## ICODE B07YTS1KWP

# I·CODE Time to Wake Alarm Clock for Kids User Manual

Brand: I·CODE | Model: B07YTS1KWP

### INTRODUCTION

The I·CODE Time to Wake Alarm Clock is a multi-functional device designed to assist children in developing healthy sleep habits. It combines a sleep trainer, alarm clock, sleep sound machine, night light, and sleep timer into one compact unit. This manual provides detailed instructions for setting up and operating your I·CODE alarm clock.

## SETUP GUIDE

### Power Connection

The I·CODE Time to Wake Alarm Clock requires continuous power to operate. Use the provided 5V 1A AC adapter charger for safe and durable operation. Ensure the clock is plugged into a power outlet before use.

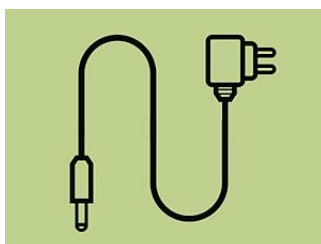

*Figure 2: Power adapter for the alarm clock.*

## Initial Time Setting

To set the current time, locate the "Time Setting" button on the back of the unit (labeled '1' in Figure 3). Press and hold this button to enter time setting mode. Use the '+' and '-' buttons to adjust the hours and minutes. Press the "Time Setting" button again to confirm.

*Figure 3: Rear panel controls and their functions.*

**1. Time Setting:** Adjust current time.

**2. Wake:** Set wake-up time and sun icon.

**3. Sleep:** Set sleep time and moon icon.

**4. Sound:** Select soothing sounds.

**5. Timer:** Set sleep timer for sounds/lights.

**6. Backlight:** Adjust display brightness.

**7. Snooze:** Activate snooze function.

# OPERATING INSTRUCTIONS

## Sleep Training Function

This clock uses visual cues to help children understand when it's time to sleep and wake up. A moon icon indicates sleep time, and a sun icon indicates wake-up time.

- **Setting Sleep Time:** Press and hold the "Sleep" button (labeled '3' in Figure 3). Use '+' and '-' to set the desired sleep time. The clock will display a moon icon and may glow red to indicate it's time to stay in bed.

- **Setting Wake-Up Time:** Press and hold the "Wake" button (labeled '2' in Figure 3). Use '+' and '-' to set the desired wake-up time. The clock will display a sun icon and may glow green to indicate it's time to get up.
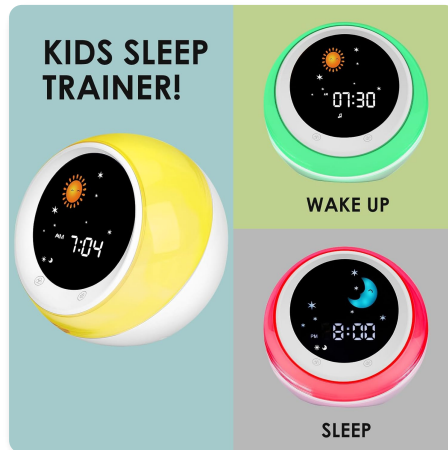

*Figure 4: Visual cues for sleep and wake times.*

*Figure 6: Moon icon indicating sleep time.*

## Touch Sensitive Night Light

The clock features a touch-sensitive night light with adjustable brightness and color options. Simply touch the top of the clock to turn the light on/off or to cycle through colors and brightness levels.

- **Brightness:** There are 3 brightness levels for warm/white light.
- **Color Options:** The light can display various colors or be set to a fixed color of your choice.
- **Sleep Timer Function:** The night light can be set to automatically turn off after a certain period using the Timer function (labeled '5' in Figure 3).

*Figure 7: Night light color and timer options.*

## Sleep Sound Machine

The clock includes a built-in sound machine with 6 high-quality soothing sounds to aid sleep. Press the "Sound" button (labeled '4' in Figure 3) to cycle through the available sounds.

- **Available Sounds:** Sea wave, heartbeat, lullaby, rain, cricket, and baby soothing.
- **Playback Options:** Sounds can be set to play continuously throughout the night or with an AUTO-OFF TIMER.

*Figure 8: Sleep sound machine features.*

### Snooze Function

When the alarm sounds, press the "Snooze" button (labeled '7' in Figure 3) to temporarily silence the alarm and activate the snooze function. The alarm will sound again after a set interval.

### Child Lock Function

To prevent accidental changes to settings by children, the clock features a child lock. Refer to the detailed instructions in the included quick start guide for activating and deactivating this feature.

*Figure 9: Child lock icon.*

## Maintenance

To ensure the longevity and proper functioning of your I·CODE Time to Wake Alarm Clock, follow these maintenance guidelines:

- **Cleaning:** Wipe the clock with a soft, dry cloth. Do not use abrasive cleaners or solvents, as they may damage the surface.

- **Power Adapter:** Always use the original 5V 1A AC adapter. Inspect the cord and adapter regularly for any signs of damage. Do not use if damaged.

- **Placement:** Place the clock on a stable, flat surface away from direct sunlight, excessive heat, or moisture.

## Troubleshooting

If you encounter issues with your I·CODE Time to Wake Alarm Clock, please refer to the following common solutions:

| Problem | Possible Cause / Solution |
| --- | --- |
| **Clock does not power on.** | Ensure the power adapter is securely plugged into both the clock and a working wall outlet. Verify the power outlet is functional. |
| **Sound machine produces high-pitched noise or no sound.** | Try resetting the device by unplugging it for a few minutes and then plugging it back in. If the issue persists, contact customer support. |
| **Display is too bright at night.** | Adjust the backlight brightness using the "Backlight" button (labeled '6' in Figure 3). Ensure the night light perimeter is off if not desired. |
| **Time display does not update or is incorrect.** | Re-set the time using the "Time Setting" button. If the issue is intermittent, ensure the power connection is stable and not easily disturbed. |
| **Sleep/Wake icons (sun/moon) are not changing correctly.** | Verify that the sleep and wake times are set correctly. Ensure the clock is not in child lock mode if you are trying to adjust settings. |

## Specifications
