LeeKooLuu Q01

LeeKooLuu Q01 Automatic Pet Feeder User Manual

Model: Q01 | Brand: LeeKooLuu

1. INTRODUCTION

Thank you for choosing the LeeKooLuu Q01 Automatic Pet Feeder. This smart pet feeder is designed to provide convenient and reliable feeding for your small dogs and cats, ensuring they are well-fed even when you are away. With its advanced features, you can monitor and interact with your pets remotely.

Figure 1: The LeeKooLuu Q01 Automatic Pet Feeder, showcasing its main features including HD 1080P camera, APP control, healthy management, and voice interaction.

2. PACKAGE CONTENTS

Ensure all items are present in the package:

- 1 x Pet Automatic Feeder
- 1 x Power Adapter
- 1 x USB Cable
- 1 x Desiccant
- 1 x User Manual

Figure 2: Exploded view of the pet feeder components, including the main unit, food bowl, and power accessories.

3. SETUP GUIDE

3.1. Physical Assembly

1. **Unpack Components:** Carefully remove all components from the packaging.
2. **Assemble Food Bowl:** Attach the food bowl to the main feeder unit. Ensure it clicks securely into place.
3. **Add Desiccant:** Place the desiccant packet into the designated box under the top cover to help keep food fresh. Replace regularly for long-term use.

4. **Fill Food Hopper:** Open the top cover of the feeder and fill the grain barrel with dry pet food (pellet size 2-10mm). The food capacity is 6L (approximately 6.5 lbs).
5. **Power Connection:** Insert the power cord into the power interface behind the main body. Connect the adapter to a power outlet. The feeder can also be powered by 3 x D batteries (not included) for backup in case of power outage.

Figure 3: Dual power options for the feeder, including AC adapter and battery compartment for backup power.

3.2. APP Connection (Smart Life APP)

1. **Download APP:** Download and install the 'Smart Life' APP from the App Store (iOS) or Google Play Store (Android).
2. **Register/Login:** Register a new account or log in if you already have one.
3. **Connect to Wi-Fi:** Ensure your home Wi-Fi network is 2.4GHz frequency. *(5GHz Wi-Fi is currently not supported).* Place the feeder within 26 feet of your router for optimal connection.
4. **Add Device:**
 - Plug in the feeder. The blue indicator light on the feeder will start flashing, indicating it's ready for pairing.

- In the Smart Life APP, tap the '+' icon to add a new device.
- Select 'Pet Feeder' from the device list.
- Follow the on-screen instructions to connect the feeder to your Wi-Fi network. This typically involves scanning a QR code displayed on your phone with the feeder's camera.

Feeding Schedule

Customize the daily feeding time and feeding amount
Add Manual feeding whenever you want

Note: Only compatible with the 2.4GHz WiFi
(does not support 5GHz Wi-Fi)

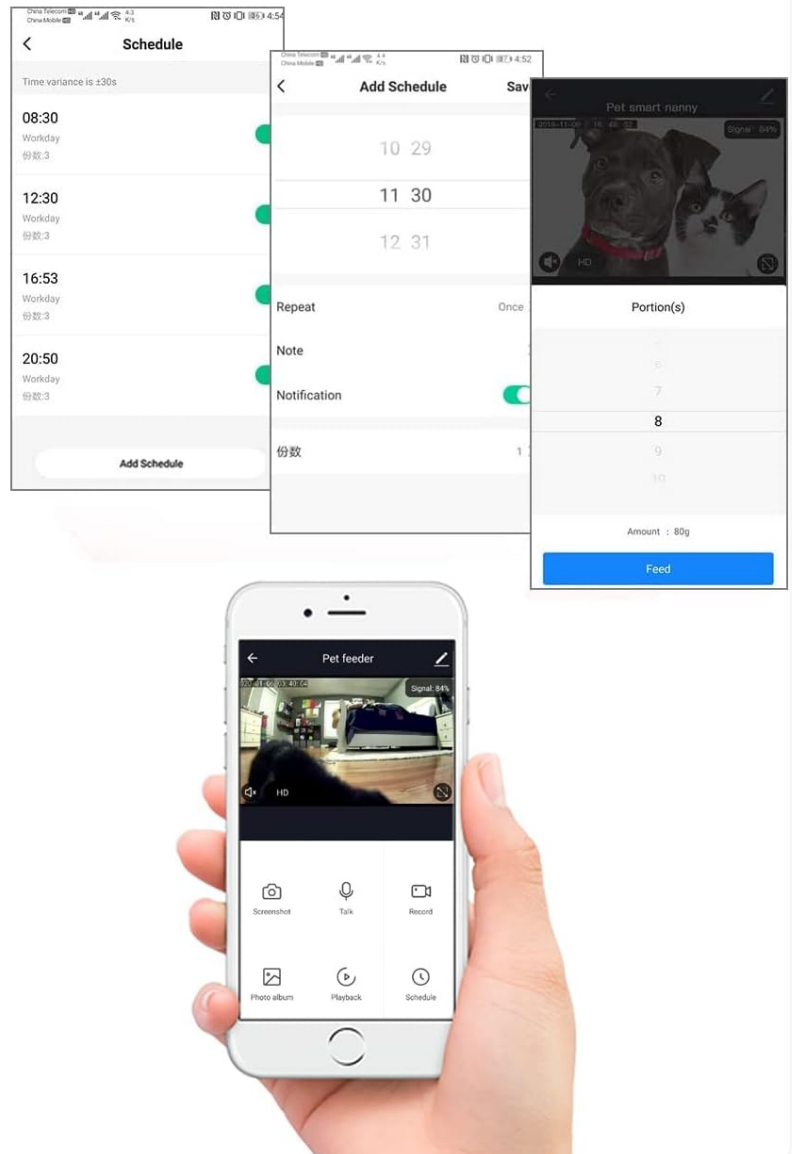

Figure 4: The Smart Life APP interface for customizing feeding schedules and portions.

4. OPERATING INSTRUCTIONS

4.1. Manual Feeding

To dispense food manually, short press the 'Feed' button on the feeder unit. Each press dispenses one portion (approx. 10g).

4.2. Scheduled Feeding via APP

Use the Smart Life APP to set up automatic feeding schedules. You can customize the number of meals per day and the portion size (1 to 10 portions per meal) for each feeding time. This ensures your pet receives consistent meals.

4.3. HD Camera and Two-Way Audio

The integrated 1080P HD camera allows you to monitor your pet remotely. It features infrared night vision for clear viewing in low-light conditions. The two-way audio function enables you to speak to your pet and hear their responses in real-time.

- **Live Stream:** Access the live video feed through the APP to see your pet.
- **Voice Recording:** Press and hold the 'REC' button on the feeder to record a 10-second voice message that will play during scheduled feedings to alert your pet.
- **Photo/Video Capture:** Record videos or take photos directly from the APP, which will be stored on your smartphone.
- **SD Card Storage:** The feeder supports 32G-64G TF card (not included) for automatic video recording.

**HD 1080P Infrared
Night Version**

Figure 5: The feeder's 1080P HD camera with infrared night vision, providing clear monitoring even in the dark.

5. MAINTENANCE

- **Cleaning:** Regularly clean the food bowl and grain barrel to prevent food buildup and ensure hygiene. The treat tray is removable and washable.
- **Desiccant Replacement:** Change the desiccant packet regularly (every 2-3 weeks) to maintain food freshness, especially in humid environments.
- **Food Refill:** Monitor food levels and refill the hopper as needed to ensure continuous feeding.

6. TROUBLESHOOTING

Problem	Possible Cause	Solution
Feeder not dispensing food.	Food hopper empty; food jammed; power issue.	Refill hopper; check for food jams and clear them; ensure power adapter is securely connected or batteries are installed.
Cannot connect to Wi-Fi.	Incorrect Wi-Fi frequency (5GHz); weak signal; incorrect password.	Ensure Wi-Fi is 2.4GHz; move feeder closer to router (within 26ft); re-enter Wi-Fi password correctly.
Camera not working or blurry.	Poor network connection; camera lens dirty.	Check Wi-Fi connection strength; clean camera lens gently with a soft cloth.
Voice recording not playing.	Recording not saved; volume too low.	Ensure recording process is completed; check APP volume settings.

7. SPECIFICATIONS

- **Model:** Q01
