ION Audio Sound Stone 2 Wireless Outdoor Rock Speakers User Manual

Model: Sound Stone 2 (IOA00809)

INTRODUCTION

This manual provides essential instructions for the safe and efficient use of your ION Audio Sound Stone 2 Wireless Outdoor Rock Speakers. Please read this guide thoroughly before operating the product and retain it for future reference. The Sound Stone 2 speakers are designed to provide wireless audio in outdoor environments, featuring a durable, weather-resistant construction and Bluetooth connectivity.

PACKAGE CONTENTS

- 2 x Sound Stone 2 Wireless Outdoor Rock Speakers
- 1 x USB Charging Cable
- 1 x USB Power Adapter
- 1 x 1/8-inch (3.5mm) Auxiliary Cable
- Quickstart Guide
- Safety and Warranty Manual

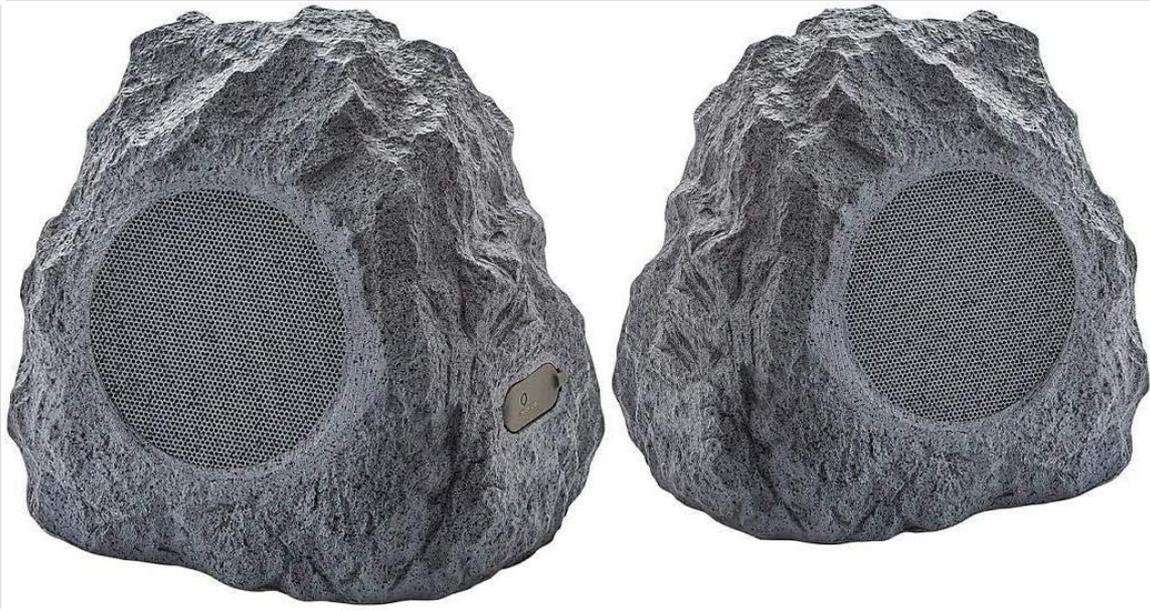

Image: Two ION Audio Sound Stone 2 wireless outdoor rock speakers. These speakers are designed with a realistic rock texture in dark gray, intended to seamlessly integrate into outdoor environments. Each unit features a prominent circular speaker grille on its front face.

FEATURES

- **5-inch Full-Range Speaker:** Delivers clear audio output.
- **Integrated Amplifier:** Provides robust sound performance.
- **Rechargeable Battery:** Offers extended playback time.
- **IPX4 Water-Resistant Design:** Suitable for outdoor use in various weather conditions.
- **Bluetooth Connectivity:** Wirelessly streams music from compatible devices.
- **Wireless Stereo Linking:** Connects two Sound Stone 2 speakers for genuine stereo sound.
- **Auxiliary Input:** 1/8-inch (3.5mm) input for non-Bluetooth audio sources.
- **Realistic Rock Design:** Blends naturally into outdoor landscaping.

SETUP

1. Charging the Speakers

Before first use, fully charge both Sound Stone 2 speakers. Connect the included USB charging cable to the speaker's charging port and the other end to the USB power adapter. Plug the adapter into a standard wall outlet. The charging indicator light will illuminate during charging and turn off when fully charged. A full charge typically takes several hours.

- Use only the provided USB cable and power adapter.
- Ensure the charging port cover is securely closed after charging to maintain water resistance.

2. Powering On/Off

To power on a speaker, press and hold the Power button located on the control panel until you hear an audible tone. To power off, press and hold the Power button again until the speaker shuts down.

3. Bluetooth Pairing (Primary Speaker)

1. Ensure the speaker is powered on and no other Bluetooth devices are currently connected. The Bluetooth indicator light will flash, indicating it is in pairing mode.
2. On your Bluetooth-enabled device (e.g., smartphone, tablet), navigate to the Bluetooth settings menu.
3. Select "Sound Stone 2" from the list of available devices.
4. Once paired, the Bluetooth indicator light on the speaker will glow solid, and you will hear a confirmation tone.

Note: For optimal performance, ensure your Bluetooth device is within 30 feet (10 meters) of the primary speaker.

4. Stereo Linking (Connecting Two Speakers)

To achieve true stereo sound, you can wirelessly link two Sound Stone 2 speakers:

1. Power on both Sound Stone 2 speakers.
2. Ensure neither speaker is currently connected to a Bluetooth device. If a speaker is connected, disconnect it from your device's Bluetooth settings.
3. On one speaker (this will be your primary speaker), press and hold the Link button for approximately 3 seconds. The speaker will enter linking mode.
4. On the second speaker (this will be your secondary speaker), press and hold the Link button for approximately 3 seconds.
5. The speakers will automatically search for and link to each other. Once linked, you will hear a confirmation tone, and the Link indicator lights on both speakers will glow solid.
6. Now, connect your Bluetooth device to the primary speaker as described in "3. Bluetooth Pairing (Primary Speaker)". Audio will play in stereo through both linked speakers.

Tip: If you experience difficulty linking, ensure both speakers are fully charged and within close proximity (within 30 feet). Disabling Bluetooth on your phone before linking the speakers can sometimes help establish the connection more smoothly.

5. Auxiliary Input

For devices without Bluetooth, you can use the 1/8-inch (3.5mm) auxiliary input. Connect one end of the included auxiliary cable to your audio device's headphone output and the other end to the AUX input port on the Sound Stone 2 speaker. The speaker will automatically switch to AUX input mode.

OPERATING INSTRUCTIONS

1. Speaker Placement

Place the Sound Stone 2 speakers in your desired outdoor location. Their realistic rock design allows them to blend discreetly into landscaping. For optimal stereo separation, position the two linked speakers at an appropriate distance from each other, typically within 30 feet (10 meters).

2. Volume Control

Adjust the playback volume directly from your connected Bluetooth device or the audio source connected via the auxiliary input.

3. Water Resistance

The Sound Stone 2 speakers feature an IPX4 water-resistant design, meaning they are protected against splashing water from any direction. This makes them suitable for outdoor use and exposure

to light rain. However, they are not designed to be submerged in water or exposed to pressurized water jets. Always ensure all port covers are securely closed to maintain water resistance.

MAINTENANCE

1. Cleaning

To clean the speakers, use a soft, dry cloth. For stubborn dirt, a slightly damp cloth can be used. Avoid using abrasive cleaners, solvents, or harsh chemicals, as these can damage the finish and internal components.

2. Storage

When not in use for extended periods, store the speakers in a cool, dry place away from direct sunlight and extreme temperatures. It is recommended to fully charge the batteries before storing and to recharge them every few months to maintain battery health.

TROUBLESHOOTING

| Problem | Possible Solution |
|-----------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Speaker does not power on. | Ensure the battery is charged. Connect the speaker to a power source using the USB cable and adapter. |
| Cannot pair with Bluetooth device. | <ul style="list-style-type: none">◦ Ensure the speaker is in pairing mode (flashing Bluetooth light).◦ Make sure Bluetooth is enabled on your device and "Sound Stone 2" is selected.◦ Move your device closer to the speaker.◦ Try disabling and re-enabling Bluetooth on your device.◦ If linking two speakers, ensure they are linked first, then connect your device to the primary speaker. |
| Speakers do not link for stereo sound. | <ul style="list-style-type: none">◦ Ensure both speakers are powered on and fully charged.◦ Disconnect any Bluetooth devices from both speakers before attempting to link.◦ Place speakers within 30 feet (10 meters) of each other.◦ Press and hold the Link button on both speakers for 3 seconds. |
| No sound from speaker. | <ul style="list-style-type: none">◦ Check the volume level on your connected device.◦ Ensure the speaker is properly paired via Bluetooth or connected via AUX cable.◦ If using AUX, ensure the cable is fully inserted and the audio source is playing. |
| One speaker not charging. | <ul style="list-style-type: none">◦ Verify the USB cable and power adapter are functioning correctly. Try a different cable/adapter if available.◦ Ensure the charging port is clean and free of debris.◦ If the issue persists, contact customer support. |
