Clarifion GL-139

Clarifion Air Ionizer Instruction Manual

Model: GL-139

Brand: Clarifion

INTRODUCTION

The Clarifion Air Ionizer is a compact, filterless, plug-in device designed to improve indoor air quality by releasing negative ions. It is suitable for various rooms in your home or office, helping to reduce airborne particles such as dust, dander, pollen, and odors. This manual provides essential information for the safe and effective use of your Clarifion Air Ionizer.

SAFETY INFORMATION

- Read all instructions before using the appliance.
- Do not disassemble or attempt to repair the unit yourself. Refer to qualified service personnel.
- Keep out of reach of children and pets.
- Do not use in wet or damp environments.
- Ensure the power outlet meets the specified voltage (AC 120V ~ 60Hz).
- Unplug the device before cleaning or if it will not be used for an extended period.
- Avoid placing the unit near water sources or in direct sunlight.
- As per the legal disclaimer, statements regarding dietary supplements have not been evaluated by the FDA and are not intended to diagnose, treat, cure, or prevent any disease or health condition. This product is an air ionizer.

PACKAGE CONTENTS

Your Clarifion Air Ionizer package typically includes:

- 3 x Clarifion Air Ionizer Units (Model GL-139)
- Instruction Manual (this document)

SETUP

The Clarifion Air Ionizer is designed for simple, plug-and-play operation.

1. **Unpack the Unit:** Carefully remove the Clarifion Air Ionizer from its packaging.
2. **Choose a Location:** Select a standard electrical outlet in the room where you wish to improve air quality. For optimal performance, it is recommended to place the unit in a well-ventilated area, away from obstructions. The product is suitable for kitchens, living rooms, bedrooms, bathrooms, offices, and other indoor spaces.
3. **Plug In:** Insert the Clarifion Air Ionizer directly into a standard 2-prong electrical outlet. Ensure it is securely plugged in.

OPERATING INSTRUCTIONS

Once plugged in, the Clarifion Air Ionizer begins operating automatically.

- **Power Indicator:** A blue LED light on the top of the unit will illuminate when the device is powered on and actively generating negative ions. This light also functions as a subtle night light.
- **Continuous Operation:** The unit is designed for continuous 24/7 operation. There are no buttons or settings to adjust.
- **Silent Operation:** The unit operates silently with a noise level of approximately 1 dB, ensuring it does not disturb your environment.

MAINTENANCE

The Clarifion Air Ionizer is a filterless device, which means it does not require filter replacements or complex cleaning procedures.

- **Exterior Cleaning:** Occasionally, you may wipe the exterior of the unit with a dry, soft cloth to remove any dust accumulation. Ensure the unit is unplugged before cleaning.

- **Ionization Residue:** Negative ions cause airborne particles to become heavier and settle. This may result in a slight accumulation of dark dust around the unit or on nearby surfaces. This is normal and indicates the unit is working. Simply wipe away any settled dust with a damp cloth.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Unit is not turning on (no blue LED light).	Not properly plugged in; Power outage; Faulty outlet.	Ensure the unit is firmly plugged into a working electrical outlet. Test the outlet with another device.
Noticeable dust accumulation around the unit.	Normal operation; Negative ions are causing particles to settle.	This is an indication that the unit is working effectively. Simply wipe away the settled dust with a damp cloth.
No noticeable improvement in air quality.	Room size too large for a single unit; Excessive pollutants; Unit not placed optimally.	Ensure you are using enough units for the room size (recommended one per bedroom, bathroom, dining room, living room, and kitchen). Try relocating the unit to a more central or well-ventilated area.

SPECIFICATIONS

- **Model Number:** GL-139
- **Product Dimensions:** 1.82"D x 2.56"W x 4.13"H (4.62 x 6.50 x 10.49 cm)
- **Weight:** 2.56 ounces (72.57 grams)
- **Rated Voltage:** AC 120V ~ 60Hz
- **Power Used:** <1W
- **Noise Level:** 1 dB
- **Mode of Operation:** Negative Ion Generation
- **LED Brightness:** 10-20 lx
- **Color:** White
- **Certification:** CARB Certified

WARRANTY AND SUPPORT

For warranty information, product support, or any inquiries, please refer to the official Clarifion website or contact their customer service directly. Protection plans are available for purchase separately through authorized retailers.
