

Aeris Aeris-AairLite-Blue

Aeris aair lite Air Purifier Instruction Manual

Model: Aeris-AairLite-Blue

INTRODUCTION

About Your Aeris aair lite Air Purifier

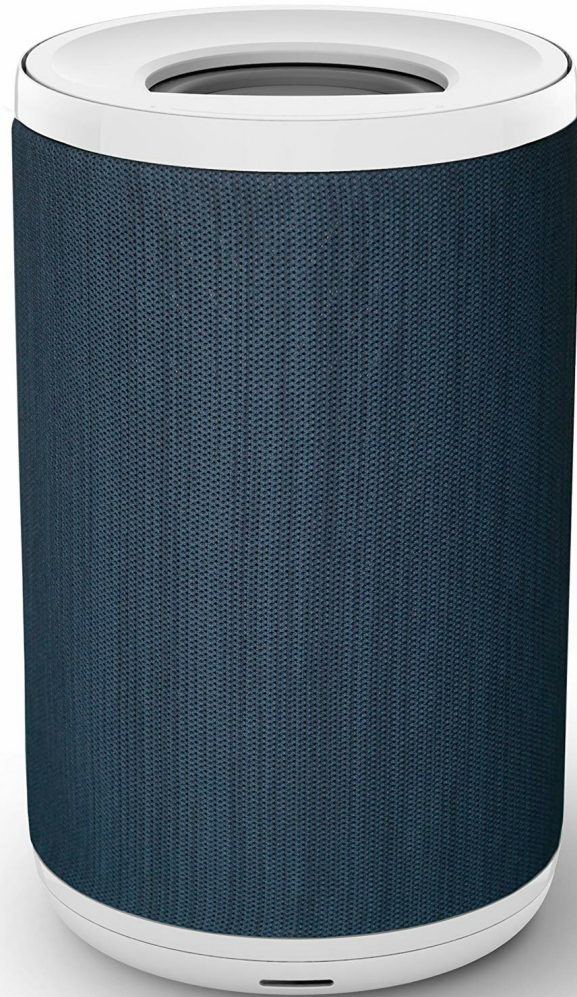

The Aeris aair lite Air Purifier is designed to provide superior air filtration for your home or office. Utilizing True HEPA H13 filtration, it effectively captures 99.95% of ultra-fine particles, ensuring cleaner and healthier indoor air. This device is ideal for spaces up to 700 sq ft, such as bedrooms, living rooms, and offices, operating with quiet efficiency and offering convenient Wi-Fi connectivity.

- **Superior Air Filtration:** Captures 99.95% of ultra-fine particles.
- **Wide Range of Particles:** Effectively removes smoke, pollen, pet dander, dust, and more.
- **True HEPA Filtration:** Features an F7 pre-filter and an H13 HEPA filter for comprehensive purification.
- **Ideal Room Sizes:** Perfect for spaces up to 700 sq ft.
- **Long-Lasting Filters:** Enjoy a 10-month filter life before replacement.

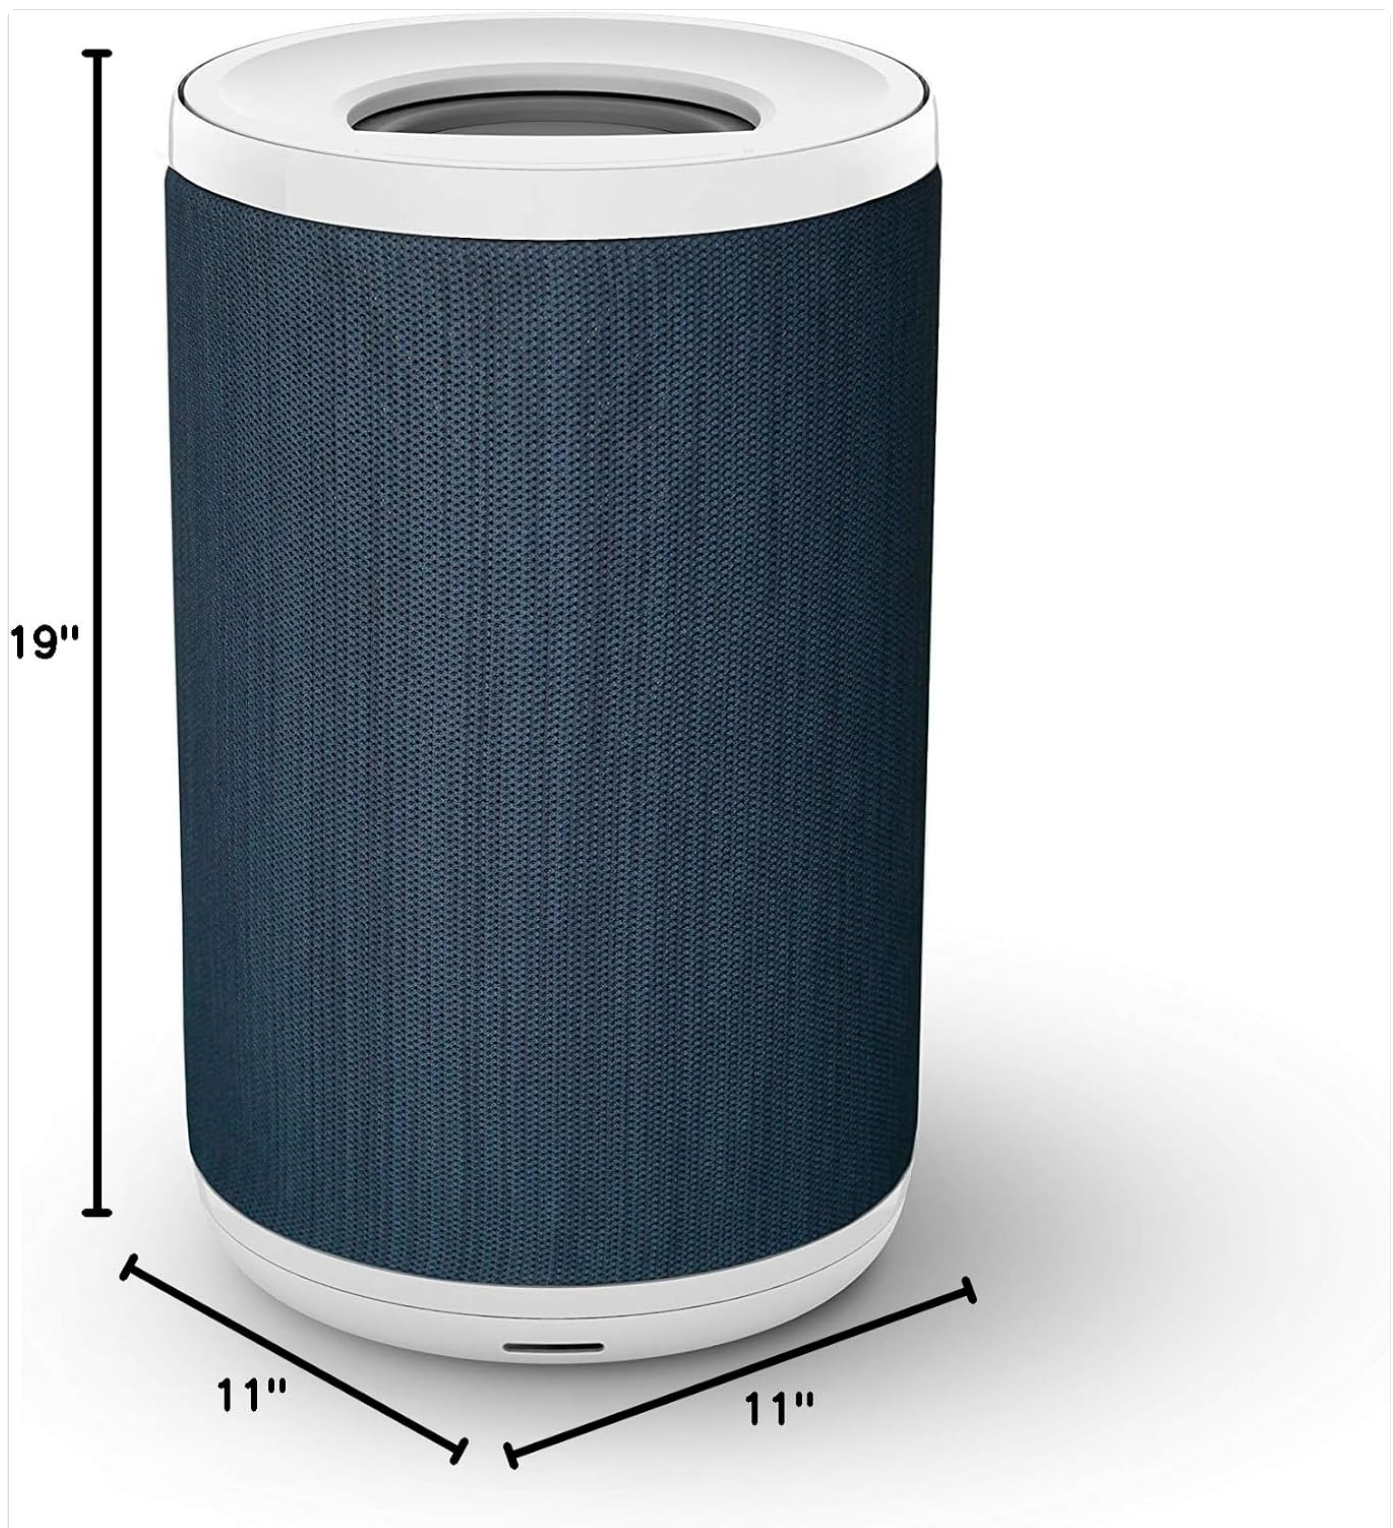

PRODUCT OVERVIEW

Components and Design

The Aeris aair lite features a sleek, cylindrical design with a durable fabric cover, blending seamlessly into various interior styles. Its intuitive top panel provides easy access to controls and displays real-time air quality information.

SETUP

Unpacking and Placement

1. Carefully remove the air purifier from its packaging.
2. Remove all protective films and packaging materials from the unit.
3. Place the air purifier on a firm, level surface. Ensure there is adequate space (at least 8 inches) around all sides for optimal airflow.

4. Avoid placing the unit near heat sources, direct sunlight, or in areas with high humidity.

Power Connection

1. Connect the power adapter to the power input port on the back of the air purifier.
2. Plug the power adapter into a standard electrical outlet. The unit is designed to work with 120V/240V power sources.
3. The unit will enter standby mode, indicated by a subtle light on the control panel.

OPERATING YOUR AIR PURIFIER

Control Panel Overview

The Aerus aaair lite features a minimalist touch control panel on its top surface, providing access to all functions. The central display shows the current air quality index (AQI) or fan speed.

A comprehensive review video of the Aerus aaair lite, detailing its various features, control panel operation, and how to interact with its smart functionalities. This video is useful for understanding daily usage and settings.

Modes of Operation

- **Power On/Off:** Press the power icon to turn the unit on or off.
- **Fan Speed Adjustment:** Swipe your finger along the curved line on the control panel to increase or decrease the fan speed. The display will show the current speed level (1-5).
- **Night Mode:** Activate night mode for silent operation and dimmed display lights, ensuring an undisturbed sleep environment.
- **Smart Mode (AI):** Engage the smart mode, and the purifier will automatically adjust its fan speed based on real-time air quality readings detected by its internal sensors. Over time, the AI learns your environment for optimized performance.

Wi-Fi Connectivity and App Control

The Aerus aaair lite can be controlled via a mobile application. Download the Aerus app from your smartphone's app store. Follow the in-app instructions to connect your device to your home Wi-Fi network. The app allows for remote control, scheduling, and monitoring of air quality history.

MAINTENANCE

Filter Replacement

The Aerus aaair lite uses a multi-stage filtration system, including an F7 pre-filter and an H13 HEPA filter. Filters typically last for 10 months, but this can vary based on usage and air quality.

A visual representation of the AERIS Aair Lite's filtration capabilities, highlighting the removal of micro particles, dust, pollen, smoke particles, and pet dander. It also shows the multi-layer filter structure, including the HEPA H13 filter.

- 1. Power off and unplug the unit before attempting any maintenance.
- 2. Refer to the specific instructions in your product packaging for detailed steps on accessing and replacing the filters.
- 3. Dispose of used filters responsibly.

Cleaning the Unit

- 1. Wipe the exterior of the unit with a soft, dry cloth.
- 2. Do not use abrasive cleaners or solvents.
- 3. The fabric pre-filter cover can be removed and gently hand-washed or machine-washed on a delicate cycle. Ensure it is completely dry before reattaching.

TROUBLESHOOTING

Common Issues and Solutions

Issue	Possible Cause	Solution
Unit does not power on	Not plugged in; Power outage; Faulty outlet	Ensure power cord is securely plugged in; Check power supply; Try a different outlet.
Poor airflow or purification	Clogged filters; Obstruction around air intake/outlet	Check and replace filters if necessary; Ensure no objects are blocking airflow.
Unusual noise	Loose part; Obstruction in fan; Unit not on a level surface	Inspect for loose parts or obstructions; Place on a stable, level surface.

Issue	Possible Cause	Solution
Wi-Fi connection issues	Incorrect password; Router issues; Out of range	Verify Wi-Fi password; Restart router; Move unit closer to router.

SPECIFICATIONS

Feature	Detail
Brand	Aeris
Model Number	Aeris-AairLite-Blue
Color	Sailor blue
Product Dimensions (D x W x H)	11"D x 11"W x 19"H
Item Weight	18 Pounds
Power Source	AC/DC
Filter Type	Pre-Filter, H13 HEPA
Floor Area Coverage	Up to 700 Square Feet
Noise Level	35-55 Decibels
Particle Retention Size	0.1 microns
Control Method	App, Touch Panel
Certification	AHAM Certified
