- **Internal Organization:** Includes a tri-fold suiter for garments, a WetPak pocket for toiletries or damp items, and various built-in compartments.
- **Contoured Grip Handle:** Designed for comfort and ease of use.

SETUP

Setting the TSA Combination Lock:

1. Locate the integrated TSA-approved lock on the side of the luggage.
2. The default combination is typically 0-0-0.
3. To set your personal combination, push the reset button (a small, recessed button) with a pen or pointed object until you hear a click.
4. Rotate the dials to your desired 3-digit combination.
5. Push the tab/shackle release button firmly to set the new combination. You should hear another click.
6. Test your new combination to ensure it is set correctly before scrambling the dials.

USB Port and Wireless Charging Pocket:

To utilize the USB charging feature and wireless charging pocket, you will need to provide your own portable power bank (battery not included). Connect your power bank to the internal USB cable located within the designated pocket. Your devices can then be charged via the external USB port or by placing compatible devices in the wireless charging pocket.

OPERATING INSTRUCTIONS

Using the Spinner Wheels:

The luggage is equipped with four multi-directional spinner wheels. To move the luggage, simply push it forward, backward, or sideways. The wheels are designed to glide smoothly, allowing for effortless navigation through airports and other environments.

Expanding the Luggage:

For additional packing capacity, locate the expansion zipper running along the perimeter of the main compartment. Unzip this zipper to extend the depth of the luggage, providing extra space for your belongings.

Utilizing Internal Organization:

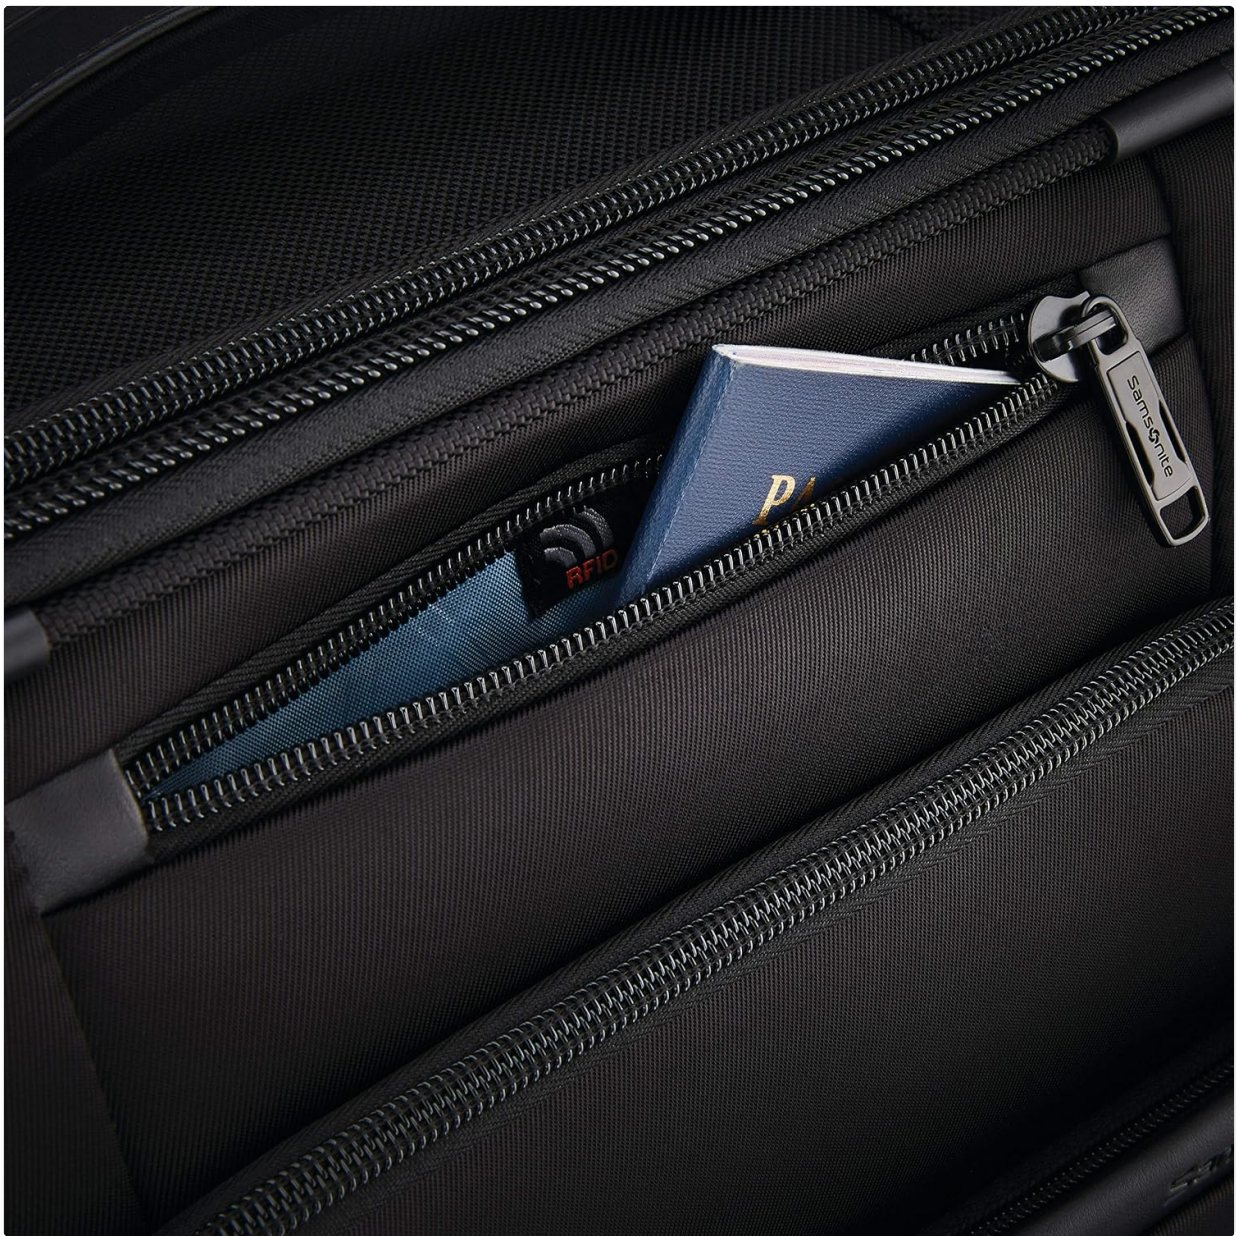

- **Main Compartment:** Secure items using the internal compression straps.
- **Tri-Fold Suiter:** Unfold the suiter to pack suits or dresses, minimizing wrinkles.
- **WetPak Pocket:** Use this moisture-resistant pocket for storing damp clothing or toiletries.
- **RFID Pocket:** Store passports, credit cards, and other sensitive items in this shielded pocket to protect against unauthorized scanning.

MAINTENANCE

Cleaning the Exterior:

For general cleaning of the Ballistic Nylon exterior, wipe with a damp cloth and mild soap. Avoid harsh chemicals or abrasive cleaners, as these may damage the fabric. For stubborn stains, a specialized fabric cleaner designed for luggage may be used, following the product's instructions.

Wheel Care:

Periodically check the spinner wheels for any debris or hair that may impede their smooth operation. Clean the wheel axles with a small brush or cloth. Lubrication is generally not required for these sealed bearing wheels.

Zipper Maintenance:

Ensure zippers are kept clean and free of obstructions. If a zipper becomes stiff, a small amount of zipper lubricant or wax can be applied to the teeth to improve functionality.

TROUBLESHOOTING

Stuck Telescoping Handle:

If the telescoping handle becomes difficult to extend or retract, ensure that no items inside the luggage are obstructing the handle mechanism. Gently wiggle the handle while pressing the release button. Avoid forcing the handle, as this may cause damage.

Combination Lock Issues:

If you forget your combination, unfortunately, there is no master reset code. You may need to try combinations or contact Samsonite customer support for assistance. If the lock mechanism appears jammed, ensure the dials are aligned correctly with your set combination before attempting to open.
