Vacplus Moisture Absorbers

Vacplus Hanging Moisture Absorber Bags (9.8 OZ, 10-Pack, Fragrance-Free) Instruction Manual

Brand: Vacplus | Model: Moisture Absorbers

INTRODUCTION

The Vacplus Hanging Moisture Absorber Bags are designed to effectively reduce excess humidity in various enclosed spaces. Utilizing spherical calcium chloride, these bags absorb moisture from the air, helping to prevent mildew, mold, and musty odors. Each bag has a 500 ml capacity and is fragrance-free, providing a safe and energy-saving solution for a drier environment.

Get Rid of Dampness!

Enjoy a Nice and Dry Home!

PRODUCT FEATURES

- **Effective Absorption:** Spherical calcium chloride granules maximize surface area for quick and efficient moisture absorption.
- **Visible Effect:** Collected moisture is contained in a transparent bottom reservoir, allowing users to visually monitor

its effectiveness.

- **Easy & Safe:** Simple to use by hanging, offering physical dehumidification without electricity, making it safe, green, and energy-saving.
- **Compact Design:** Designed with a hanger for use in closets and other confined spaces.
- **Leakproof & Durable:** Constructed with a durable hook and leakproof moisture-permeable paper to prevent spills.
- **Odor-Free:** Fragrance-free to avoid adding scents to your environment.

EFFECTIVE ABSORPTION

absorbs excess moisture multiple times its weight

Image: Diagram illustrating the effective absorption capacity of the bag, showing 500ml of water being absorbed.

SETUP AND INSTALLATION

1. **Unpack:** Open the outer packaging and carefully remove the hanging moisture absorber bag.
2. **Hang:** Place the bag in the desired location where you intend to dehumidify. Ensure it hangs freely and is not obstructed.
3. **Placement:** For best results in closets, keep a distance of approximately 5 cm (2 inches) from clothing to prevent

accidental contact.

COMPACT & EASY TO USE

Just hang it up! Especially in small spaces!

Suggested Usage to Get Better Results

Shoe Cabinet 1-2 packs

Closet 2-3 packs

Kitchen 3-4 packs

Bathroom 3-4 packs

Image: Suggested number of bags for different areas: Shoe Cabinet (1-2 packs), Closet (2-3 packs), Kitchen (3-4 packs), Bathroom (3-4 packs).

OPERATING INSTRUCTIONS

The Vacplus Hanging Moisture Absorber Bags begin working immediately upon exposure to air. The calcium chloride particles in the upper section will absorb moisture, gradually solidifying and then dissolving into a liquid solution. This solution will collect in the transparent reservoir at the bottom of the bag.

VISIBLE DEHUMIDIFICATION

Image: Step-by-step visual of how the bag traps moisture, reacts, and collects water in the watershed.

Visible Dehumidification

The collected moisture increases every day!

Image: Progression of moisture collection in the bag over time, from empty to partially full to significantly full.

MAINTENANCE AND DISPOSAL

Monitor the transparent reservoir at the bottom of the bag. Once the calcium chloride particles in the upper section have completely dissolved and the reservoir is full of liquid, it is time to replace the bag.

1. **Disposal:** Carefully remove the full bag. The collected liquid is a calcium chloride solution, which is weakly acidic.
2. **Pouring:** You can pour the solution directly down a sink or toilet. Do not use it for watering plants or other purposes.
3. **Replace:** Dispose of the empty bag in regular household waste and replace it with a new Vacplus Hanging Moisture Absorber Bag.

Important Note: It is normal for some crystallization or powder to appear in the water collecting bag if the humidity is too high or the temperature is too low. These crystals will dissolve as the temperature rises.

TROUBLESHOOTING

- **No Moisture Collected:** Ensure the package is not damaged. If the humidity is very low, it may take longer to see visible moisture.
- **White Crystals in Solution:** This is normal at low temperatures. The crystals will dissolve as the temperature increases.
- **Leakage:** Discontinue use if the package is damaged. Do not rub the white paper on the back of the bag to avoid breakage or spills.

SPECIFICATIONS

Brand:	Vacplus
Model Name:	Moisture Absorbers
Scent:	Fragrance Free
Capacity:	500 Milliliters per bag
Item Weight:	9.8 Ounces per bag
Material:	Calcium Chloride, Plastic
Special Features:	100% leakproof, energy-saving, long-lasting effect, compact size
Unit Count:	10 Count
UPC:	713091941533

WARRANTY AND SUPPORT

Specific warranty information for this product is not provided in the available documentation. For support or further inquiries, please refer to the contact information provided on the product packaging or the official Vacplus website.

IMPORTANT SAFETY INFORMATION

- This product is not edible.

- Keep out of reach of children and pets.
- If the product gets into eyes or on skin, rinse immediately with plenty of running water.
- Do not hang on valuables to prevent damage from accidental dropping or leakage.
