

- **Cleaning Brushes:** Wash brushes immediately after use with soap and water to prevent paint from drying and hardening on the bristles.
- **Storing Paint:** Ensure bottle caps are tightly sealed after each use to prevent paint from drying out. Store paints at room temperature, away from direct sunlight and extreme temperatures.

- **Washing Painted Fabrics:** After the full 24-hour curing period, painted fabrics can be machine washed. Turn garments inside out before washing. Use a gentle cycle with cold water and mild detergent. Air dry or tumble dry on low heat. Avoid harsh scrubbing or bleaching agents.

7. TROUBLESHOOTING

- **Paint appears too thick:** If the paint is too thick for your desired application, dilute it with a small amount of water. Start with a few drops and mix thoroughly until the desired consistency is achieved.
- **Paint is not opaque enough on dark fabrics:** Magicfly fabric paints are semi-transparent. For better opacity on darker fabrics, apply multiple thin layers, allowing each layer to dry before applying the next. Alternatively, apply a base coat of white paint first, let it dry, and then apply your desired colors.
- **Paint cracking or peeling after washing:** Ensure the paint has fully cured for at least 24 hours before washing. Always wash painted garments inside out on a gentle cycle with cold water. Avoid using hot water or harsh detergents, which can compromise the paint's integrity.
- **Paint bleeding on fabric:** Ensure your fabric is clean and free of sizing. For very thin fabrics, you might need to use a fabric medium to control paint spread, though typically not necessary with Magicfly paints.

8. SPECIFICATIONS

Feature	Detail
Brand	Magicfly
Model Number	MF7005-Magicfly
Paint Type	Acrylic Fabric Paint
Colors Included	14 (Classic, Neon, Metallic)
Item Volume	60 ml (2.03 Fl Oz) per bottle
Unit Count	28.42 Fluid Ounces (total)
