Life Extension Pro-Resolving Mediators Supplement Manual

MODEL: 02223

Brand: Life Extension

1. Overview

Life Extension Pro-Resolving Mediators is a dietary supplement formulated to support the body's natural post-inflammatory response. It provides specialized pro-resolving mediators (PRMs) and their precursors, including 18-HEPE, 17-HDHA, and 14-HDHA, derived from marine lipid concentrate. These compounds are essential for healthy tissue rejuvenation, efficient clearance of cellular debris, and maintaining a balanced cytokine response.

Key Benefits:

- **Tissue Rejuvenation:** Supports the body's natural processes for revitalizing skin, organs, and other vital tissues.
- **Cellular Debris Clearance:** Encourages existing pathways for naturally removing cellular debris and recycling cells that no longer function optimally.
- **Cytokine Balance:** Helps maintain a natural, healthy balance between cytokine compounds, which are released by immune cells to govern various bodily processes.
