Imetec 16631

Imetec Scaldasonno Adapto Matrimoniale Heated Underblanket

Model: 16631 | Brand: Imetec

Introduction

This manual provides essential instructions for the safe and effective use of your Imetec Scaldasonno Adapto Matrimoniale heated underblanket. Please read all instructions carefully before first use and retain this manual for future reference. The Imetec Scaldasonno Adapto is designed to provide personalized warmth and comfort, featuring advanced technology for stable temperature maintenance and energy efficiency.

Safety Information

Important Warnings:

- Always read the label, warnings, and instructions provided with the product before use.
- The product packaging may contain information different from that shown on our website.
- The integrated Electro Block digital control system performs a self-diagnosis at each power-on and continuously monitors the underblanket during use. In case of anomalies, it automatically switches off the device to ensure safety.
- Do not use if the underblanket is wet or damp.
- Do not insert pins or other sharp objects into the underblanket.
- Ensure the control unit cables are not trapped or pinched.

Setup

Unpacking and Inspection

1. Carefully remove the heated underblanket and its control units from the packaging.
2. Inspect the product for any signs of damage. If any damage is found, do not use the product and contact customer support.

Placement on the Mattress

1. Place the Imetec Scaldasonno Adapto directly on your mattress, underneath the fitted sheet. Ensure it lies flat and smooth, covering the desired sleeping area.
2. The underblanket features an anti-slip bottom fabric to help keep it securely in place on the mattress, including memory foam mattresses.
3. For the matrimonial size (150x160 cm), position the underblanket centrally on the double mattress.

Connecting the Control Units

1. Connect the control unit cables to the corresponding connectors on the underblanket. Ensure a firm connection.
2. Plug the power cords of the control units into suitable electrical outlets.
3. For the matrimonial model, two independent control units are provided, allowing each user to set their preferred temperature.

Operating Instructions

Powering On and Off

1. To turn on the underblanket, press the power button on the control unit. The indicator light will illuminate.
2. To turn off the underblanket, press the power button again. The indicator light will turn off.

Temperature Control

The Imetec Scaldasonno Adapto features 6 temperature levels and Adapto technology for personalized warmth.

1. Use the '+' and '-' buttons on the control unit to select your desired temperature level from 1 to 6. Level 1 is the lowest heat, and Level 6 is the highest.
2. The patented Adapto technology automatically adjusts and maintains the selected heat level throughout the night, adapting to your body temperature and the ambient room temperature. This ensures consistent comfort and energy saving.
3. For rapid heating, select a higher temperature setting initially. The underblanket heats up quickly to provide warmth in a short time.

Timer Function

The control unit includes a timer for automatic shut-off.

1. Press the timer button to cycle through the available auto-off settings: 1 hour, 3 hours, or 9 hours.
2. The corresponding indicator light on the control unit will show the selected timer duration.

3. Once the set time expires, the underblanket will automatically turn off.

Maintenance

Cleaning Instructions

The Imetec Scaldasonno Adapto is made from 100% high-quality Italian cotton and is washable.

1. Before cleaning, always disconnect the control units from the underblanket and unplug them from the power outlet.
2. The underblanket can be hand washed or machine washed at 30°C (86°F). Refer to the care label for specific instructions.
3. Do not bleach, iron, or dry clean the underblanket.
4. Ensure the underblanket is completely dry before reconnecting the control units and using it again.

Storage

When not in use, store the underblanket in a cool, dry place. Ensure it is clean and completely dry before folding and storing. Do not place heavy objects on top of the folded underblanket.

Troubleshooting

If you encounter any issues with your Imetec Scaldasonno Adapto, please refer to the following common troubleshooting steps:

Problem	Possible Cause / Solution
Underblanket does not heat up.	• Ensure the power cord is securely plugged into the wall outlet. • Check that the control unit is properly connected to the underblanket. • Press the power button on the control unit to turn it on. • If the Electro Block system detects an anomaly, it may have automatically shut off the device. Try unplugging and re-plugging the unit.
Underblanket is not heating sufficiently.	• Increase the temperature setting on the control unit. • Allow sufficient time for the underblanket to reach the desired temperature, especially on lower settings. • Ensure the underblanket is covered by a sheet or duvet to retain heat.
Control unit indicator lights are off.	• The unit may be turned off. Press the power button. • Check the power connection to the wall outlet. • The timer may have expired, turning off the unit.

If the problem persists after attempting these solutions, please contact Imetec customer support.
