3. Setup

1. Assemble the Magic Cauldron game board by placing the cross-piece and intermediate base into the box bottom, then the turntable, and finally the transparent film with symbols.
2. Place the Whirlwind spinner figure in the center of the turntable.
3. Each player chooses a wooden sorcerer's apprentice and a matching player marker. Place the apprentices on the starting spaces of the game board.
4. Shuffle the 20 ingredient tiles face down and place them randomly into the designated circular spaces on the game board.

4. Operating (Gameplay)

The game proceeds in turns, with players moving their sorcerer's apprentices and collecting ingredients to brew potions.

4.1 Game Objective

Be the first player to collect the specific ingredient tiles required to complete your magic potion tiles.

4.2 Player Turn

On your turn, perform the following actions:

1. **Move Your Apprentice:** Spin the Whirlwind spinner figure. Move your sorcerer's apprentice along the path on the game board the number of spaces indicated by the spinner.
2. **Collect Ingredients:** When your apprentice lands on a space with an ingredient tile, you may choose to uncover it. If the uncovered ingredient tile matches one of the ingredients required for your current magic potion, you collect it. If it does not match, you must return it face down to its space. Remember the location of tiles for future turns (memory mechanic).
3. **Brew Potions:** Once you have collected all the ingredients for a magic potion tile, you can 'brew' it. Flip the magic potion tile face up to indicate it is complete.
