De'Longhi ENV150B

Nespresso Vertuo Plus Coffee and Espresso Maker User Manual

Model: ENV150B | Brand: De'Longhi

1. Product Overview

The Nespresso Vertuo Plus is an advanced coffee and espresso maker designed for convenience and quality. It utilizes Centrifusion technology to brew a variety of coffee and espresso sizes, automatically adjusting brewing parameters based on the barcode on each Nespresso Vertuo capsule. This machine is designed for home use and offers a simple, one-touch operation.

Image 1.2: The Vertuo Plus machine capable of brewing both espresso and coffee, as indicated by the different cup sizes shown.

2. Safety Instructions

Please read all instructions before using the appliance to prevent injury or damage. Keep this manual for future reference.

- **Electrical Safety:** Ensure the voltage specified on the appliance matches your local mains voltage. Do not immerse the appliance, power cord, or plug in water or other liquids.
- **Hot Surfaces:** The brewing head and cup support area can become hot during operation. Avoid direct contact.
- **Children:** This appliance is not intended for use by children. Keep the machine and its cord out of reach of children.
- **Maintenance:** Unplug the machine before cleaning and when not in use for extended periods. Do not operate the machine with a damaged cord or plug.
- **Water Tank:** Only fill the water tank with fresh, potable water. Do not use milk or other liquids.

3. Setup and First Use

Follow these steps for initial setup and preparing your machine for its first brew.

1. **Unboxing:** Carefully remove the machine from its packaging. Retain packaging for future transport or storage.
2. **Positioning:** Place the machine on a clean, stable, and level surface, away from heat sources and water splashes. Ensure adequate space around the machine for ventilation and water tank placement.
3. **Water Tank Placement:** The 40 oz water tank can be adjusted to different positions (rear, left, or right) to

optimize countertop space.

Image 3.1: Diagram illustrating the adjustable water tank position and overall dimensions of the Nespresso Vertuo Plus machine for optimized countertop size.

4. **Rinsing:** Fill the water tank with fresh water. Place a container (at least 17 oz) under the coffee outlet. Close the head and press the button three times quickly to start the rinsing cycle. The machine will run water through the system. Repeat this process twice.
5. **Power On:** Plug the machine into a grounded power outlet. The indicator light will blink while heating up (approx. 25 seconds) and turn steady green when ready.

4. Operating Instructions

Brewing coffee or espresso with your Vertuo Plus machine is a simple, one-touch process.

1. **Fill Water Tank:** Ensure the water tank is filled with fresh, potable water.
2. **Place Cup:** Position a cup of appropriate size on the cup support. The cup support can be adjusted or removed for larger mugs.
3. **Insert Capsule:** Gently lift the machine head. Insert a Nespresso Vertuo capsule with the dome side down. The machine will automatically close the head.

Image 4.1: Visual representation of the four different cup sizes the Vertuo Plus can brew: single espresso, double espresso, 5 oz coffee, and 8 oz coffee.

Image 4.2: An array of coffee styles that can be crafted with the Vertuo Plus, including 8 oz coffee, 5 oz coffee, single espresso, double espresso, and barista-style milk beverages.

4. **Start Brewing:** Press the button once. The machine will read the barcode on the capsule and begin the brewing process. The light will blink during brewing.

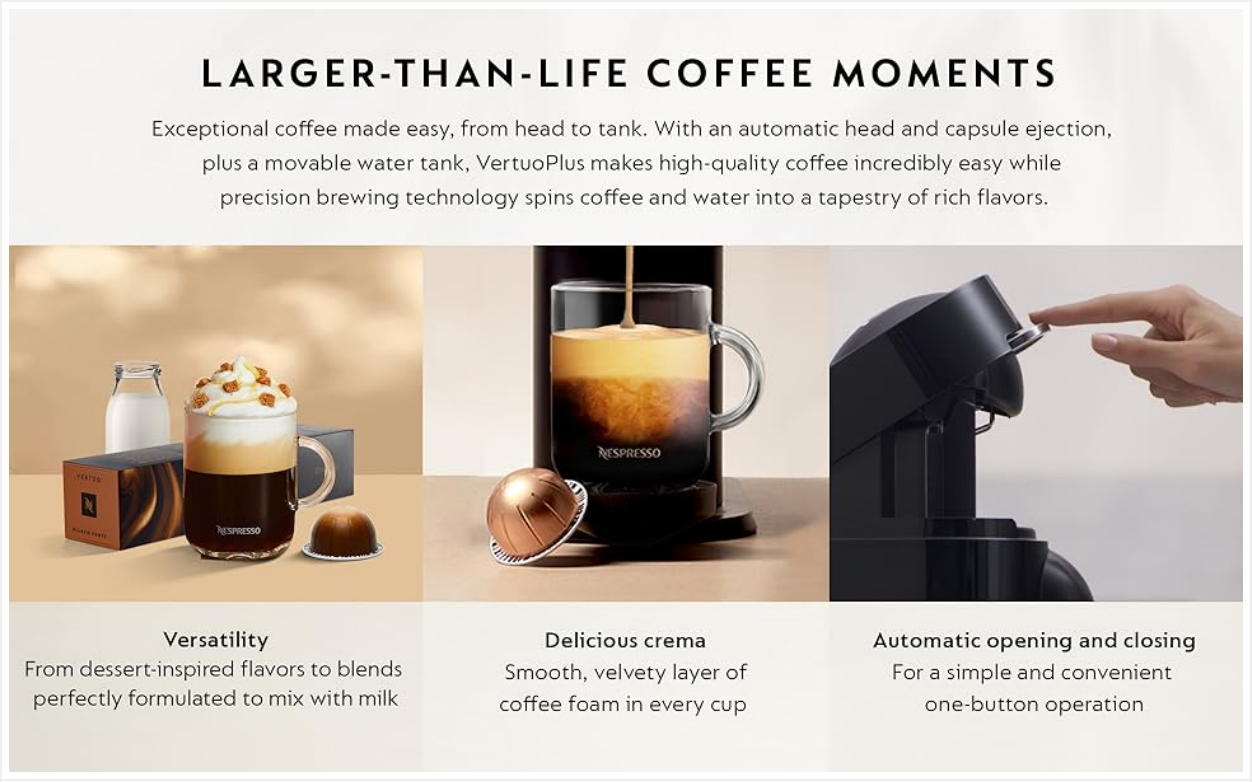

Image 4.3: The automatic opening and closing mechanism of the machine head, demonstrating the simple one-button operation for brewing.

5. **Enjoy:** Once brewing is complete, the light will turn steady green. The machine will automatically eject the used capsule into the capsule container.
6. **Brewing Over Ice:** For iced beverages, place ice in your cup before brewing. The machine will brew the coffee hot over the ice, creating a chilled drink.

Image 4.4: The versatility of the Vertuo Plus, capable of brewing coffee hot or directly over ice for refreshing cold beverages.

5. Maintenance

Regular maintenance ensures the longevity and optimal performance of your Nespresso Vertuo Plus machine.

5.1 Daily Cleaning

- **Empty Capsule Container:** After each use, or when full, empty and rinse the used capsule container.
- **Clean Drip Tray:** Remove and clean the drip tray and cup support with a damp cloth.
- **Wipe Exterior:** Wipe the machine's exterior with a soft, damp cloth. Do not use abrasive cleaning agents or solvents.
- **Rinse Water Tank:** Rinse the water tank daily with fresh water.

5.2 Descaling

Descaling is crucial for maintaining machine performance and coffee quality. The machine will indicate when descaling is needed (usually by a specific light pattern, refer to the full user guide for exact indication).

1. **Prepare Solution:** Use a Nespresso descaling solution. Follow the instructions on the descaling kit.
2. **Initiate Descaling Mode:** Refer to the detailed descaling procedure in the official Nespresso Vertuo Plus user manual for your specific model. This typically involves pressing and holding the button for several seconds until a specific light pattern appears.
3. **Run Cycles:** The machine will guide you through several cycles of descaling solution and then rinsing with clean water.
4. **Exit Descaling Mode:** Once complete, the machine will return to ready mode.

5.3 Capsule Recycling

Nespresso offers a recycling program for its aluminum capsules. All aluminum pods collected by Nespresso are recycled.

Image 5.1: Illustration of Nespresso's commitment to recycling, showing used aluminum capsules and the process of collecting coffee cherries.

6. Troubleshooting

If you encounter issues with your Nespresso Vertuo Plus, consult the table below for common problems and solutions.

Problem	Possible Cause	Solution
No coffee flows, or only a few drops	Water tank empty; Machine not heated; Descaling needed; Capsule issue.	Fill water tank; Wait for steady green light; Perform descaling; Check capsule insertion.
Coffee is not hot enough	Cold cup; Machine not fully heated.	Pre-heat cup with hot water; Wait for steady green light before brewing.
Machine leaks water	Water tank not correctly positioned; Internal blockage.	Ensure water tank is securely in place; Perform a rinsing cycle; If problem persists, contact Nespresso Club.
Machine light blinks red	Error or descaling required.	Refer to the full user manual for specific red light patterns; May indicate descaling is needed or a technical issue.

For more complex issues or if troubleshooting steps do not resolve the problem, please contact Nespresso Club

support.

7. Specifications

- **Brand:** De'Longhi
- **Model Name:** Vertuo Plus
- **Model Number:** ENV150B
- **Color:** Ink Black
- **Product Dimensions:** 5.59"D x 16.88"W x 12.79"H
- **Water Tank Capacity:** 40 oz (approx. 1.18 Liters)
- **Operation Mode:** Fully Automatic
- **Voltage:** 120 Volts
- **Special Features:** Auto Shut-Off, Memory Function, Barcode Reading Technology
