## 3. FEATURES AND FILTRATION PROCESS

The AQUA CREST 7027W filter employs a multi-stage filtration process to enhance water quality.

### 3.1 High-Efficiency Filtration

This filter utilizes a premium natural coconut activated carbon block. It is designed to reduce chlorine, heavy metals, and improve taste and odor. It also helps in reducing sediment and rust particles from your tap water.

Figure 3.1: Illustration of the filter's ability to remove chlorine, odors, sediments, rust, and bad taste.

### 3.2 Natural and Safe Materials

The filter is constructed with natural coconut shell activated carbon. It is certified Food-Grade, BPA-Free, and Lead-Free, ensuring the safety of your drinking water.

## 4. INSTALLATION INSTRUCTIONS

Follow these steps to install your AQUA CREST 7027W Faucet Water Filter:

1. **Step 1: Insert the filter.** Carefully insert the new filter into the faucet base. Ensure it is seated correctly.
2. **Step 2: Flush the filter.** Let the tap run for 5 minutes to flush the new filter. During this initial flushing period, do not drink the water.

## 5. OPERATING INSTRUCTIONS

Once installed, the filter provides clean water for various household needs. The design ensures a strong and steady water flow.

Seamless Fit with  
Strong, Steady Flow

Figure 5.1: The filter provides a seamless fit and strong, steady water flow.

### 5.1 Applications

The filtered water is suitable for:

- Drinking water
- Cleaning produce
- Cooking
- Brewing coffee or tea

## Clean Water for Everyday Life

Figure 5.2: Various everyday uses for clean filtered water.

## 6. MAINTENANCE

To ensure optimal performance and water quality, replace your filter regularly.

- Filter Replacement:** Replace the filter every 4 months or after filtering 100 gallons of water, whichever comes first. Actual service life may vary based on local water quality and usage.

Figure 6.1: One filter provides 100 gallons of filtered water.

## 7. TROUBLESHOOTING

This section addresses common issues you might encounter with your faucet water filter.

Problem	Possible Cause	Solution
Reduced water flow	Filter is clogged or nearing end of life.	Replace the filter. Ensure proper installation.
Unpleasant taste or odor in filtered water	Filter needs replacement or was not flushed properly.	Flush the filter for 5 minutes. If issue persists, replace the filter.
Water leaking from filter connection	Filter not installed correctly or seals are damaged.	Remove and re-install the filter, ensuring a tight and secure fit. Check for any visible damage to the filter or faucet seals.

## 8. SPECIFICATIONS

Specification	Detail
Brand	AQUA CREST
Model Number	AQK-7027W
Material	Carbon block (Natural coconut activated carbon)
Product Dimensions	4.65"D x 4.65"W x 5"H
Filter Life	Up to 4 months or 100 gallons
Product Benefits	Reduces Chlorine, heavy metals, taste, odor, sediment, rust
Certifications	Food-Grade, BPA-Free, Lead-Free
