Swatch SS07S102

Swatch Skin Irony 42 Watch User Manual

Model: SS07S102

1. INTRODUCTION

This manual provides essential information for the proper use and care of your Swatch Skin Irony 42 watch, model SS07S102. This ultra-thin quartz watch features a 42mm round case, a dark navy blue sun-brushed dial with black Swatch glow hands, and a textured rubber strap. It is designed for everyday wear and offers water resistance up to 100 feet.

Image 1.1: Front view of the Swatch Skin Irony 42 watch. The watch features a blue dial with white numbers and red minute markers, housed in a silver-toned case, and secured by a textured blue rubber strap with a silver buckle.

2. SETUP AND TIME ADJUSTMENT

To set the time on your Swatch Skin Irony 42 watch, follow these steps:

1. **Pull out the crown:** Locate the small knob (crown) on the right side of the watch case. Gently pull it outwards until you feel a click.
2. **Adjust the time:** Rotate the crown in either direction to move the hour and minute hands to the correct time.
3. **Push in the crown:** Once the time is set, push the crown back into its original position. This will start the watch movement.

3. OPERATION AND WEARING

3.1 Wearing the Watch

The Swatch Skin Irony 42 watch is designed for comfortable wear. Adjust the rubber strap to fit securely but not too tightly on your wrist.

Image 3.1: The Swatch Skin Irony 42 watch worn on a female wrist, demonstrating its sleek profile and comfortable fit with a light-colored blazer.

Image 3.2: The Swatch Skin Irony 42 watch worn on a male wrist, showcasing its versatile design suitable for various styles.

3.2 Water Resistance

This watch is water resistant up to 100 feet (30 meters). This means it is suitable for splashes, rain, and brief immersion in water. It is not recommended for swimming, diving, or prolonged water activities. Ensure the crown is fully pushed in before any contact with water.

4. MAINTENANCE

4.1 Battery Replacement

The Swatch Skin Irony 42 watch uses one CR2 battery (included). When the watch stops or the hands move erratically, the battery may need replacement. Swatch offers free battery exchange at authorized Swatch retail locations. Attempting to replace the battery yourself may void the warranty.

4.2 Cleaning

To clean your watch, wipe the case and strap with a soft, damp cloth. Avoid using harsh chemicals or abrasive materials, as these can damage the watch's finish or strap. For deeper cleaning, especially of the rubber strap, a mild soap solution can be used, followed by rinsing with clean water and thorough drying.

5. TROUBLESHOOTING

- **Watch is not running or stops intermittently:**
Ensure the crown is fully pushed in. If the watch still does not run, the battery may need to be replaced. Refer to section 4.1 for battery replacement information.
- **Time is inaccurate:**
Check if the crown is fully pushed in. If the time continues to be inaccurate, the watch may require servicing. Contact Swatch customer support or an authorized service center.
- **Condensation under the crystal:**
This may indicate a breach in the watch's water resistance. Avoid further contact with water and seek professional inspection immediately.

6. SPECIFICATIONS
