## AeroPress 15A01

# AeroPress Go Travel Coffee Press Kit Instruction Manual

Model: 15A01 | Brand: AeroPress

## PRODUCT OVERVIEW

---

The AeroPress Go is designed for coffee lovers on the go. It offers a 3-in-1 brew method that combines French Press, pour-over, and espresso styles to produce full-bodied coffee without grit or bitterness. Its compact and portable design makes it ideal for travel, camping, or office use.

## Key Features

- **An Amazing Cup, Now On The Go:** Take the AeroPress Go with you and enjoy a truly delicious coffee wherever you go. The AeroPress Go is slightly smaller than the AeroPress Original, but can still produce 1-3 servings of espresso-style coffee, and it features a handy mug and lid that double as a traveling case, making it perfect for the office, traveling, camping, boating and more
- **All About Taste & Practicality:** The AeroPress Go travel coffee maker brews smooth, delicious coffee without bitterness or grit, unlike other methods like french press. There's no experience necessary for brewing with AeroPress Go: with a brewing time of just a minute, AeroPress is all about making it easy to brew delicious coffee wherever you are with a portable espresso maker.
- **Be Your Own Barista:** The AeroPress Go is a new way of brewing coffee that delivers a delicious result in just under a minute. You can choose to brew hot or espresso-style coffee, or use cold water to make cold brew in two minutes. Tweak your combinations and find the right spot for you – with the AeroPress Go, you have total control over your coffee with a portable coffee maker.
- **How to Use:** Just add coffee and water, stir, and press! Easily makes 8oz (237ml) of regular coffee or 1 to 3 espresso-style shots for use in lattes, cappuccinos, and other espresso-based drinks per pressing in about a minute. It can also make cold brew in just two minutes! We recommend a medium-fine grind, but vary your recipes however you choose!
- **About AeroPress:** Smart design and creativity have always been the heart of what we do, and we are now squarely focused on inspiring even more coffee lovers around the world to revolutionize their coffee routine. Designed in Silicon Valley, Materials used in AeroPress coffee makers are free of BPA and phthalates

## INCLUDED COMPONENTS

---

The AeroPress Go Travel Coffee Press Kit includes the following:

- AeroPress Go chamber and plunger
- Filter cap
- Scoop
- Stirrer
- Paper micro-filters (350 count)
- Filter holder
- Travel mug and lid (doubles as a traveling case)

## SETUP GUIDE

---

Follow these steps to prepare your AeroPress Go for brewing:

**1. 1. Prepare the Filter:**

Place a paper micro-filter into the filter cap. Twist the filter cap onto the bottom of the AeroPress chamber.

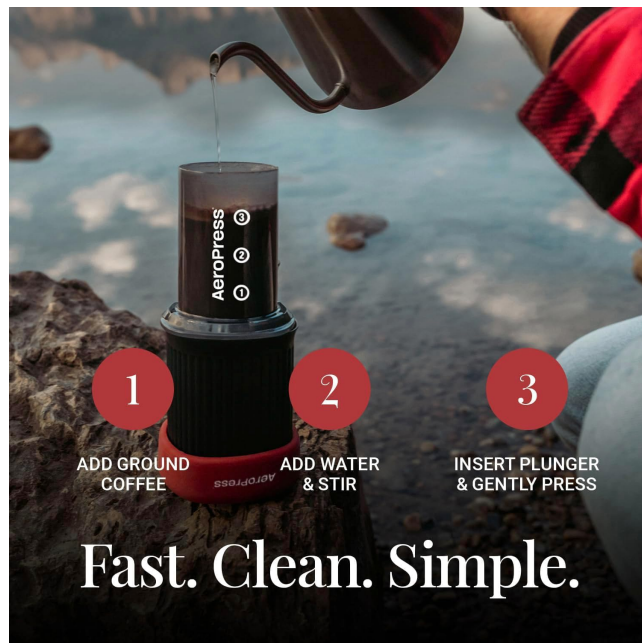

Image: A hand placing a small white paper filter into the black filter cap of the AeroPress Go.

## 2. 2. Assemble the Unit:

Place the AeroPress chamber with the filter cap attached onto the included travel mug or your preferred coffee mug.

Image: The fully assembled AeroPress Go unit with its red lid, black ribbed body, and clear plunger, alongside the scoop and filter cap.

### Brewing Hot Coffee (1-3 Servings)

#### 1. 1. Add Ground Coffee:

Use the included scoop to add 1-3 rounded scoops of medium-fine ground coffee into the AeroPress chamber. For 1 serving, use 1 scoop. For 2-3 servings, use 2-3 scoops and divide the brewed concentrate.

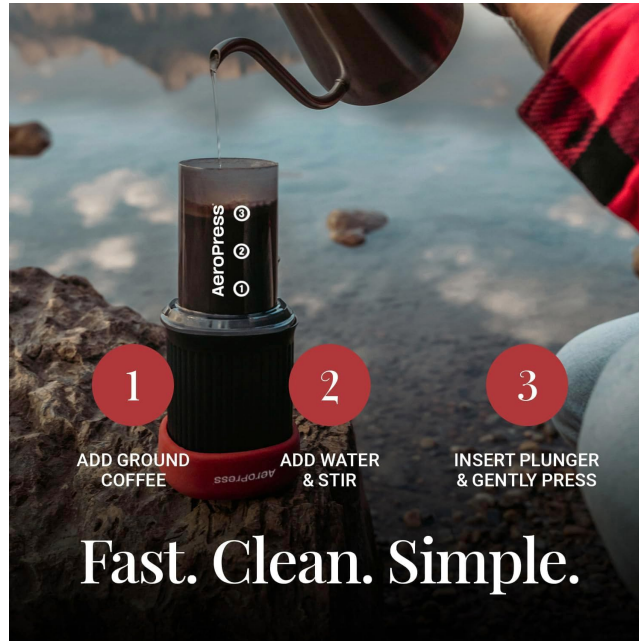

Image: A hand adding coffee grounds into the AeroPress chamber using the provided scoop.

#### 2. 2. Add Hot Water & Stir:

Pour hot water (around 175°F / 80°C) into the chamber up to the desired level (marked 1, 2, or 3 on the chamber). Stir for 10 seconds using the included stirrer.

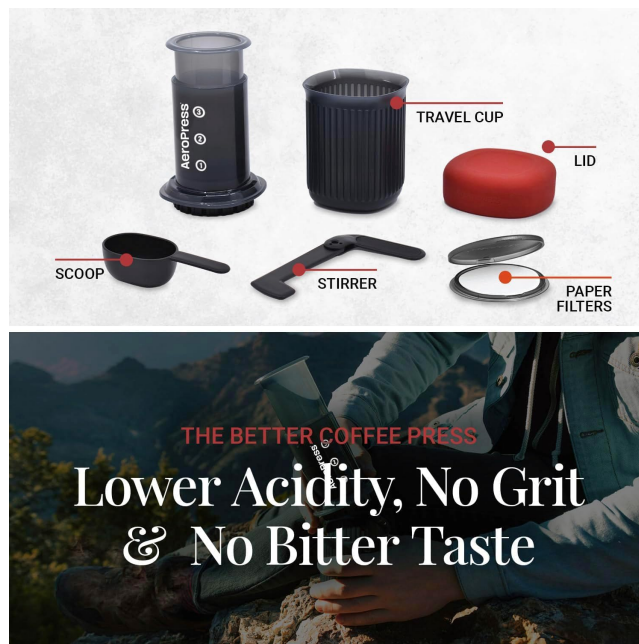

Image: Hot water being poured into the AeroPress chamber, followed by stirring the coffee grounds.

#### 3. 3. Press:

Insert the plunger into the top of the chamber and press gently. Continue pressing until you feel resistance and hear a hissing sound, indicating all the coffee has been extracted. This should take about 20-30 seconds.

Image: A person pressing down the plunger of the AeroPress Go to extract coffee into the mug below.

## Brewing Cold Brew

For cold brew, use room temperature water and stir for 1 minute. Press as usual. The cold brew concentrate can be diluted with water or milk.

Note: No official seller instructional videos were available for embedding.

## CARE AND MAINTENANCE

---

The AeroPress Go is designed for easy cleaning to ensure longevity and optimal performance:

### 1. 1. Remove Coffee Puck:

After brewing, unscrew the filter cap. Hold the AeroPress over a trash can and press the plunger all the way through to eject the compressed coffee puck and filter. The puck should come out cleanly.

Image: A hand pushing the plunger to eject the used coffee puck and filter from the AeroPress chamber.

### 2. 2. Rinse:

Rinse the plunger and chamber with warm water. For daily use, a simple rinse is often sufficient. For a more thorough clean, use mild soap and water.

3. **3. Storage:**

Store the AeroPress Go with the plunger pushed completely through the chamber to prevent the rubber seal from compressing and losing its effectiveness over time.

**TROUBLESHOOTING**

Problem	Possible Cause	Solution
Coffee tastes bitter	Water too hot, over-extraction, or too fine a grind.	Use water around 175°F (80°C). Reduce brewing time. Use a coarser grind.
Coffee has grit	Filter not properly seated or filter cap loose.	Ensure filter is flat in the cap and cap is screwed on tightly.
Plunger is hard to press	Grind too fine or too much coffee.	Use a coarser grind. Reduce the amount of coffee.
Coffee is too weak	Not enough coffee or water too cool.	Increase coffee amount. Use hotter water.

**PRODUCT SPECIFICATIONS**

- Brand:** AeroPress
- Color:** Grey
- Product Dimensions:** 4.2"D x 4.2"W x 7.3"H
- Special Feature:** Portable
- Coffee Maker Type:** French Press
- Filter Type:** Paper
- Style:** Casual
- Specific Uses For Product:** Espresso
- Recommended Uses For Product:** Backpacking, Traveling, Camping, Hiking
- Exterior Finish:** Matte
- Included Components:** Plunger
- Operation Mode:** Manual
- Model Name:** AeroPress Go
- Number of Items:** 1
- Customer Package Type:** Standard Packaging
- Unit Count:** 33.814 Fluid Ounces
- Manufacture Year:** 2019
- Global Trade Identification Number:** 00085276001005
- Coffee Input Type:** grounds

**Manufacturer:** AeroPress

**UPC:** 085276001005

**Item Weight:** 11.2 ounces

**ASIN:** B07YVL8SF3

**Country of Origin:** USA

**Item model number:** 15A01

**Customer Reviews:** 4.7 4.7 out of 5 stars 12,438 ratings 4.7 out of 5 stars
