Wahoo ELEMNT Bolt V1 GPS Cycling/Bike Computer Instruction Manual

Model: WFCC3BLK | Brand: Wahoo Fitness

INTRODUCTION

The Wahoo ELEMNT BOLT is the first, fully aerodynamic GPS bike computer. Its patented design creates an integrated system of computer and mount which results in a CFD (Computational Fluid Design) tested, highly aerodynamic system built to be on the front of your bicycle. Equipped with Bluetooth Smart and ANT+ dual-band technology, ELEMNT BOLT pairs seamlessly with all of your cycling sensors. It works with our free ELEMNT companion app which allows you to set up your data fields, customize profiles, track performance, and share ride data effortlessly - no more confusing menus! Plus, programmable LED QuickLook Indicators provide a quick way to see if you're on pace with important performance metrics like speed, heart rate, and power. Designed for performance and engineered for simplicity - the ELEMNT BOLT GPS bike computer helps make every second count.

SETUP GUIDE

Initial Setup

The Wahoo ELEMNT BOLT is designed for easy setup via the free ELEMNT companion app.

1. **Download the ELEMNT Companion App:** Search for "ELEMNT Companion App" on your smartphone's app store.

2. **Power On:** Press the power button on your ELEMNT BOLT.

3. **Pairing:** Open the ELEMNT Companion App. The app will guide you through the pairing process, often involving scanning a QR code displayed on the BOLT's screen.
