2. SETUP

Follow these steps to prepare the puzzles for assembly:

1. **Unpack the Box:** Carefully open the product packaging and remove all puzzle bags.
2. **Separate Puzzles:** The set contains four distinct puzzles. Each puzzle's pieces are typically packaged separately or can be identified by unique backing patterns or slight color variations on the reverse side. Sort the pieces into four groups, one for each puzzle.
3. **Prepare a Flat Surface:** Choose a clean, flat, and stable surface large enough to accommodate the assembled puzzle (approximately 28.5 x 20.5 cm or 11.2 x 8 inches per puzzle).

3. OPERATING INSTRUCTIONS

Assembling a jigsaw puzzle involves identifying and connecting individual pieces to form a complete image. The puzzles in this set vary in piece count, offering different levels of difficulty.

Puzzle Assembly Tips:

- **Sort by Edges:** Begin by finding all the straight-edged pieces. These pieces form the border of the puzzle.
- **Build the Frame:** Assemble the border pieces first to create a frame for the puzzle. This defines the working area.
- **Sort by Color/Pattern:** Group the remaining pieces by color, pattern, or specific details visible in the puzzle image. This helps in locating pieces for different sections of the picture.
- **Work in Sections:** Focus on completing smaller sections of the image, then connect these sections to the border and to each other.
- **Trial and Error:** If a piece doesn't fit, try another. Puzzle pieces are designed to interlock uniquely.

4. MAINTENANCE

Proper care and storage will ensure the longevity of your puzzles.

- **Cleaning:** If pieces become dusty, gently wipe them with a dry, soft cloth. Avoid using water or cleaning solutions, as these may damage the cardboard.
- **Storage:** Store the puzzle pieces in their original bags or separate containers to prevent mixing. Keep the puzzles in a cool, dry place away from direct sunlight and moisture to prevent warping or fading.
- **Handling:** Handle pieces carefully to avoid bending or tearing.

5. TROUBLESHOOTING

Common issues and their solutions:

- **Missing Piece:** Double-check the entire work area and inside the box. If a piece is genuinely missing, contact the manufacturer's support.
- **Pieces Don't Fit:** Ensure you are working with pieces from the correct puzzle. Each puzzle has a unique image and piece count. Pieces are designed to fit only in their correct position.
- **Puzzle Warping:** Ensure the puzzle is assembled on a flat, dry surface. Store puzzles flat or in their original box to prevent warping.
