Hessaire CVR6091

Hessaire Cooler Cover CVR6091 Instruction Manual

For Models: MC91, MC92V, M350 (11,000 CFM Evaporative Coolers)

PRODUCT OVERVIEW

The Hessaire Cooler Cover CVR6091 is designed to protect your evaporative cooler from environmental elements when not in use. This durable cover is compatible with Hessaire evaporative cooler models MC91, MC92V, and M350, which are typically 11,000 CFM units. Constructed from lightweight 600D Polyester with a PVC coating, it offers excellent resistance to fading under sunlight and provides robust protection.

SETUP AND INSTALLATION

Follow these steps to properly install the Hessaire Cooler Cover CVR6091:

1. **Ensure Cooler is Off and Dry:** Before placing the cover, ensure your evaporative cooler is turned off, unplugged, and completely dry. Remove any standing water from the reservoir.
2. **Clean the Cooler:** It is recommended to clean the exterior of your cooler before covering it to prevent dirt and debris from being trapped underneath.
3. **Position the Cover:** Carefully place the cover over the top of your Hessaire evaporative cooler. Align the cover so it drapes evenly over all sides of the unit.
4. **Secure the Cover:** The cover is designed to fit snugly. Ensure the bottom edges are pulled down as far as possible to provide maximum protection against wind and elements. Some covers may include drawstrings or buckles for additional securing; if present, tighten them appropriately.

OPERATING INSTRUCTIONS

The Hessaire Cooler Cover CVR6091 is intended for use during periods when your evaporative cooler is not in operation, typically during off-seasons or extended storage. It is not designed to be used while the cooler is running.

- **When to Use:** Apply the cover when the cooler will be stored outdoors for an extended period, such as during winter months, or when you wish to protect it from dust, rain, and UV exposure.
- **When to Remove:** Remove the cover completely before operating your evaporative cooler. Operating the cooler with the cover on can restrict airflow and potentially damage the unit.

MAINTENANCE AND CARE

Proper maintenance will extend the life of your Hessaire Cooler Cover CVR6091:

- **Cleaning:** To clean the cover, wipe it down with a damp cloth and mild soap. Rinse thoroughly with water and allow it to air dry completely before storing or reapplying. Do not use harsh chemicals or abrasive cleaners.
- **Storage:** When not in use, store the cover in a cool, dry place away from direct sunlight. Ensure it is clean and dry to prevent mold or mildew growth.
- **Inspection:** Periodically inspect the cover for any signs of wear, tears, or damage. Promptly repair small tears to prevent them from enlarging.

TROUBLESHOOTING

If you encounter issues with your Hessaire Cooler Cover CVR6091, consider the following:

- **Cover Does Not Fit:** Verify that your cooler model (MC91, MC92V, M350) matches the compatibility of the CVR6091 cover. Check for any obstructions on the cooler that might prevent a proper fit.
- **Water Accumulation:** Ensure the cover is pulled down tightly and secured to prevent water from pooling on top, which could lead to leaks or damage over time. If pooling occurs, adjust the cover or consider adding a slight elevation to the center of the cooler top to promote runoff.
- **Wind Damage:** In high wind conditions, ensure the cover is securely fastened. If your cover has tie-downs or buckles, use them. Consider adding additional weights or securing straps if necessary in extremely windy environments.

SPECIFICATIONS

Feature	Detail
Model Number	CVR6091
Compatible Cooler Models	MC91, MC92V, M350 (11,000 CFM)
Material	600D Polyester with PVC coating
Color	Silver Gray
Product Dimensions	16 x 4 x 12 inches (packaged)
Item Weight	5.8 pounds
UV Rating	UV rated (will not fade under sunlight)

WARRANTY INFORMATION

The Hessaire Cooler Cover CVR6091 comes with a **1-year manufacturer's warranty**. This warranty covers defects in materials and workmanship under normal use. Please retain your proof of purchase for any warranty claims.
