

## ProMaster 4511

# ProMaster Dually Charger USB for Sony NP-FW50 (Model 4511) Instruction Manual

Brand: ProMaster | Model: 4511

## INTRODUCTION

This manual provides instructions for the safe and efficient operation of your ProMaster Dually Charger for Sony NP-FW50 batteries. Please read this manual thoroughly before use and retain it for future reference.

## SAFETY INFORMATION

- Do not open or disassemble the charger.
- Do not use near liquids or flammable gases.
- Keep out of reach of children.
- Use only with compatible Sony NP-FW50 batteries.
- Avoid extreme temperatures and direct sunlight.
- Disconnect from power when not in use.

## PACKAGE CONTENTS

- ProMaster Dually Charger (Model 4511)
- Built-in USB-A input cable

## PRODUCT OVERVIEW

The ProMaster Dually Charger is designed to charge two Sony NP-FW50 batteries simultaneously. It features a compact design with a built-in USB-A cable for convenient power input.

Figure 1: Front view of the ProMaster Dually Charger. This image displays the charger's dual battery slots and the LCD screen for charge status.

### Key Features:

- **Dual Charging Slots:** Charge two Sony NP-FW50 batteries concurrently.
- **USB Charging:** Flexible power input via USB-A.
- **Intelligent Charging Technology:** Optimizes charging for battery longevity.
- **Compact and Portable Design:** Easy to transport with a built-in USB cable.
- **LCD Display:** Provides real-time battery level and charging progress.

## SETUP

1. **Connect Power:** Locate the built-in USB-A cable on the back of the charger. Extend the cable and connect it to a compatible USB power source (e.g., USB wall adapter, power bank, computer USB port). The input requirement is DC 5V 2.2A (Minimum).

Figure 2: Back view of the charger with the integrated USB-A cable. This image shows how the USB cable is stored and connected.

2. **Insert Batteries:** Insert one or two Sony NP-FW50 batteries into the designated charging slots (CH1 and CH2) on the charger. Ensure the batteries are inserted with the correct orientation.

## OPERATING INSTRUCTIONS

---

1. **Charging Process:** Once batteries are inserted and power is connected, the charger will automatically begin charging. The LCD display will show the charging status for each channel (CH1 and CH2).
2. **Monitoring Charging Status:** The LCD display indicates battery charge levels with icons and percentage indicators (25%, 50%, 75%, 100%). A blinking indicator signifies active charging, while a solid light indicates a fully charged battery.
3. **Charging Time:** Approximately 2 hours 30 minutes for two depleted batteries to reach 100% charge simultaneously.
4. **Removing Batteries:** Once charging is complete (100% solid light on the LCD), carefully remove the batteries from the charging slots.
5. **Disconnecting Power:** Disconnect the USB-A cable from the power source when charging is complete or when the charger is not in use.

## MAINTENANCE

---

- Clean the charger with a soft, dry cloth. Do not use harsh chemicals or abrasive materials.
- Store the charger in a cool, dry place away from direct sunlight and moisture.
- Ensure the USB cable is neatly stored in its designated slot when not in use to prevent damage.

## TROUBLESHOOTING

---

Problem	Possible Cause	Solution
Charger not powering on.	No power from USB source or faulty cable.	Ensure USB power source is active. Try a different USB port or adapter. Check cable connection.
Batteries not charging.	Batteries incorrectly inserted or incompatible.	Re-insert batteries correctly. Verify batteries are Sony NP-FW50 type.
Slow charging.	USB power source output is too low.	Use a USB power adapter that provides at least DC 5V 2.2A.

## SPECIFICATIONS

---

- **Model:** 4511
- **Input:** DC 5V 2.2A (Min) via USB-A port
- **Output:** DC 8.4V, 600mA (per channel)
- **Compatible Batteries:** Sony NP-FW50
- **Charging Time:** Approximately 2 hours 30 minutes (for two batteries simultaneously)
- **Dimensions:** 3 3/16" x 2 1/4" x 1" / 80 mm x 58 mm x 25 mm
- **Weight:** 2 3/8 oz / 67 g

## WARRANTY AND SUPPORT

---

For warranty information or technical support, please refer to the ProMaster official website or contact your authorized ProMaster dealer.

Comprehensive guide to MAVAL power steering pumps and rack and pinion assemblies, detailing part numbers and compatible vehicle applications from 1971 to 2014.

## MAVAL Buyers Guide August 2025: Automotive Steering and Power Steering Components

MAVAL's comprehensive August 2025 Buyers Guide lists automotive rack and pinion assemblies and power steering pumps with detailed application information for a wide range of vehicle makes and models.

The Exide Batteries logo is prominently displayed in the upper center, featuring a stylized 'E' made of three parallel diagonal bars in red, yellow, and blue, followed by the word 'EXIDE' in large, bold, black capital letters, and 'Batteries' in a smaller, black, sans-serif font below it. Below the logo, there is a grid of ten yellow icons, each representing a different application for Exide batteries. The icons are arranged in two rows of five. The first row shows a car, a truck, a boat, a forklift, and a construction vehicle. The second row shows a motorcycle, a lawnmower, a generator, a pump, and another construction vehicle. The background of the entire page is a dark, textured image of a car's front end, with the headlights and grille visible.
