

Projectables 45028

Projectables Disney Frozen 2 LED Projector Night Light (Model 45028) Instruction Manual

INTRODUCTION

This manual provides comprehensive instructions for the safe and effective use of your Projectables Disney Frozen 2 LED Projector Night Light. This device is designed to project six distinct images featuring characters from Frozen 2, including Anna, Elsa, Olaf, Kristoff, and Sven. It incorporates light-sensing technology for automatic operation and utilizes energy-efficient LED lighting.

SETUP

1. Unboxing and Initial Placement

Carefully remove the night light from its packaging. Ensure all components are present and undamaged. Select an appropriate wall outlet in the desired room, such as a bedroom, nursery, or playroom. The night light is designed for indoor use only.

2. Plugging In

Insert the night light directly into a standard 120-volt wall outlet. The unit is designed to leave the second outlet free for other devices, ensuring convenience.

Image: The Projectables night light plugged into a wall outlet, demonstrating its compact design that allows access to the second outlet.

3. Adjusting Projection Angle

The projector head can be rotated up to 300 degrees horizontally and 180 degrees vertically. Gently adjust the projector head to direct the image onto a wall, ceiling, or floor as desired. This flexibility allows for optimal placement and viewing.

OPERATING INSTRUCTIONS

1. Light-Sensing Technology

The night light features integrated light-sensing technology. It will automatically turn ON when the ambient light in the room is low (at dusk or in a dark environment) and automatically turn OFF when the room becomes sufficiently lit (at dawn or when lights are turned on).

2. Changing Projected Images

The night light projects six different images. To cycle through these images, locate the built-in scroll wheel on the unit. Gently turn the scroll wheel to select the desired image for projection.

Use the scroll wheel to switch between images

3. Projected Image Examples

The night light projects clear, vibrant images of Frozen 2 characters. The size and clarity of the projected image will vary based on the distance from the wall/ceiling and ambient light conditions.

MAINTENANCE

Cleaning

To clean the night light, ensure it is unplugged from the wall outlet. Use a soft, dry cloth to wipe the exterior. **Do not use any chemical cleaners, abrasive materials, or liquids directly on the lens or the unit, as this may damage the projection quality or the device itself.**

TROUBLESHOOTING

If the night light is not functioning as expected, please consider the following:

- **No Projection:** Ensure the unit is securely plugged into a working outlet. Check if the room is sufficiently dark for the light-sensing feature to activate.

- **Dim or Unclear Projection:** Verify that the lens is clean and free from dust or smudges. Ensure the room is dark enough for optimal projection clarity.
- **Light Not Turning On/Off Automatically:** Confirm that the light sensor is not obstructed. The sensor requires ambient light to detect day/night conditions.

SPECIFICATIONS

Feature	Detail
Model Number	45028
Brand	Projectables
Power Source	Plug-in
Light Source Type	LED
Special Feature	Dawn-To-Dusk (Light-Sensing)
Material	Plastic
