### 3.2. Camera

The smartwatch is equipped with a 5MP camera, allowing you to capture moments and engage in video calls directly from your wrist.

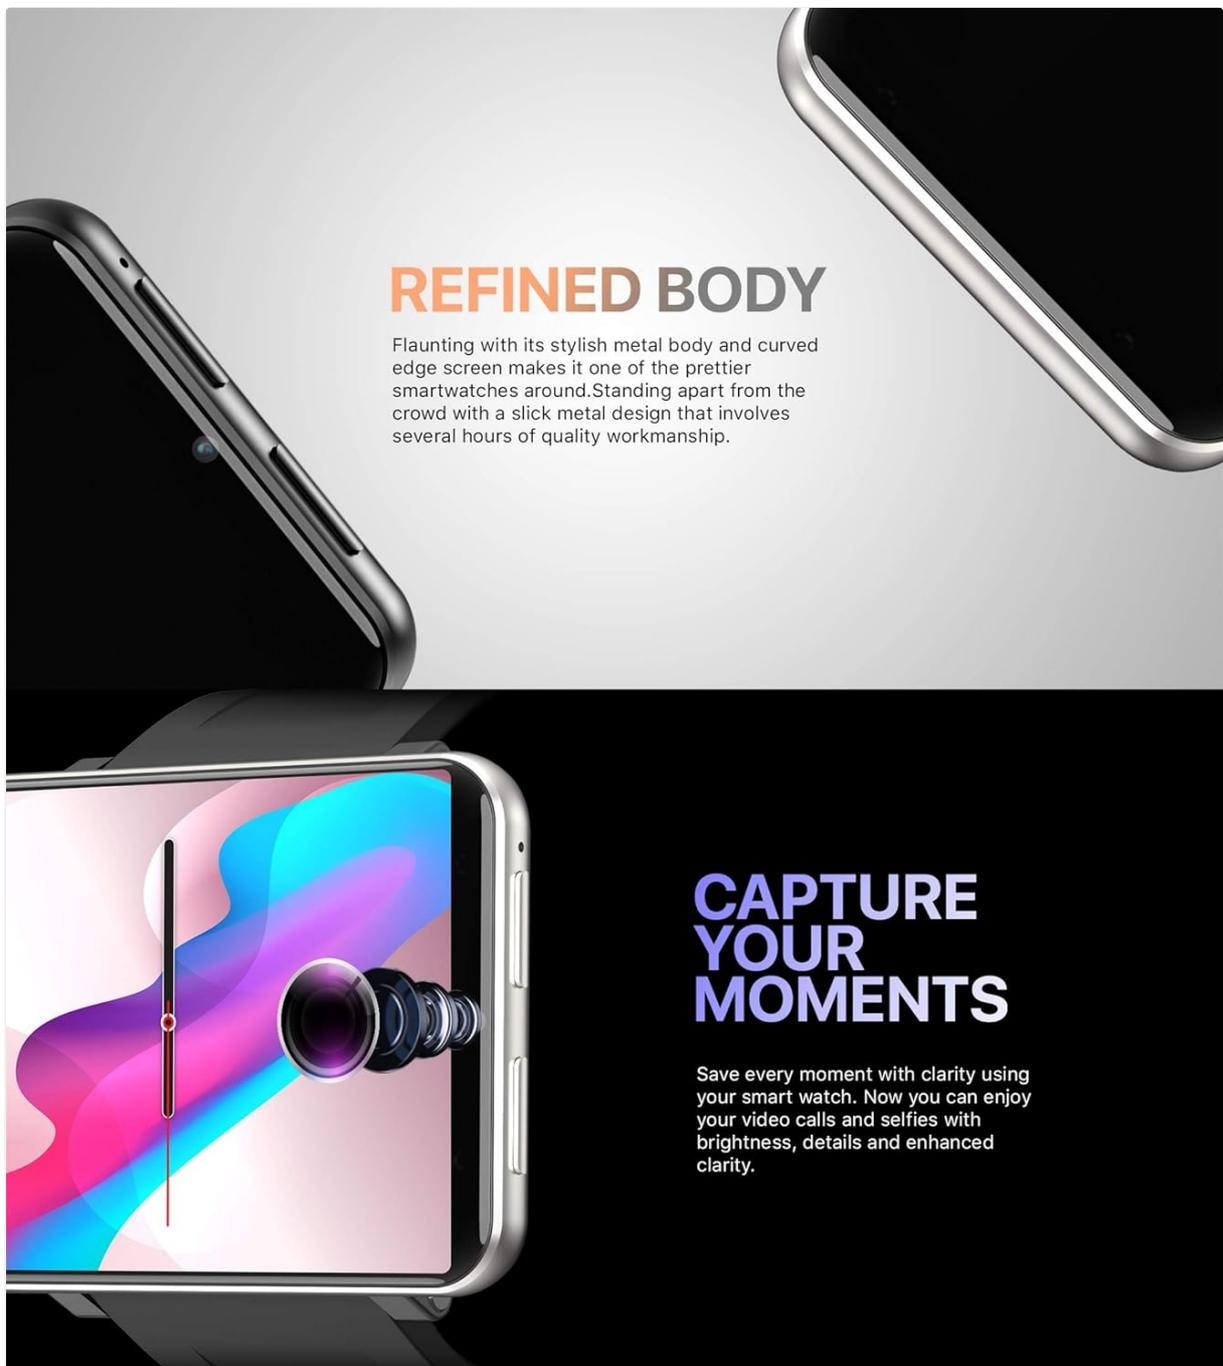

Figure 3: Side profile of the smartwatch, illustrating the integrated camera lens and the sleek, refined body construction.

### 3.3. Sensors and Connectivity

The device includes a heart rate sensor and supports 4G connectivity via a built-in SIM card slot, along with Wi-Fi and Bluetooth for versatile connection options.

**LONGER  
BATTERY  
LIFE**

Give your charger a rest. The **2700 mAh** battery eliminates the need for daily charging and helps you keep up with your busy week.

**STAY  
CONNECTED**

Enjoy the ultimate freedom of 4G connected experience without having to carry your phone. Whether you are travelling or going for your outdoor activities, your watch keeps you connected.

## 4. SETUP

### 4.1. Initial Charging

Before first use, fully charge your smartwatch using the provided charger. Connect the magnetic charger to the back of the watch and plug the USB-A end into a compatible power source.

### 4.2. SIM Card Installation

To enable 4G network features, install a Nano SIM card into the designated slot on the side of the watch. Use the provided mini screwdriver to carefully open the SIM card cover. Insert the Nano SIM card, ensuring correct orientation, and then securely close the cover.

**Caution:** The screws for the SIM card cover are very small and can be easily lost. Perform installation on a flat, light-colored surface to prevent loss.

### 4.3. App Download and Pairing

Scan the QR code provided in the quick start guide with your smartphone camera to download the companion application. Follow the on-screen instructions within the app to pair your smartwatch with your smartphone. Ensure all necessary permissions (e.g., notifications, location, battery usage) are granted for full functionality.

## 5. OPERATING INSTRUCTIONS

---

### 5.1. Basic Navigation

Navigate the smartwatch interface by swiping left, right, up, and down on the touchscreen. Press the physical buttons on the side for power on/off, back functions, or to access specific features.

### 5.2. Watch Faces

Customize your watch face by long-pressing the current watch face on the home screen. Swipe left or right to browse available options and tap to select your preferred design.

### 5.3. Calls and Messaging

With a SIM card installed, you can make and receive calls directly from the watch. Access the dial pad or contacts through the app menu. Receive and view SMS messages and app notifications (e.g., Facebook, WhatsApp) when paired with your smartphone and permissions are granted.

### 5.4. Applications and Features

The Android 7.1 operating system allows access to various applications. These include:

- **Browser:** For internet access.
- **Google Play Store:** To download additional applications.
- **Voice Assistant:** For voice commands and input.
- **GPS:** For navigation and location tracking.
- **Music Player:** To control music playback.
- **Flashlight:** A built-in LED flashlight for illumination.

## EASY TYPING

Now You can type and edit by speaking in Google Docs or in Google Slides speaker notes with you smart watch.

## PLOT YOUR COURSE

Always stay on the right way.The watch comes with GPS so you know where you are and where you're going.

# TRACK YOUR PROGRESS

Your own personal trainer. Your Watch lets you focus on more exercise with less planning. With many new indoor exercises, tracking your calories, number of steps, you can easily customize and change up your routine.

## SHOWCASE YOUR STYLE

Customize your watch with wide choice of watch face. Choose one to fit your fashion or mood before you start your day.

Figure 8: A user wearing the smartwatch, which displays a web browser on its screen, illustrating easy browsing functionality.

## 6. HEALTH MONITORING

The smartwatch is equipped with various sensors to help you monitor your health and fitness:

- **Heart Rate Monitor:** Check your heart rate during workouts and throughout the day.
- **Activity Tracking:** Track steps, calories burned, and distance covered.
- **Sleep Monitoring:** Analyze your sleep patterns.
- **Sports Modes:** Utilize various built-in sports apps to track specific activities.

## 7. CUSTOMIZATION

Personalize your smartwatch experience:

- **Watch Faces:** Choose from a wide selection of watch faces to match your style.
- **App Reminders:** Configure which app notifications you wish to receive on your watch.

- **Quick Replies:** Set up predefined quick replies for incoming messages.

## 8. CONNECTIVITY

The DM100 offers robust connectivity options:

- **4G Network:** Stay connected with hands-free calls and online apps via the SIM card.
- **Wi-Fi:** Connect to wireless networks for internet access.
- **Bluetooth:** Pair with your smartphone for notifications and data synchronization.

## 9. BATTERY LIFE

The smartwatch is powered by a 2700mAh battery, designed to provide extended usage and reduce the need for daily charging.

**PERSONALIZED APPS**

With a large selection of apps for your watch, you can tailor your watch to suit your everyday. Enjoy your playstore apps including facebook, twitter, skype, whatsapp, instagram, youtube, snapchat, messenger, linkedin. With the larger display now you can customize the watch with various logistics apps and restaurant order taking apps.

**ENGINEERED TO ENDURE**

The watch body is designed with an **IP67** rating which allows you to be more active outdoors, enduring tough conditions.

## 12. MAINTENANCE

---

To ensure the longevity and optimal performance of your smartwatch:

- **Cleaning:** Gently wipe the screen and body with a soft, dry cloth. Avoid abrasive materials or harsh chemicals.
- **Water Resistance:** While the watch is designed to endure certain conditions, avoid prolonged submersion in water or exposure to high-pressure water jets.
- **Storage:** Store the watch in a cool, dry place away from direct sunlight and extreme temperatures.

## 13. TROUBLESHOOTING

---

If you encounter issues with your smartwatch, refer to the following common solutions:

- **Watch not powering on:** Ensure the watch is fully charged. Connect it to the charger and wait a few minutes before attempting to power it on again.
- **Connectivity issues (4G/Bluetooth/Wi-Fi):** Check that your SIM card is correctly installed and activated. Ensure Bluetooth is enabled on both your watch and smartphone. For Wi-Fi, verify network credentials.
- **Notifications not appearing:** Confirm that the companion app has all necessary notification permissions granted on your smartphone and that app reminders are enabled within the watch app settings.

- **Incorrect date/time:** Ensure the watch is properly synced with the companion app on your smartphone.

For further assistance, please contact customer support.

## 14. WARRANTY AND SUPPORT

---

For information regarding warranty coverage, technical support, or service inquiries, please refer to the warranty card included with your product or visit the official Rainbuvvy website. Keep your purchase receipt as proof of purchase.
