ELEGANT BL-363672CB-1

ELEGANT Corner Shower Door Instruction Manual

Brand: ELEGANT | **Model:** BL-363672CB-1

Product Overview

The ELEGANT Corner Shower Door is a 36 in. D. x 36 in. W. x 72 in. H. double sliding shower enclosure featuring 1/4 inch (6mm) clear tempered certified glass and a brushed nickel finish. Designed for corner installation, this unit provides a wide entrance and is suitable for a 36 in. D x 36 in. W x 3 in. H double threshold shower base. Its robust construction ensures durability and ease of use, with smooth and quiet operation of the sliding doors.
Key Features:

- **ELEGANT MODERN DESIGN:** 36 in. D. x 36 in. W. x 72 in. H. with width adjustment up to 20 mm on each side. Walk-in opening: 20 in. Hardware finish type: brushed nickel.
- **SLIDING SHOWER ENCLOSURE:** Features handmade polish for a flawless surface. Durable inner rollers and solid track rail ensure smooth and quiet movement.
- **EFFECTIVE SAFETY CLEAR GLASS:** Made from 1/4 inch (6mm) clear tempered certified glass, designed not to shatter and easy to maintain. Full-length magnetic door strips and clear vinyl door seals prevent water leakage.
- **EASY TO INSTALL and OPENING:** Dual opening sliding glass shower door provides a wide entrance, ideal for small bathrooms.
- **CORNER SHOWER ENCLOSURE:** Designed for space-saving corner installation. Framed square shape enhances sturdiness and stability.

Safety Information

Please read all instructions carefully before installation and use. Failure to follow these instructions may result in injury or product damage.

- Always wear safety glasses during installation.
- Handle glass panels with extreme care. Tempered glass, while strong, can shatter into small pieces if its edges are damaged.
- Ensure the installation surface (walls, floor) is structurally sound and level.
- Do not overtighten screws, as this can damage components or glass.
- Professional installation is recommended for optimal safety and performance.
- Keep children and pets away from the installation area.

Package Contents

Before beginning installation, verify that all parts are included as listed in your product's instruction manual. A typical package includes:

- Clear tempered glass panels (fixed and sliding)
- Aluminum wall profiles and rails
- Door handles (brushed nickel)
- Rollers and guides for sliding doors
- Water retaining strips (magnetic and regular)
- Screws, wall plugs, and other fasteners
- Decorative covers

Installation Instructions

This section provides a step-by-step guide for installing your ELEGANT Corner Shower Door. For a visual guide, please refer to the installation video below.

Video: Official ELEGANT Sliding Corner Shower Enclosure Installation Guide. This video demonstrates the complete assembly process from start to finish.

Step 1: Wall Profile Installation

1. Position the wall profile (Part S01) vertically on the wall according to your model size. Use a marker to mark the wall with the hole positions on the profile. Ensure holes are not too close to tile edges.
2. Repeat the marking process for the wall profile on the other side.
3. Drill holes at your marked positions using a 6mm (0.2362 inch) drill bit.
4. Insert the wall plugs (Part S18) into the drilled holes with a hammer.
5. Attach the wall profile to the wall using screws (Parts S17, S19). Securely tighten them, then put on the screw covers.
6. Repeat for the other wall profile.

Image: Marking the wall for precise drill hole placement.

Step 2: Fixed Panel Assembly

1. Secure the rails and glass panels (Parts S03, S05, S06, S11) with screws. Ensure proper alignment, then put on the screw covers.
2. Secure the side profile and glass with screws (Parts S02, S19).
3. Install the limit blocks with screws (Parts S04, S05), then put on the screw cover.
4. Install the water retaining strip (Part S10) along the bottom edge of the fixed panel.
5. Repeat the assembly process for the other fixed panel.

Step 3: Fixed Panel Installation

1. Insert the fixed panel into the wall profile. (We recommend two people for this action to ensure stability and prevent damage).
2. Put on the decorative covers (Parts S22, S23) at the top and bottom corners of the installed fixed panel.

Step 4: Connecting Fixed Panels

1. Insert the other fixed panel into its respective wall profile.
2. Connect the two fixed panels using the rail adapter and screw (Parts S08, S09) at the corner.

Step 5: Moving Panel Assembly

1. Install the wheels (Parts S07, S14, S21) on the moving panels. Ensure they are securely attached, then put on the decorative covers.

Step 6: Moving Panel Installation

1. Firstly, hang the moving panel by the wheels on the top rail.
2. Then press the button to fit the wheels into the bottom rail.
3. Repeat for the other moving panel.

Step 7: Handle Installation

1. Install the handles (Part S16) on the moving panels. Ensure they are firmly attached.

Image: Brushed nickel handles installed on the sliding glass panels.

Step 8: Water Retaining Strips Installation

1. Install the magnetic water retaining strips (Part S15) along the vertical edges of the moving panels where they meet.
2. Install the regular water retaining strips (Part S12) along the remaining vertical edges of the fixed panels.

Step 9: Final Securing and Sealing

1. Secure the fixed panels with wall profiles using screws (Parts S05, S17), then put on the decorative covers.
2. Apply silicone sealant to the outside edges of the profiles where they meet the wall and shower base. Allow at least 24 hours for the sealant to dry completely before using the shower.

Maintenance and Care

Proper maintenance will ensure the longevity and appearance of your ELEGANT shower door.

- **Cleaning Glass:** Use a soft cloth and a mild, non-abrasive glass cleaner. Avoid harsh chemicals, abrasive pads, or scouring powders that can scratch the glass or damage the finish.
- **Cleaning Hardware:** Wipe down metal components with a soft, damp cloth. For stubborn spots, use a mild soap solution. Dry thoroughly to prevent water spots and corrosion.
- **Roller Maintenance:** The quick-release bottom rollers (as shown in image) allow for easy removal and cleaning of the sliding door panels. Regularly clean the rollers and tracks to ensure smooth operation and prevent debris buildup.
- **Seal Maintenance:** Periodically check the water retaining strips and silicone sealant for any signs of wear or damage. Replace if necessary to prevent leaks.

Troubleshooting

If you encounter any issues with your shower door, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Water Leakage	Improperly installed or damaged water retaining strips/seals; insufficient silicone sealant.	Check and adjust water retaining strips. Reapply silicone sealant where necessary, ensuring a complete seal.
Doors do not slide smoothly	Debris in tracks; damaged or misaligned rollers.	Clean tracks thoroughly. Inspect rollers for damage and ensure they are properly seated in the rails.

Problem	Possible Cause	Solution
Door does not close completely	Misaligned magnetic strips; obstruction in the track.	Adjust magnetic strips for proper alignment. Remove any obstructions from the track.
Glass panel feels loose	Loose screws in profiles or hardware.	Carefully check and tighten all screws securing the glass panels to the profiles. Do not overtighten.

Specifications

- **Brand:** ELEGANT
- **Model Number:** BL-363672CB-1
- **Product Dimensions:** 36"D x 36"W x 72"H
- **Item Weight:** 119 pounds
- **Material:** Brushed Nickel (Hardware), 1/4 inch (6mm) Clear Tempered Glass
- **Installation Type:** Screw-In
- **Shape:** Rectangular (Corner Enclosure)
- **Handle Type:** Standard Sliding Door Handle
- **Number of Doors:** 2 (Sliding)
- **Number Of Panels:** 1 (Fixed)
- **Assembly Required:** Yes
- **Color:** Brushed Nickel
- **UPC:** 714035286949
- **Manufacturer:** Elegant Home Supply Inc
- **First Available Date:** September 25, 2019
