

Zinus EU-SBBK-14G

Zinus SmartBase Folding Metal Bed Frame Instruction Manual

Model: EU-SBBK-14G | Brand: Zinus

1. PRODUCT OVERVIEW

The Zinus SmartBase bed frame is a new generation bed support system designed to eliminate the need for a traditional box spring. It is compatible with all mattress types, including memory foam and latex, providing optimal support and maximum durability. The steel support structure features multiple contact points with the floor to ensure strong stability and prevent mattress sagging.

This bed frame stands 35.5 cm high, offering 33 cm of clear space underneath for convenient under-bed storage. Its innovative foldable design allows for easy storage when not in use. Plastic caps are included to protect your floors.

2. SETUP AND ASSEMBLY

The Zinus SmartBase bed frame is designed for quick and tool-free assembly. It is shipped in a compact package for easy transport.

- 1. **Unpack the Frame:** Carefully remove the bed frame from its packaging.
- 2. **Unfold the Sections:** The frame consists of two main sections. Unfold each section until the legs lock into place.
- 3. **Connect the Sections:** Align the two unfolded sections and secure them together using the provided fasteners.
- 4. **Place Your Mattress:** Once the frame is fully assembled and stable, you can directly place your mattress on top. No box spring is required.

3. KEY FEATURES AND BENEFITS

- **Tool-Free Assembly:** Designed for quick and easy setup without the need for any tools.
- **Under-Bed Storage:** Provides 33 cm of valuable space beneath the frame for storing various items, helping to maximize room utility.
- **Robust Support:** The steel frame offers strong stability and prevents mattress sagging, ensuring a comfortable sleep experience.
- **Noise-Free Design:** Engineered to be silent, preventing creaks and noises for an undisturbed rest.
- **Compact Storage:** The foldable design allows the frame to be easily stored when not in use, ideal for guest rooms or temporary setups.
- **Floor Protection:** Equipped with plastic caps on the legs to prevent scratches and damage to your floors.

4. OPERATING INSTRUCTIONS

Once assembled, the Zinus SmartBase bed frame functions as a stable and supportive platform for your mattress. Simply place your mattress directly on the metal grid surface. No additional box spring or foundation is needed.

For optimal performance, ensure the frame is placed on a flat, level surface. The plastic caps on the legs are designed to protect your flooring and should remain in place.

5. MAINTENANCE

To maintain your Zinus SmartBase bed frame, follow these simple care instructions:

- **Cleaning:** Wipe the metal frame with a damp cloth to remove dust and dirt. Avoid using harsh chemicals or abrasive cleaners, as these may damage the finish.
- **Inspection:** Periodically check all connections and fasteners to ensure they remain tight. Retighten if necessary to

- maintain stability.
- **Floor Protection:** Ensure the plastic caps on the legs are intact and in place to continue protecting your floors.

6. TROUBLESHOOTING

- **Squeaking Noises:** If the frame develops squeaking noises, check all bolts and connections. Ensure they are securely tightened. The design is intended to be silent, so loose connections are the most common cause of noise.
- **Instability/Wobbling:** Verify that the frame is placed on a flat, even surface. Re-check all assembly points to ensure legs are fully extended and locked, and all fasteners are tight.
- **Mattress Sagging:** Ensure your mattress is placed directly on the SmartBase. If sagging persists, check the mattress itself, as the SmartBase is designed to provide robust support.

7. SPECIFICATIONS

Feature	Detail
Size	160 x 200 cm
Material	Metal
Product Dimensions (L x W x H)	200 x 160 x 35.5 cm
Style	Modern
